NEW EDUCATIONAL WORKS.

Sixth Edition, enlarged and revised, now ready, price 2s. 6d.

The Marlborough French Grammar. Arranged and compiled by the Rev. J. F. BRIGHT, M.A., Master of the Modern School in Marlborough College. 164 pages, cloth.

Fifth Edition, enlarged and revised, now ready, price 3s. 6d.

The Marlborough French Exercises. By the Rev. G. W. DE LISLE, M.A., French Master in Marlborough College. Adapted for use in connection with the Grammar. 256 pages, cloth.

These two works are now in use at Harrow.

New Edition, enlarged and revised, price 3s. 6d.

The Marlborough German Grammar, arranged and compiled by the Rev. J. F. BRIGHT, M.A., Master of the Modern School in Marlborough College.

MORELL'S NEW SPELLING-BOOK.

A Complete Manual of Spelling, on the Principles of Contrast and Comparison. By J. D. MORELL, LL.D., H.M. Inspector of Schools. Crown 8vo, 128 pp., cloth, price 1s.

The Publishers extract from the Author's Preface the following SIGNIFICANT FACT:—"It appears that out of 1,072 failures in the Civil Service Examinations, 1,866 Candidates were PLUCKED FOR SPELLING."

"In the present Manual the main difficulties in spelling English have been as far as possible met. The amount of practice given is much greater than can be found in any other book. Every theoretical element is [illegible] to be found here; and an honest attempt has been made to produce a complete work on the subject."

PROCTOR'S NEW WORK ON ASTRONOMY.

Elementary Astronomy. By R. A. PROCTOR, B.A., F.R.A.S., Author of "Other Worlds," "The Sun," etc. With nearly 50 original Illustrations. 128 pp., fcap. 8vo. Second Edition, price 1s.

The *Athenæum* says: "It may safely be affirmed that nowhere else is the same amount of sound astronomical information conveyed in so striking and attractive a manner, within the same limits, as in the present work. It contains all the leading facts of the science, including the most recently discovered, which are within the comprehension of youthful and popular readers, expressed in a singularly lucid, unmistakable style, with a delightful absence of would-be fine writing. There could not be a better first book for schools and young people in general."

PROFESSOR ANSTED'S NEW WORK ON GEOGRAPHY.

Elementary Geography. By Prof. D. T. ANSTED, M.A., F.R.S., Examiner in Physical Geography in the Department of Science and Art. Illustrated with Original Diagrams. 160 pp., fcap. 8vo., price 1s.

Extract from Preface.—"Every effort has been made, in the preparation of this work, to combine as far as possible clear definition, simple but comprehensive and accurate descriptions, and correct statistics, with a style sufficiently attractive to justify its selection as a text-book for general instruction in Primary Schools. It contains, however, more than need be taught at first to young pupils, and is intended to be available for the advanced classes."

Editor's Preface.

SEVERAL Principals of Schools have suggested, that by devoting my attention to the compilation of a book of this kind, an accurate and comprehensive volume might be produced, and from the favourable reception accorded to my previous work, the *Oxford and Cambridge Local Examination Record*, I cannot but hope that "**Our SCHOOLS and COLLEGES**" may meet with similar recognition. I do not expect that it will be QUITE a perfect and complete record of EVERY School in England, but I have taken considerable pains to seek information at the "fountain heads;" for, as regards all the endowed and most of the leading private Schools of England, I have placed myself in direct communication with the Head Masters or responsible representatives, and I think the description, as given, will be found as complete and accurate, up to the present date, as it is possible to be; and this remark is equally applicable to the University Intelligence, and that of the six great Public Schools. The order of the Indices, the topographical arrangement of the endowed and private Schools, and the names of the Head Masters alphabetically indexed, make the information specially easy of reference; and it may here be a fitting place to allude briefly to the plan I have purposely carried out. In the first part of the book due prominence is given to each of our Universities in their order of precedence; then follow the six great Public Schools, our "Royal Military Schools," including the "Indian Civil Engineering College," the Theological Colleges, the Training Institutions for Schoolmasters, and, as far as the nature of the work will allow, a very lucid account of all the endowed and the

principal private Schools of Great Britain. A comprehensive Index, and an Appendix containing official announcements of Schools, complete the work.

With respect to the Endowed Schools, I have, in most instances, been particularly gratified by receiving the most courteous and prompt replies to my questions; I however failed in some cases in obtaining from the Principals of Private Schools such full information as I could have wished, but as I intend to publish a new Edition of this work either biennially, triennially, or quinquennially, I trust that Heads of Private Schools will hereafter testify their appreciation of my efforts to supply the most correct and succinct work of reference of the kind by forwarding the information in which this volume may be deficient.

I beg to tender my best thanks to those gentlemen to whose kindness in answering my inquiries this volume owes so much, and I also thank my colleague, Mr. Radford, for many valuable suggestions made during the progress of the work.

Editorial Note.

THE compilation of this book has necessarily been a work of much and careful labour, the Editor being desirous that the information should, in every respect, be *accurate* and *reliable*, this statement is made with the confidence resulting from the care that has been taken to represent only such Institutions as are actually in existence, a feature which seems to be ignored altogether in works of educational reference. This book, however, is not intended to be a mere "Directory of the names of Schools and Colleges" the Editor's object has been to give (as far as the nature of the work will allow) the most *copious* as well as *accurate* information on the salient points connected with every educational Institution in Great Britain, so that it might be found a most useful guide to Parents, as well as a reliable work of reference to the Educator. Those Principals whose names appear only in the **Addenda** (page 511 to 518), will insure the classification of their establishments in the next Edition by sending the required information to the Editor. When the book was first announced, it was stated that it would consist of **300** pages; it, however, contains upwards of **500** pp., but the original price (3/6) remains unaltered.

OUR UNIVERSITIES.

The University of Oxford.

THE origin of this University cannot now be discovered. By some, Alfred the Great is said to have been its founder, but the statement is not supported by history. What we do know, however, is that Oxford dates from before the time of Edward the Confessor, and that its first charter was granted by Henry III. It has twenty colleges and five halls, each college being a corporate body, administering its own affairs, but the property of the halls is held in trust by the University, which carries on its business by means of two sets of members, the House of Congregation and the House of Convocation; the former of which receives from the Hebdomadal Council, consisting of the heads of colleges, &c., statutes framed for the government of the University, and transmits them, if approved, to the latter for enactment. Convocation elects the two members of Parliament who sit for Oxford University. Candidates for Degrees have to be in residence twelve terms at least before they can proceed to the examination for B.A. The cost of a career at Oxford depends to a great extent upon the habits of the student. The University Commissioners estimated it recently at about 600*l.*, but it has since been shown that, with economy, half that sum may be made to suffice. 400*l.* would be ample for one of moderate means and wants. It has been calculated that the cost of tuition, rent, and food in the College recently erected as a memorial to Keble is about 51*l.* per annum, or 153*l.* for the whole course. This of course does not include the expenses of a student during the vacations.

UNIVERSITY TERMS.

THERE are four Terms for academical exercises in each year, but for many Professors' Lectures and some other purposes Easter and Trinity Terms together count as only one.

1. MICHAELMAS TERM begins on the 10th of October, and ends on the 17th of December.

2. HILARY (or LENT) TERM begins on the 14th of January, and ends on the day before Palm-Sunday.

3. EASTER TERM begins on the Wednesday after Easter Day, and ends on the Friday before Whit-Sunday.

4. TRINITY (or ACT) TERM begins on the day before Whit-Sunday, and usually ends on the Saturday after the first Tuesday in July, but may be continued beyond that day by Congregation.

If the day fixed for the beginning or end of any Term happen to be a festival, the beginning or end of such Term is deferred till the day after, except only that Easter Term in such case ends the day before.

Full Term begins on the Sunday after the first Congregation, that is, on the Sunday after the first day of Term.

Michaelmas and Hilary Terms are kept by six weeks' residence in each, Easter and Trinity Terms either by three weeks' in each, or by forty-eight days' residence in the two Terms jointly.

SCHOLARSHIPS AND FELLOWSHIPS.

CRAVEN SCHOLARSHIPS, founded in 1647 by Lord Craven, now consist at Oxford of 6, of 80*l.* per ann. each, tenable 3 years. Two scholars are elected in Act Term, who must have passed the Second Public Examination in Greek and Latin at least in one school, and not have gone beyond their twenty-fourth term since matriculation.

RADCLIFFE'S TRAVELLING FELLOWSHIPS, founded by Dr. Radcliffe (founder of the Radcliffe Library), in 1714, now consist of 3, of 200*l.* per ann., tenable for 3 years. Candidates must have passed all the examinations required for B.A. degree, must have been placed in the First Class in School of Natural Science, must declare they intend to graduate in Medicine at Oxford University, and must travel abroad for the study of Medicine.*

VINERIAN FELLOWSHIP AND SCHOLARSHIPS, founded by Viner, now consist of one Fellowship of 100*l.* per ann., and 5 scholarships of 35*l.* per ann. each, all elected for five years—the Fellows by Convocation, the Scholars by a Board appointed for the purpose. A Candidate for the Fellowship must be unmarried, a member of the University, a M.A. or

* Since 1867, candidates must also obtain, after competition, some University Prize or Scholarship

B.C.L., and be or have been called to the bar. A Candidate for the Scholarship must be unmarried, a member of the University for 24 calendar months previously, and not have matriculated more than 6 years.

DEAN IRELAND'S SCHOLARSHIPS, founded in 1825, now consist of 4 of 30*l.* per ann. each, of which one is bestowed annually in Lent Term, after an examination in Classics, upon an undergraduate who has not exceeded his sixteenth Term.

ELDON LAW SCHOLARSHIP, founded in 1830 by public subscription, in honour of Lord Eldon, consists of one Scholarship of per ann. for 3 years. Candidates must be members of the University and of Church of England, have obtained B.A. degree, have been rated in the First Class in one branch at least of B.A. examination, and must intend to follow legal profession.

BODEN SCHOLARSHIPS, founded by Col. Boden, 1830, consist of 4 of 50*l.* per ann., one awarded yearly in Lent. Candidates must be under 25, and show some proficiency in Sanscrit language and literature.

MATHEMATICAL SCHOLARSHIPS, founded in 1831, now consist of 2 of 30*l.* per ann. each, tenable for 2 years, and 20*l.* extra from the Johnson fund to senior scholars for one year.

KENNICOTT SCHOLARSHIP, founded by the widow of Dr. Kennicott, in 1803, for the promotion of study of Hebrew, consists of but one Scholarship of 144*l.* for one year. Candidates must be B.A., and not have exceeded 28 terms from matriculation.

PUSEY AND ELLERTON SCHOLARSHIPS, founded in 1832 to promote "sound theology through a solid and critical knowledge of Hebrew," consist of 3 Scholarships of 50*l.* per ann. each (one elected annually); tenable for 3 years. Candidates must be members of University, and under 25 years old.

DENYER AND JOHNSON SCHOLARSHIPS consist of 3 (in all 110*l.*) annually for one year, awarded to B.A.'s, between their nineteenth and twenty-seventh Term, who are the three best who pass examinations in Divinity.

HERTFORD SCHOLARSHIP, founded in 1834, consists of one Scholarship of 33*l.*, tenable for one year, by the Student who obtains it by free competition and public examination, for proficiency in Latin. Candidates must not have completed their second year from matriculation.

TAYLOR'S SCHOLARSHIPS, founded in 1857, consist of 4 of 25*l.* per ann. for 2 years, for proficiency in Modern Languages. Candidates must not be over 24 years.

BURDETT-COUTTS SCHOLARSHIPS, founded in 1860, consist of 2 of 75*l.* per ann. each, tenable for 2 years. Candidates must have passed Examination in School of Natural Science, have not completed sixth year from matriculation, and be proficient in Geology and Natural Science bearing on Geology.

PRIZES.

THE CHANCELLOR'S PRIZES, instituted by the Earl of Lichfield, Chancellor of the University, 1762-72, consist of 3 prizes of 20*l.* each, given annually for Latin Verse, Latin Prose, and English Prose, to members who have not exceeded 4 years since matriculation.

SIR R. NEWDEGATE'S PRIZE, founded in 1806, consists of 21*l.*, given annually for the best composition in English Verse, under same restrictions as the Chancellor's Prize.

ELLERTON PRIZE ESSAY, instituted in 1825 by Dr. Ellerton, consists of an annual gift of 21*l.* for the best Theological Essay to B.A.'s between their sixteenth and twenty-eighth Term.

The Fellowships are tenable for life, and are all open. 6 of the Scholarships only are open, the remainder are appropriated—21 to Merchant Taylors' School, 2 to Coventry, 2 to Bristol, 2 to Reading, and 1 to Tunbridge Schools. 4 Fellowships on the Fereday foundation, not included amongst the above 18, are partially restricted, and are tenable for 14 years. 33 benefices in gift. 432 members in 1871. President: The Rev. James Bellamy, B.D., elected Dec. 7th, 1871.

TRINITY COLLEGE, originally founded by Edward III., was re-founded in 1554, and possesses a President, 12 Fellows, and 13 Scholars; both Fellowships and Scholarships being open: the latter worth 80*l.* per ann. It has also several Exhibitions. 10 benefices in gift. 372 members in 1871. President: The Rev. S. W. Wayte, B.D., elected 1866.

UNIVERSITY COLLEGE, said to have been founded by Alfred the Great in 872, and restored by William of Durham in 1249, consists of a Master, 13 Fellows, 3 Honorary Fellows, 12 Scholars. It has 5 Exhibitions, 2 of which are open. 10 benefices in gift. 384 members in 1871. Master: The Rev. George Granville Bradley, M.A., elected 1870.

WADHAM COLLEGE, founded in 1613 by Nicholas Wadham, Esq., consists of a Warden, 14 Fellows, 15 Scholars, 2 Chaplains, and 2 Clerks. Both Fellowships and Scholarships open. It has 10 Exhibitions (4 for Hebrew, 6 for Greek), besides several of smaller importance. 13 benefices in gift. 358 members in 1871. Warden: The Rev. John Griffiths, M.A., elected 1871.

WORCESTER COLLEGE, founded in 1714 by Sir Thomas Cooke, consists of a Provost, 18 Fellows, and 15 Scholars. The Fellowships nearly all open. It has 7 Exhibitions. 10 benefices in gift. 373 members in 1871. Provost: The Rev. Richard Lynch Cotton, D.D., elected 1839.

KEBLE COLLEGE.—This college was built by subscription as a memorial to the late Rev. John Keble, sometime Fellow and Tutor of Oriel College, and Professor of Poetry in the University. The college was founded in 1870 for "providing persons desirous of academical education, and willing to live economically, with a college wherein sober living and high culture of the mind may be combined with Christian training based upon the principles of the Church of England." The cost of tuition, rent, and food at this college is about 50*l.* per annum. Warden: The Rev. E. S. Talbot, M.A., elected 1870. There were 36 members in 1871.

HALLS.

MAGDALEN HALL, founded by Bishop Waynflete, consists of a Principal, Vice-Principal, Tutor, and 2 Lecturers. It has 8 Scholarships, 4 open, and 4 Exhibitions, all tenable for 3 years. One benefice in gift. 266 members in 1871. Fee, 5*l.* on entrance, or 3*l.* 10*s.* on taking Degree; rent, 8*l.* to 16*l.* per ann. Principal: The Rev. R. Michell, B.D., appointed in 1868.

NEW INN HALL was fully established in 1438, but existed 100 years previously under another name. 34 members in 1871. Principal and Tutor: The Rev. H. H. Cornish, M.A., appointed in 1866.

S. ALBAN HALL, named after Robert S. Alban, a citizen of Oxford, who once owned it, had 103 members in 1871. Fees payable at matriculation to University, 2*l.* 8*s.*; to Hall, 5*l.* A quarterly payment of 16*l.* includes the charge for tuition, furnished rooms, board, coals, servants, and almost all necessaries. Students not attached to any College or Hall.

The editor conceives this information will be valuable to many of his clients, who are thus enabled to qualify themselves as unattached students.

In the year 1868 the restrictions of an ancient Statute, which has been already mentioned, were removed; and persons are now permitted, under certain conditions prescribed in Statt. Tit. III. Sect. I., to become Students and Members of the University without being attached to any College or Hall. Such persons keep their statutable residence in houses or lodgings in the town, with the same rights of profiting by Professors' lectures, of competing for University Prizes, of attaining distinction in the Public Examinations, and of being admitted to degrees and to all the consequent privileges, as are enjoyed by other students.

The reception of students into the University under the prescribed conditions, and the general direction and superintendence of them during their residence in Oxford, are committed to a Board consisting of the Vice-Chancellor and four Members of Convocation nominated by the Vice-Chancellor and Proctors, two of whom are styled Censors, under the title of "Delegates of Students not attached to any College or Hall."

The Students are under the supervision of the Censors, who are charged with the care of their conduct and studies.

The University of Cambridge.

This University is supposed to have been founded in the seventh century, but the academical system does not appear to have been introduced until 1109. The first Charter granted to it as a University is dated 15th Henry III., and that was 50 years before the founding of Peter House, its oldest endowed College. Its Charters were destroyed during the temporary success of the Watt Tyler Insurrection. Queen Elizabeth incorporated it as a University. It now contains 17 Colleges and Halls, each governed by its own regulations, subject to general University Laws, and all furnishing members, both for the executive and legislative government of the University; for every M.A. or Doctor has a vote in the Senate, and has also a vote for the two Members of Parliament elected by the University. Its entire income is above £5,500. Students are admitted to the University after application to the Tutor of the College which they wish to join, and payment of the caution money and admission fees, which vary, the former from £10 to £20, and the latter from £3 to £5. It is necessary for a Student before taking his B.A. degree, that he should reside in the University nine terms, of which there are three in each year.

Degrees and Admission Fees.

DEGREES *jure dignitatis aut natalium.*

By the University Statutes, cap. 3, sect. 5, degrees may be conferred, without residence or examinations or exercises, on the following persons: viz.

1. Privy Counsellors.
2. Bishops, or Bishops designate.
3. Noblemen:—Dukes, Marquises, Earls, Viscounts, Barons.
4. Sons of Noblemen, or their heirs apparent.
5. Deans of Cathedrals.
6. Heads of Colleges.

If, however, Noblemen, or the sons or heirs apparent of Noblemen, come to the University as *juvenes*, they can take the degree of B.A. only, and must pass the same Examination for that degree as other Students. Such persons are required to reside seven terms, and may be Candidates for Honours in any of the Honour Triposes in their seventh term of residence: they do not wait for inauguration as Bachelors of Arts, but are at once admitted *ad perfectum gradum.*

No person taking a degree *jure dignitatis* is entitled to a vote in the Senate, unless he shall have resided three Terms.

Caution Money.

The money paid on admission at each College is, for

Nobleman	£50	0 0	Pensioner	£15	0 0
Fellow-Commoner.....	25	0 0	Sizar.....	10	0 0

The caution money remains in the hands of the Tutor, and is not

returned till a person takes his name off the boards. Noblemen and Fellow-Commoners usually make a present of plate to the College.

Admission Fees.

In addition to the caution, every Student on admission, or coming into residence, makes a payment, differing at different Colleges.

Matriculation Fees.

By Graces of the Senate it has been decreed that the matriculation fees paid to the Registrary for the common chest be as follows :—

Nobleman	£15	0 10	Pensioner	£5	0 0
Fellow-Commoner	10	10 0	Sizar	0	15 0

College Payments.

In each College, a quarterly payment is made by each member of it, according to his degree and condition, on a scale which differs in the several Colleges.

This payment includes the annual contributions made to the University. These payments may be compounded for in several Colleges, subsequent to the degrees of D.D., B.D., LL.D., M.D., M.A., and LL.M.

Tuition.

The terminal payments of persons in *statù pupillari* in every College are the following :—

Nobleman	£13	6	8	Bachelor Fellow-Commoner	£2	10	0
Fellow-Commoner	10	0	0	Bachelor of Arts	1	10	0
Pensioner	6	0	0				
Sizar	2	0	0				

Such payments being made only during residence. No payment for tuition is required from non-resident Bachelors or Undergraduates.

Fees for Degrees.

The following RULES have been made by the Senate :—

1. That in lieu of the fees now payable to the common chest and to the officers and servants of the University by candidates for Degrees, the following fees only be paid to the common chest, viz.

	£	s.	d.
(*a*) On admission to the degree of B.A. or LL.B. at the time or times of general admission	7	0	0
(*b*) On admission to the degree of B.A. or LL.B. at any other time	10	10	0
(*c*) On admission to the degree of M.A. or LL.M., whether the Candidate be a Fellow of a College or not	12	0	0

	£	s.	d.
(*d*) On admission to the degree of S.T.B., M.B., or Mus. B.	8	0	0
(*e*) On admission to the degree of M.B. when the Candidate is a Bachelor of Arts or Bachelor of Laws	2	0	0
(*f*) On admission *ad practicandum in medicina*	2	0	0
(*g*) On admission to the degree of S.T.P. or LL.D	20	0	0
(*h*) On admission to the degree of M.D., whether the Candidate be a Bachelor of Medicine or a Master of Arts	10	0	0
On admission to the degree of M.C. (Master in Surgery), with no previous degree	18	0	0

Non-Collegiate Students of the University.

Previously to the year 1858 no Student could be admitted a Member of the University who was not entered on the Boards of a College. In that year Statutes were confirmed providing for the establishment and regulation of Hostels for the reception of Students who should be matriculated and admitted to all the privileges of the University without being of necessity entered as Members of any College. No such Hostel, however, is now in existence.

In the year 1869 a Statute was confirmed in accordance with which Students may be admitted Members of the University without being Members of any College or Hostel. Such Students keep Terms by residing in Cambridge with their parents or in lodgings duly licensed, and are entitled to be matriculated, examined, and admitted to degrees in the same manner and with the same status and privileges as Students who are Members of Colleges. They are under the jurisdiction of the Vice-Chancellor and Proctors, and are required to pay due obedience to all academical regulations.

All applications for admission and other communications are to be addressed to the Censor, the Rev. R. B. Somerset, Trumpington Road, Cambridge.

Dublin University

Was founded by Queen Elizabeth in 1591, in which year the College o the Holy and Undivided Trinity was incorporated as the "mater Universitatis," and authorised to Elect a Chancellor, and confer Degrees in the various faculties. Its members consist of a Provost, 7 senior Fellows, 26 junior Fellows, and 70 Scholars on the foundation, besides 10 non-foundation Scholars, 30 Sizars, and about 1,200 Students. Its endowments are about 30,000*l.* per ann., derived from landed estates, besides rents and fees and class-fees from Students, the last of which are about 20,000*l.* per ann. It possesses 14 Studentships of 100*l.* per ann., tenable for 7 years, and open to candidates of all religious opinions. Scholars have their commons free, their rooms at half the charge made to other Students, are exempted from other College charges, and receive an annual salary. Sizars have also their commons free, and are exempted from annual fees. Candidates for Sizarships must send in their claims for admission to the Senior Lecturer before June 1st in each year, and prove their poverty before they are permitted to compete for Sizarships, which are tenable for 4 years.

There are four Professional Schools in this University, namely, Divinity, Law, Medicine and Surgery, and Engineering. Students in the Divinity and Law Schools must keep six Terms before obtaining the testimonials or licenses, preliminary to a final examination. Degrees in Medicine are conferred only upon Graduates in Arts, and the medical education of a Master in Surgery, or of a Bachelor of Medicine, is of four years' duration, costing in all, for Lectures, Hospitals, and Degrees, 109*l.* 14*s.* The course for a Licentiate in Engineering lasts for three years, and the degrees of Master in Civil Engineering are only conferred upon such as have been admitted to the B.A. Degree, and have publicly practised as a Civil Engineer for three years as a University Licentiate. Students in Engineering pay 10*l.* a year, in addition to the charge for keeping names on the College Books.

Residence as a part of academic discipline is not enforced in the University of Dublin, nor is it necessary in itself for keeping Terms as at Oxford and Cambridge, yet it is indirectly necessary to enable Students to attend the Lectures of the University Professors. The rent of rooms in Trinity College varies from 2*l.* to 16*l.* per ann. ; all resident Students dine in the Common Hall, and must attend night-roll at nine o'clock. Divine Service is celebrated in the College Chapel at 8 a.m. and 4 p.m. On Sundays and Church Festivals the hour of Morning Prayer is 9.30 a.m. The principal entrance Examinations are—Midsummer, October, and November.

Scholarships, Prizes, etc.

There are fourteen University Studentships in Trinity College, open to candidates of all religious denominations. They are tenable for seven years, and the salary of each is 100*l.* per ann. Two of these Studentships are filled up annually, one from the Senior Moderators in Mathematics and Physics, and one from the Senior Moderators in Classics.

MADDEN'S PRIZE is given to the candidate second in merit, at each Fellowship Examination, but who is disappointed of the Fellowship. Its value is about 270*l.* Other premiums are also awarded to deserving candidates.

COMMENCEMENT MEDALS, in gold, were given to every Student who had answered with honour every Examination from his entrance to the taking of his B.A. degree, but Moderatorships are now substituted for these, and Gold Medals are given to the Senior Moderators, and Silver Medals to Junior Moderators.

BISHOP LAW'S MATHEMATICAL PRIZES consist of 20*l.* to the Junior Bachelor most proficient in Algebra, &c., and 10*l.* to the second best Junior Bachelor.

BISHOP BERKELEY'S GOLD MEDALS are awarded to the best and second best candidates at an examination in the Greek Language and Literature.

LLOYD EXHIBITIONS are two in number, of about 16*l.* each, tenable for 2 years only, awarded to the best candidates belonging to the rising Senior Sophister Class at an examination in Mathematics and Physics.

M'CULLAGH PRIZE of 30*l.* is awarded annually to the best answerer at an Examination on some important Mathematical or Physical subject which is published in the University Calendar about a year before the Examination.

WRAY PRIZE is awarded to the Student in the Senior Sophister Class who shall answer best in an Examination on Metaphysical questions.

TWO THEOLOGICAL EXHIBITIONS, of 60*l.* and 40*l.* per ann. each, tenable for 3 years, are awarded to the best answerers at a Theological Examination, comprising candidates of not more than one year's standing as M.A.

WALL BIBLICAL SCHOLARSHIPS, consisting of five of 20*l.* per ann. each are awarded after examination in Hebrew Biblical Literature. One Scholarship is awarded annually.

DOWNE'S DIVINITY PREMIUMS consist of one of 20*l.* and one of 10*l.* for written Sermons or Discourses, one of 12*l.* and one of 8*l.* for Extemporaneous Speaking, and one of 8*l.* and one of 4*l.* for reading the Liturgy.

THE PRIMATE'S HEBREW PRIZES are awarded to the best answerers of the Senior and Middle Classes in the annual Examination in Hebrew.

ELRINGTON THEOLOGICAL PRIZE of 30*l.* in books is given annually for the best Theological Essay composed by B.A.'s of not more than 3 years' standing.

PRIZES IN BIBLICAL GREEK, of the value of 15*l.*, are awarded annually to the best answerers at an Examination by the Greek Professors.

PRIZES IN ECCLESIASTICAL HISTORY of 10*l.* and 5*l.* per ann. or more, are given to the most deserving Students in the Class of the Professor of Ecclesiastical History.

PRIZES to the extent of 20*l.* are awarded annually to Students who distinguish themselves inthe Irish Language; and besides these, one of 100*l.* per ann. (the Bedell Scholarship), and the Kyle Irish Prize of 7*l.* 13*s.* per ann., are given to Students likely to be competent on their ordination to preach in the Irish Language.

PRIZES IN CIVIL LAW AND IN FEUDAL AND ENGLISH LAW, of the value of 30*l.* annually, are given to the best Students.

MEDICAL SCHOLARSHIPS AND EXHIBITIONS, worth 20*l.* per ann. each, are also given.

VICE-CHANCELLOR'S PRIZES are 4 of 20*l.* each, given annually, for the best compositions on proposed subjects in English, Greek, or Latin Prose and Verse.

THE ARABIC PRIZE of 10*l.* and the SANSCRIT of 5*l.* are awarded annually, as also one of 10*l.* and one of 5*l.* for POLITICAL ECONOMY.

ERASMUS SMITH'S EXHIBITIONS consist of 20 of 8*l.* and 15 of 6*l.* (late Irish currency) per ann., belonging to Schools at Drogheda, Ennis, Galway, and Tipperary. The Governors of Erasmus Smith's Schools have supplemented one of each class, and raised them to 40*l.* and 25*l.* per ann. respectively.

THIRTY ROYAL SCHOLARSHIPS OR EXHIBITIONS, consisting of 15 of 50*l.*, 10 of 30*l.*, and 5 of 25*l.* per ann. each, tenable for 5 years, were presented by the Royal Commissioners of Education in Ireland to the Royal Schools of Armagh, Dungannon, Enniskillen, and Cavan. There are 2 Royal Scholarships of 30*l.* and 20*l.* per ann. each, now belonging to Middleton School.

FOYLE COLLEGE EXHIBITIONS consist of 5 of 30*l.* per ann. each, tenable for 5 years, by pupils sent up from Foyle College, Londonderry.

Numerous Exhibitions, varying in value from 10*l.* to 4*l.* 12*s.* annually, are awarded by the Provost and Senior Fellows to poor Students.

Trinity College has 21 benefices in its gift. The University terms, severally known as *Michaelmas*, *Hilary*, and *Trinity*, begin, the first on the 10th of October, lasting to 20th December; the second on 10th of January, lasting to the Feast of the Annunciation; the third on 15th of April, lasting to June 30th.

The University of Durham

Was opened in October, 1832, under authority granted by Act of Parliament, and received a Royal Charter on June 1st, 1837, by virtue of which its first Degrees were conferred on June 8th in the same year. In 1841 an Order in Council provided that the Wardenship should be permanently annexed to the Deanery of Durham, that a Canonry in Durham Cathedral should be annexed to each of its Divinity and Greek Professorships, and that other Professorships should be founded in Hebrew and other Oriental languages. The Castle of Durham and its precincts had been previously (Aug. 8, 1837) granted by the Queen in Council to be held in trust by the Bishop for the benefit of the University, and the College founded within the University was thus provided with a chapel, hall, and convenient rooms for Students.

The chief modifications and changes recently made in this University are the following. The period of residence required for the degree of B.A. is abridged from three years to two. The period of residence in each year is

extended from six months to eight. The period required for the Licence in Theology is two years, in each of which the residence extends over six months. No person is admitted as a Student in Theology until he has attained the age of twenty years. Final examinations are held twice in the year, in June and December. Thus Students in Arts and Theology, who enter in October or January, can pass their final examination and take their degree or licence immediately on the expiry of their two years of residence.

In Michaelmas term, 1870, a regulation was provided that persons should be admissible as Members of the University, without becoming Members of any College, Hall, or House, on condition that they resided in some house or lodging approved by the Warden and Proctors.

Any Licentiate in Theology can obtain the degree of B.A. after residing one academical year of eight months, and passing the requisite examination. Any person who has passed the final examination for the degree of B.A. or any higher degree at Durham, Oxford, Cambridge, Dublin, or any other University, in which the examination is of a similar character to that required at Durham, can obtain the Licence in Theology after residing one academical year of six months as a Student in Theology, and passing the requisite examination.

No subscription or test is required of any member of the University, with the following exception. No person can become a Licentiate in Theology, or take any degree in Theology, or become a member of Senate or Convocation, unless he has previously declared in writing that he is a bonâ fide member of the Church of England as by law established. The Chief Service of the University is that of the Cathedral Church of Durham, but no Student who is not a member of the Church of England is obliged to attend the services of that Church.

A School of Physical Science has been founded, including pure and applied Mathematics, Chemistry, Geology, Mining, Engineering, and the like. Students in this School, after two years' residence of eight months each, are, on passing the final examination, admissible to the rank of Associates in Physical Science. Terms kept by Students in this School may, with the consent of the Senate, count towards the degree of B.A. Exhibitions and Prizes will be established in connection with this School.

Two new Exhibitions have been founded, of 30*l.* a year each, tenable for one year by Theological Students in their first year, and two similar Exhibitions tenable by Theological Students in their second year; also an Exhibition Fund of 50*l.* a year for the assistance of deserving Students of limited means.

The other Scholarships and Exhibitions, as now arranged, are as follows:—The Foundation Scholarships are five of 50*l.* and seven of 30*l.* a year each, tenable for three years; one University Classical and one University Mathematical Scholarship of 30*l.* a year each, and tenable for one year; the Durham Grammar School Scholarship of 30*l.* a year, and tenable for three years. The Private Foundations are the Van Mildert, the Gisborne, the Lindsay, the two Pembertons, the Ellerton, the Barry, the Newby, the Theological Scholarship, the Thorp. There are also four Medical Scholarships.

The Scholarships and Exhibitions are open to all competitors, and are awarded to the best candidates of positive merit, tested by examination, except in a small number of cases, the particulars of which are specified in the University Calendar.

There are twelve University Fellowships, open to all students who have

graduated in Arts, of 120*l.* and 150*l.* a year, tenable for eight or ten years. They are awarded by examination.

The average annual expenses of a Student at University College, including those of the University as well as the College, are calculated at 80*l.* to 85*l.*; at Bishop Hatfield's Hall, at 70*l.* 10*s.* to 76*l.* 16*s.* for Students in Arts, and at 60*l.* 10*s.* 6*d.* to 75*l.* 16*s.* 6*d.* for Students in Theology.

The chief expenses of the University may be thus stated:—

University admission fee, 2*l.*; Tuition and other fees, each Term, 6*l.*; Rent, 4*l.* to 7*l.* 7*s.*; Commons or Board, &c., 1*l.* 1*s.* a week; Caution money (returnable), 15*l.* or 20*l.* The fees payable on taking Degrees are, B.A., 3*l.*; Licence in Medicine, 3*l.*; Civil Engineers, 3*l.*; M.B., 6*l.*; M.A., 6*l.*; Licence in Theology, 3*l.*; B.C.L., 6*l.*; B.D., 6*l.*; D.C.L., 10*l.*; D.D., 10*l.*; M.D., 6*l.*; Ad Eundem, 5*s.*

The University of London,

Founded in 1837, and now occupying the new buildings in Burlington Gardens, was established for the purpose of conferring degrees in Arts, Law, and Medicine, after the usual examinations, upon candidates for such honours. Those examinations take place half-yearly at stated periods. The peculiar feature of the University of London is that it is open to all, "without distinction of rank, sect, party, creed, or place of education," and that the institutions from which its candidates are chiefly derived (*see* below) belong respectively to the Church of England and to Protestant Dissenters of every shade of opinion, as well as to Roman Catholics. The cost of obtaining degrees is stated in the subjoined list of fees. In 1867 a Supplemental Charter was obtained for the purpose of granting to women certificates in Literature, Science, and Art.

University College, London,

Founded in 1826 as the University of London, and opened 1st October, 1828. Incorporated in 1836, as University College, London, for the general advancement of Literature and Science, by affording to young men adequate opportunities for obtaining literary and scientific education at a moderate expense. It is governed by a Council of 24, elected at the Annual General Meetings of the members, and the academical business is arranged, subject to the control of the Council, by the Senate, which consists of all the Professors, with a member of the Council for President. The College comprises a Faculty of Medicine, a Hospital, a Faculty of Arts and Laws, and a School (*see* London Schools). In the College and School, students and pupils of all denominations are educated, without interference with their religious opinions.

Faculty of Medicine, Winter Term: Oct. 1 to March 28. Summer Term: May 1 to July 25.

Faculty of Arts and Laws, Michaelmas Term: Oct. 2 to Dec. 18. Lent Term: Jan. 2 to March 19. Summer Term, from March 20 to June 8.

Professors' Fees vary from 2*l.* 2*s.* to 9*l.* 9*s.* the Course. In the Faculty of Medicine, the Fees for the entire Course (including Hospital) of three years, necessary for a Diploma, is 93*l.* 3*s.*, which may be paid at once or distributed over 3 years; thus, 54*l.* 6*s.* the first year, 32*l.* 11*s.* the second, and Six Guineas the third.

Exhibitions, Scholarships, and Prizes.

In the FACULTY OF ARTS: Three Andrews Entrance Exhibitions of 30*l.* each, tenable for 3 years, awarded to commencing Students after examination in Classics, Mathematics, and Physics. Two Andrews Prizes of 25*l.* each awarded to Students of one year's standing, on the result of the College class examinations in Classics, Mathematics, and Physics. Two Andrews Scholarships of 50*l.* each awarded to Students of 2 years' standing for similar proficiency. A Jews' Commemoration Scholarship of 15*l.*, tenable for 2 years, awarded annually to a Student of not more than one year's standing, for general proficiency and good conduct. Two Joseph Hume Scholarships, one in Political Economy, the other in Jurisprudence, each of 20*l.* a year, and tenable for 3 years; one of each awarded every third year. A Ricardo Scholarship in Political Economy, of 20*l.* a year, tenable for 3 years, awarded every third year. Two Prizes of 5*l.* each, one for the best English Essay, the other for the best Latin Essay, on prescribed subjects.

In the FACULTY OF MEDICINE: Three Entrance Exhibitions, of the respective value of 30*l.*, 20*l.*, and 10*l.* per ann., tenable for 2 years, awarded to commencing students after examination in Classics, Mathematics, Natural Philosophy, and either French or German. An Atkinson-Morley Scholarship of 45*l.* per ann., tenable for 3 years, awarded every year after examination in the Theory and Practice of Surgery. A Filliter Exhibition of 30*l.* is awarded annually to the Student most proficient in Pathological Anatomy. Fellows and Liston Medals are awarded every Session.

Prizes of Books, Medals, &c., are awarded to those who display the greatest proficiency in the Class Examinations of both Faculties.

EVENING CLASSES.—These Classes have been established especially for gentlemen engaged elsewhere during the day. The fees vary from 10*s.* 6*d.* to 42*s.* per Term. There are three Terms in each year; in the present Session, from Oct. 14 to Dec. 19, from Jan. 13 to March 19, and from March 23 to June 11. The subjects taught are Latin, Greek, Hebrew, English, French, German, History, Geography, Mineralogy and Geology, Elocution, Mathematics, Experimental Physics, Chemistry, Drawing, Writing, and Bookkeeping. There are also special Law Classes, for the study of Roman Law, Jurisprudence, Equity and Real Property Law, Common Law and the Law of Evidence, and the Laws of India.

King's College,

STRAND, LONDON, W.C.,

Was founded in 1828 by Royal Charter, upon the principle that "the Christian religion is an indispensable part of the instruction which should be given to youth."

The THEOLOGICAL DEPARTMENT provides instruction for young men purposing to offer themselves for Holy Orders, and is superintended by the Principal of the College. Students in this Department are admitted on proof of their having either graduated at Oxford, Cambridge, Durham, or Dublin, or of their having obtained an Associateship of King's College, or who, having been examined and reported eligible by the Principal, shall obtain the recommendation of a Bishop. The course of study must be continued during at least 6 Academical Terms (2 years). Examinations take place in each of the several branches of instruction every Term, and a probationary *vivâ voce* must be passed by every Student in his fourth or fifth Term. At the close of the course of 2 years a strict examination takes place; and to all Students who have merited such a distinction by their attainments, and by their good character during the period of their studies in King's College, the Principal is empowered by the Council to grant a certificate of attainments, which may be exhibited for the satisfaction of that Bishop to whom any Student may apply to be admitted as a candidate for Holy Orders. The two Archbishops and 25 of the Bishops have consented to admit as candidates for Holy Orders those Students who shall

produce the College certificate. The fees for attending the full prescribed Theological Course are 10*l.* 10*s.* per Term for all Associates of King's College, London; and 12*l.* 12*s.* per Term for all other students. The fees for the first two Terms must, except by special permission, be paid upon entrance, in addition to 5*l.* 17*s.* 6*d.* for Matriculation Fees. The Academical year consists of three Terms. Michaelmas Term, from about the 1st of October to the week before Christmas. Lent Term, from about the 20th of January to the week before Easter. Easter Term, from about 10 days after Easter to the end of June. Gentlemen (not being Graduates) not wishing to attend the whole course may select any one or more subjects, at fees varying from One to Four Guineas per Class for each Term, or Five to Eight Guineas a year. Any person 20 years of age, not wishing to qualify to pass the examination for admission into the Theological Department, can enter classes for instruction in Latin, Greek, Hebrew, and Divinity, on payment of Eight Guineas per Term; attendance from 10 to 2 o'clock daily.

In the DEPARTMENT OF GENERAL LITERATURE, preparatory for the Universities or for the Competitive Examinations of the Civil Service, &c., the course consists of Religious Instruction, according to the principles of the Church of England, the Greek and Latin Classics, Mathematics, Modern History, French and German Literature; the fees for matriculated Students are 11*l.* 5*s.* per Term, the two first Terms being paid for in advance, as well as 5*l.* 17*s.* 6*d.* for matriculation Fees, cap, gown, &c. Students (who must not be under 16 years of age) matriculate in January, April, or October, and keep three Terms a year. After 3 years' study the Diploma of "Associate" is conferred Connected with this Department is an Oriental Section, "to meet the wants of candidates for the Indian Civil Service," and separate Classes are formed for instruction in various Oriental languages, at Seven Guineas and a half per Term. There is also a Legal Section, "to meet the wants of those who are desirous of studying Law," either for professional purposes or to enlarge their general knowledge. Fees from Three to Five Guineas per Term, and One Guinea and a half for a course of popular lectures in Law.

In the Department of INSTRUCTION IN THE APPLIED SCIENCES, for qualifying young men to be engaged in Civil and Military Engineering, Surveying, Architecture, &c., the course comprises Religious Instruction, Mathematics, Natural Philosophy, Chemistry, Geology, Arts of Construction, Geometry, Mineralogy, Drawing, Photography. There are workshops fitted up with engines, lathes, forges, benches, and all necessary implements, and experienced workmen are in attendance. The fees are Thirteen Guineas a Term for matriculated Students, some of whom reside in the College, and some with the Professors. After keeping nine Terms in these studies, and fulfilling other conditions, the Students of this Department are entitled to the Diploma of "Associate of King's College." Students who have passed two years in this Department, and, in addition, not less than one year in practice under a Civil or Mechanical Engineer, are, by a special order of the Secretary of State for India in Council, admitted to be candidates for appointments to the Engineer Establishment in India.

In the MEDICAL DEPARTMENT, matriculated Students receive their

entire Medical Education. The year is divided into two Sessions, whereof the Winter Session begins Oct. 1, and continues to the end of March, and the Summer Session begins on May 1st, and ends with July.

The College fees, in the case of *Matriculated* Students, for the lectures required by the College of Physicians, the College of Surgeons, and the Society of Apothecaries, amount to 61*l.* 19*s.*; those for Hospital practice, to 31*l.* 10*s.*; those for Matriculation (including Library Fee, Calendar, and College cap and gown) to 5*l.* 17*s.* 6*d.*; making together 99*l.* 6*s.* 6*d.* *This sum will cover all that of necessity must be paid for the entire three years' course of study.* Students are, however, recommended to add to this sum 2*l.* 2*s.* for a second course of Chemistry, as well as the fee for attendance on the Medical Tutor's Class for one year; viz. 3*l.* 3*s.* All *resident* Students are *required* to attend the Tutor during their first year. The fees may be paid either in one sum on Matriculation, or in two equal sums; the one at the commencement of the first Winter or Summer Session, the other after the first Christmas vacation, not later than Jan. 21st, unless special arrangements are made at the time of entrance. Besides the Warneford Scholarships, which consist of 2 Scholarships of 25*l.* per ann., tenable 3 years, and the Daniell Scholarship of 20*l.* per ann., tenable 2 years, the following are given every year to matriculated Students of this Department:—One of 40*l.* per ann., for 2 years, open to Students of the third and fourth year; one of 30*l.* for one year, open to Students of the second year; 3 of 20*l.*, for one year, open to Students of the first year; besides several valuable prizes.

Classes for EVENING INSTRUCTION are held at King's College during the months from October to March inclusive, and during the months of April, May, and June; the former being called the Winter and the latter the Summer course; the subjects and fees for each are as follows:—

Divinity.—*Latin* (Four Classes).—*Greek* (Four Classes).—*French* (Eight Classes).—*German* (Four Classes).—*German History, Literature, and Composition.*—*Italian* (Two Classes).—*English Language and Composition* (Five Classes).—*History and Geography of England.*—*Arithmetic and Book-keeping* (Two Classes).—*Writing* (official and ordinary).—*Mathematics* (including Algebra, Euclid, Trigonometry, Differential and Integral Calculus (Six Classes).—*The Principles of Commerce and Commercial Law.*—*Drawing* (Landscape, Figure, Model, and Architectural).—*The Elements of Chemistry.*—*Mechanics.*—*Physiology.*—*Botany.*—*Experimental Physics.*—*Spanish.*—*Portuguese.*—*Geology and Mineralogy.*—*Zoology.*—*Practical Chemistry.*—*Logic.*—*Moral Philosophy.*—*Public Speaking and Reading.*—*Law.*—*Civil Service Examinations.*—*Hebrew.* For any single course of which (except Divinity and Practical Chemistry) 1*l.* 11*s.* 6*d.* The Divinity Class is free to all students attending any other class, and 10*s.* 6*d.* when no other class is attended. Practical Chemistry 2*l.* 2*s.* for each part of the course. A Special Class is formed, with the view of preparing candidates for all branches of the Home Civil Service in as short a time as possible.

Queen's College, Belfast.

Founded 1845. Supported from Consolidated Fund, and instructing for Degrees at the Queen's University, in Arts, Medicine, and Law. Forty-six Junior Scholarships and eight Senior Scholarships have been founded in the College. Of the Junior Scholarships, thirty, of the value of 24*l.* each, are appropriated to Students pursuing the course prescribed for the Degree of A.B.; eight, of the value of 25*l.* each, are appropriated to Students pursuing the course prescribed for the Degree of M.D.; three, of the value of 20*l.* each, are appropriated to Students pursuing the course prescribed for the Diploma of Elementary Law and the Degree of LL.B.; five, of the value of 20*l.* each, are appropriated to Students pursuing the course prescribed for the Diploma of Civil Engineering. These Scholarships are awarded annually, by examination, and are tenable for one year only, with the exception of those awarded to Students in Arts of the second year, which are tenable for two years. The Scholars of each year are not disqualified from being candidates for Scholarships the succeeding year. A Student extending the course prescribed for any year over two Sessions is permitted to hold a Scholarship during the first of those Sessions, provided he attend in that Session two of the prescribed classes, of which one at least must be peculiar to that department in which the Scholarship is held. Candidates for any of the Scholarships of the first year must have passed the Matriculation Examination. Eight Senior Scholarships, of the value of 40*l.* each, are conferred upon and retained by Graduates in Arts of the Queen's University, under such regulations as the Council prescribe. One of these is limited to Students who have completed the course of legal study prescribed for the Degree of LL.B. The Senior Scholarships are awarded by examination; they are tenable for one year only; and no Student who has already held a Senior Scholarship in any Faculty can again become a Candidate for a Senior Scholarship in the same Faculty. Candidates for the Senior Scholarship must have previously entered their names for at least one class at College.

The following fees are paid by Students:—

	1st Year.	2nd Year.	3rd Year.
	£ s.	£ s.	£ s.

Candidate for Diploma of Civil Engineering	10 10	10 5	6 5
If a Scholar	5 10	5 5	3 5

Matriculated Students can attend any classes in addition to those prescribed in the course they are pursuing, on payment of the fees for the class.

In order to extend more effectually to the sons of gentlemen intended for general pursuits, or for mercantile life, the advantages presented by this College, the Council have instituted a course of instruction of two years' duration, and give a College Certificate of Proficiency. Students intending to become candidates for this College Certificate are required to attend, during at least two Terms in each year of the course, Lectures on three at least of the following subjects: Latin, Greek, English Literature, French, German, History, Oriental Languages, Mathematics, Logic, Chemistry, Natural History, Natural Philosophy, Experimental Physics, Mineralogy and Geology, Metaphysics, Political Economy, Civil Engineering, Surveying and Mapping, Agriculture, Anatomy and Physiology. When the Lectures on any of the subjects mentioned in the foregoing regulations extend over one Term only, Students selecting such subjects are required to attend, during a second Term, Lectures on some other subject. Students entering for this course must attend the Lectures and ordinary Examinations of the several Professors, and perform the Class Exercises in the same manner as the matriculated Students. To entitle them to the General Certificate, Students will also be required to pass a final Examination in four at least of the subjects which they have studied during the course.

Queen's College, Galway.

FOUNDED DECEMBER 30, 1845.

This College is a Corporation, founded by Letters Patent under the Great Seal of Ireland, under the name and style of "The President and Professors of Queen's College, Galway."

The general government and administration of the College under the Statutes, and in cases not provided for by the Statutes, is vested in a Council consisting of the President and six Professors elected by the Corporate Body.

It is supported like those of Cork and Belfast, and prepares like them for the Degrees of the Queen's University. Forty-six Junior and eight Senior Scholarships have been founded in the College. Of the Junior Scholarships, thirty, of the value of 24*l.* each, are appropriated to Students pursuing the course prescribed for the Degree of B.A.; three, of the value of 20*l.* each, to Students pursuing the course for the Diploma of Elementary Law and the Degree of LL.B.; eight, of the value of 25*l.* each, to Students pursuing the course for the Degree of M.D.; five, of the value of 20*l.* each, to Students pursuing the course for the Diploma of Civil Engineering. The College is empowered to award Exhibitions, varying in value from 10*l.* to 18*l.*, at the same Examinations as the Scholarships, and to be held upon the same terms.

The College fees payable by matriculated Students are 10*s.* at the commencement of the first year, and 5*s.* at the commencement of each subsequent year. The fees payable by Students, whether matriculated or non-matriculated, to the several Professors for attendance on the several Pass Courses of Lectures or instruction, are 1*l.* for each course extending over one Term only, and 2*l.* for each course extending over more than one Term of a Session, when attended for the first time, and 1*l.* for each re-attendance on the same. This rule applies in all cases except the following: The fee payable for the course of Anatomy and Physiology is 3*l.* when attended for the first time, and 2*l.* for every subsequent attendance; and the fee payable for Practical Anatomy or Practical Chemistry is 3*l.* for

each attendance. The fees payable for attendance upon honour courses of Lectures, and upon courses of Special Instruction not prescribed as a qualification for a Degree or other University distinction, are 2*l.* for each course, whether attended for the first time or re-attended. This rule does not apply to Special Instruction in Practical Chemistry and in Operative Surgery. In the former case the fee is regulated by the time spent in the laboratory, at the rate of 1*l.* a month. The fee for Operative Surgery is 3*l.* Matriculated Students who attend voluntary courses, are as far as these courses are concerned, regarded as non-matriculated.

Queen's College, Cork.

Founded 1845. Supported out of Consolidated Fund, and instructing for Degrees in Arts, Medicine, Law, &c., in the Queen's University, Ireland. At the last examination for Scholarships, the Council conferred eight Senior Scholarships of 40*l.* each, and forty-six Junior Scholarships; viz., fifteen in Literature and fifteen in Science, of 24*l.* each; eight in Medicine, of 25*l.* each; three in Law; and five in Civil Engineering, of 20*l.* each. These Scholarships are tenable for one year only, except the second year's Scholarships in Arts, which are tenable for two years, on condition that the Scholar shall pass with honours the "First University Examination," and shall attend, during the third Session, at least two of the courses of Lectures prescribed by the University for attendance during last Session, as a qualification for the Degree of B.A., and shall pass the Sessional Examinations in these

subjects ; but the Scholars of each year are, at its expiration, eligible to become candidates for the Scholarships of the succeeding year. A Scholarship, however, of the same year in the same Faculty, cannot be held twice by the same Student. The Scholarships of the first year are open to all Students of the respective Faculties who have passed the Matriculation Examination. Those of the second and fourth years in Arts, and those of the second, third, and fourth years in Medicine and Law, and of the second and third in Engineering, are open to all Students who have passed the Examinations, and attended the Lectures prescribed for their course of study. The course for the Degree of Bachelor in Arts extends over three Sessions, and candidates for that Degree must reside at their respective Colleges during at least the first two Terms of each Session, but may be exempted from residence during the third Term, by a special grace of the College Council. They must pass two University Examinations—a Preliminary and a Degree Examination. The course for the Preliminary Examination includes Greek, Latin, a Modern Continental Language, and Mathematical Science. Students who have completed their second Session must pass this Examination before rising to the third year, unless prevented by illness or other inevitable accident, in which case the Senate may admit them to a Supplementary Examination. Candidates who have completed the Undergraduate Course may offer themselves at the Degree Examination for graduation either with honours or without honours. Candidates for the Diploma of Licentiate in Arts must reside at their respective Colleges during at least the first two Terms of each Session.

The Catholic University of Ireland,

At Stephen's Green, Dublin,

Was founded in 1854; its first Rector, the Very Rev. J. H. Newman, D.D., was installed in 1855. It has no endowment, but depends upon voluntary contributions. Its organisation has not yet been fully completed, for although it includes the five Faculties of Theology, Law, Medicine, Philosophy, and Letters, and Science, the last three only are at present in operation. The Faculty of Medicine is established in Cecilia Street, where there are two Medical Theatres, dissecting-rooms, a laboratory, &c. Anatomical dissections commence October 1; the Medical year of Lectures is from November 2 to April 9, and from April 10 to July 13. The Medical School has several Exhibitions and Prizes. The Medical College is provided for the residence of Students whose studies and morals are

simultaneously regulated. Each Medical Student is required to enter the Faculty of Arts as well as of Medicine. The ordinary fees are 1*l.* at Matriculation in Arts, 2*l.* on taking A.B. degree, and 3*l.* 3*s.* for each course of Medical Lectures; there being in all 19 courses extending over four years. Hospital fees, 3 years' course, are 8 or 9 guineas per ann., and diploma fees, at the end of the course, about 30*l.* The course of studies in the Faculties of Arts and Science also extends through four years. The following Exhibitions are open to Students on entrance,—equally divided between Classical and Mathematical studies,—2 of 20*l.*, 4 of 15*l.*, and 8 of 10*l.*, and the same sums are awarded as Second and Third Years' Exhibitions. Besides these are the Cloyne Exhibitions in Logic, of 20*l.*; Mental Science, 20*l.*; Greek, 30*l.*; Latin, 30*l.*; and Irish History, 20*l.*; the Limerick Exhibitions—one Classical, 40*l.*; 3 Mathematical, of 40*l.*, 30*l.*, and 20*l.* each; and 2 for Modern Literature, of 20*l.* each; and the Conolly Exhibitions, of 20*l.* each; in Mathematics, Mathematical Physics, Cosmical Physics, Natural Sciences, and Medicine.

These Colleges and Schools are visited at the close of each University Session, in July, by an Examiner specially deputed for the purpose. He examines the Affiliated Students, who may also be members of the College or School, in the business of the previous Session, recommending for honours those whom he finds deserving. At the same time he holds an Entrance Examination.

SCOTLAND.

The University of Aberdeen.

The University of Aberdeen, as now constituted, derives its origin from two different foundations: one, the University and King's College of Aberdeen, founded in 1494, by William Elphinstone, Bishop of Aberdeen, under the authority of a Papal Bull, obtained at the instance of King James IV.; the other, Marischal College and University of Aberdeen, founded in 1593, by George Keith, Earl Marischal, by a Charter ratified by Act of Parliament.

On the 2nd of August, 1858, the Royal assent was given to an Act of Parliament (21 and 22 Victoria, cap. 83), intituled "An Act to make provision for the better government and discipline of the Universities of Scotland, and improving and regulating the course of study therein; and for the Union of the Two Universities and Colleges of Aberdeen."

By Ordinance No. 7 of the Commissioners appointed by and for the purposes of the aforesaid Act, approved by Her Majesty by Order in Council, dated 30th June, 1860, the two foundations of King's College and Marischal College were, from and after the 15th September, 1860, united and incorporated into One University and College, under the style and title of the "UNIVERSITY OF ABERDEEN."

The University is a corporate body, consisting of a Chancellor, Rector, Principal, Professors, Registered Graduates and Alumni, and Matriculated Students. Its government is administered by the University Court, the Senatus Academicus, and the General Council. It possesses all the powers, privileges, and property of the two Universities and Colleges above mentioned, and, by virtue of the Universities' Act, it takes rank among the Universities of Scotland as from the date of the foundation of the University and King's College—1494.

It has about 140 Bursaries or Exhibitions tenable for 4 years, during the course in Arts, and each fourth of which are annually awarded by Examination; besides about 130 in the gift of certain public bodies and private individuals. Has 23 Professorships in Arts, Divinity, Law, and Medicine, the Sessions of which are thus held:—in *Arts*, from last Monday in October to first Friday in April; *Divinity*, first Monday in December to last Friday in March; and first Monday in June to the end of July; *Law*, first Monday in November to end of March; *Medicine*, first Monday of November, lasting 6 months, is the Winter Session, and the Summer Session of 3 months from first Monday in May. About 600 Students.

The class fees to Professors are about 3 guineas.

The fees for Students taking a Senior Class in any subject, without previous attendance on the Junior Class in the same subject, is 3*l.* 3*s.* Matriculation fee, 1*l.* For the Degree of M.A., 1*l.* 1*s.* for each of 3 Examinations.

The course of study for the Degree of M.A. embraces 2 years' attendance on Greek, Latin, and Mathematics, and one on English Literature, Natural Philosophy, Logic, Moral Philosophy, and Natural History. Any Student who, at the time of his entrance to the University, shall, on examination,

be found qualified to attend the higher classes of Latin, Greek, and Mathematics, or any of them, shall be admitted to such higher class or classes, without having attended the first or Junior Class or Classes.

Bursaries.

The Annual Bursary Competition began on Monday, 28th October, when there were offered 39 Bursaries, of which 33 were in the patronage of the University, and 6 in that of the Magistrates and Town Council of Aberdeen. All but 7 were open without restriction. They are tenable during the 4 years of the Curriculum, and are of the following annual value :—11 of 35*l.*; 4 of 20*l.*; 2 of 18*l.*; 1 of 16*l.*; 8 of 15*l.*; 31 of 14*l.*; 2 of 13*l.*; 4 of 12*l.*; 1 of 11*l.* 10*s.*; 11 of 11*l.*; 1 of 10*l.* 10*s.*; 8 of 10*l.*; 1 of 9*l.*; and 2 of 5*l.*

Candidates were requested to bring with them certificates of their age, signed by the Ministers and Session-Clerks of their respective parishes, to be produced, if required, when the result of the Examinations is intimated.

In addition to the usual Macpherson Bursary of 20*l.*, there was offered for competition, on the same conditions, one of 9*l.* or thereby.

Candidates for these Bursaries were requested to lodge with the Secretary certificates from a Gaelic Minister as to their knowledge of the Gaelic Language.

Of the Bursaries under private patronage, 19 were vacant at the close of last Session, viz. :—1 of 25*l.*; 3 of 22*l.* 10*s.*; 2 of 20*l.*; 2 of 16*l.* 16*s.*; 2 of 16*l.*; 1 of 14*l.*; 5 of 11*l.*; 1 of 10*l.* 5*s.*; and 4 of inferior value.

Class and Special Prizes.

Books of the value of 136*l.* are awarded to the most distinguished Students in each class. At the close of the Curriculum the best Greek and Mathematical Scholars are entitled each to a Simpson Prize of 70*l.* or thereby, the second in point of merit in Mathematics to a Boxil of 27*l.*, the best scholar in Classical Literature and Mental Philosophy to the Hutton of 30*l.*, the best general scholar to the Gold Medal of the Magistrates and Town Council of Aberdeen, and the most distinguished candidate for Honours in the Department of Natural History to a prize of 10*l.*

Scholarships.

Masters of Arts of not more than 2 years' standing may compete for the Fullerton, &c., Scholarships, of the value of 65*l.*, and tenable for 4 years, of which 2 are vacant annually, one for Classics and Mental Philosophy, the other for Mathematics and Natural Philosophy, and if of under 3 years' standing, they are eligible for the Murray Scholarship of 70*l.*, tenable for 3 years.

Marischal College, Aberdeen,

Founded by George Keith, Earl Marischal, 1593, ceased to exist as a separate body in 1860, and is now merged in the University of Aberdeen.

The University of Edinburgh,

Founded 1582, under a Royal Charter granted by James VI., is a Corporation governed by its Senate (whose decisions may, however, be reviewed by the University Court), and possessing a Chancellor elected for life; a Vice-Chancellor, nominated by the Chancellor; a Rector, elected triennially; a Principal, who is the resident Head of the College; and numerous Professors. The University is divided into Four Faculties—Arts, Theology, Law, and Medicine; the affairs of each of which are presided over by a Dean, elected from among the Professors. The ordinary academical curriculum in Arts, with a view to a Degree, extends over 4 Winter Sessions; but 3 Winter Sessions are sufficient for Students who satisfy the Examiners, at their Entrance Examination, that they are qualified for admission to the higher classes of Latin and Greek. The academical year is divided into 2 Sessions, whereof the Summer Session opens in the beginning of May, and ends in July, and the Winter opens in the beginning of November, and ends with April. For each of these Sessions, Class Fees of three, four, and five guineas each, are payable by each Student; the Matriculation Fee of 1*l.* must previously have been paid. Students must pass an Examination in seven subjects; namely, Latin, Greek, Mathematics, Logic and Metaphysics, Moral Philosophy, Natural Philosophy, and Rhetoric; but they need not be examined upon all at any one Examination for Degrees. The next Examination for the M.A. Degree will be in April and October, 1872. There are 93 Bursaries, varying in value from 2*l.* 15*s.* to 100*l.*, tenable 1 to 4 years; 18 Scholarships of 60*l.* to 100*l.*, tenable 1 to 4 years; and 4 Fellowships of 100*l.* to 150*l.*, tenable 3 or 4 years after by Students in the Faculty of Arts. In the Faculty of Theology every Student must be enrolled 4 Sessions, and attend not less than 3. The fees for each Class in Theology is 2 guineas the Session. There are 9 Presentation Bursaries in this Faculty, worth from 8*l.* to 23*l.* each, tenable 1 to 4 years; 9 Competition Scholarships, worth from 7*l.* 10*s.* to 90*l.* per ann., tenable 3 years; and 2 Presentation Scholarships, of 16*l.* 13*s.* and 25*l.*, tenable 3 years. The Degrees of Bachelor and Doctor of Science are conferred, after Examination, upon candidates who have attended Science Classes for at least 3 years. Masters of Arts may pass as Doctors of Philology, by undergoing an Examination in Languages and Comparative Philology. The fees for these Degrees amount to 10 guineas. In the Faculty of Law there are 6 Chairs, upon all of which the Student wishing to take the Degree of Bachelor of Laws must attend; fees, three to five guineas. The Faculty of Medicine comprehends 12 classes, the fees for which are four guineas each. Three Medical Degrees are conferred by this University—viz., Bachelor of Medicine, M.B.; Master in Surgery, C.M.; and Doctor of Medicine, M.D.; but the second of these is not conferred upon any person who does not at the same time obtain the M.B. degree, and none are qualified to be admitted to either Degree who have not passed one of four years of Medical and Surgical study in this University. The total minimum expenses for curriculum up to M.B. and C.M. degree, and inclusive of all fees, is 103*l.* 7*s.*

The University of Glasgow,

Founded 1451, is a corporate body consisting of a Chancellor, a Rector, a Dean of Faculties, a Principal, Professors, and about 1,200 Students, of whom about 750 matriculated in Arts, 102 in Divinity; 272 in Medicine, and 84 in Law. The Session opens annually on the First Monday in November, and closes April 30. The Matriculation Fee is 1*l.* for the Academical Year, and 10*s.* for the Summer Session. The average cost of a four years' Curriculum in Art for the Degree of M.A. is about 45*l.*, which would include the cost of Books and Diploma. For each class in Literature and Philosophy the Class Fees are Three Guineas (with the exception of Natural Philosophy, Four Guineas); in Theology, Two Guineas; in Law, Four Guineas; in Medicine, Three Guineas, with One Guinea for Waltonian Lectures. The University has more than Eighty Bursaries (equivalent to English Scholarships), varying in value from 5*l.* to 100*l.*, some of which are open to the competition of Students, others are in the gift of various patrons. At the opening of the Session of 1866-7, there were competed for Three Bursaries in Arts, in value from 10*l.* to 20*l.*, tenable four years; Two in Divinity of 15*l.* and 20*l.*, besides numerous prizes in books, gold medals, and money. There are also Ten Snell Exhibitions of 108*l.* per ann., tenable for five years, two of which are competed annually by natives of Scotland under 21 years of age, who have pre-

viously resided two years at least in Glasgow College, or for one year in that College and two at least in some other College in Scotland; Two Breadalbane Exhibitions of 50*l.* per ann., awarded after a competitive examination in Mathematics, etc., to candidates who shall have taken the Degree of M.A. in this University; the Sandford Scholarship (offered every alternate year) of 19*l.* per ann., tenable two years by the Student most proficient in Greek; Two Eglinton Fellowships of 90*l.* per ann., tenable three years, and offered triennially for competition among the M.A.'s in Glasgow University who have just taken their Degree; the Luke Fellowship of 120*l.* per ann., competed for triennially (after November, 1868) also by holders of M.A. Degree; and Six Ferguson Scholarships of 80*l.* per ann., tenable two years, open to all persons who have taken the Degree of M.A. at the close of either of the two next preceding Sessions in one of the Universities of Scotland.

University Hall, Glasgow.

A Hall under the above title, for the boarding and superintendence in their studies of a limited number of Students attending the University, has been opened.

The object of the Hall is to meet a want which has been long felt in connection with the University. Many parents entertain an objection to sending their sons to lodge by themselves without control, guidance, or companionship, in the midst of a large city like Glasgow. A number of gentlemen interested in the University have accordingly determined to set on foot a Hall in which Students may be boarded, lodged, and superintended in their studies and general behaviour, and where they may enjoy, within reasonable limits, those advantages of companionship and intercourse which are so necessary to complete the work of University Education. Premises suitable for this purpose have been secured in the immediate vicinity of the University.

Terms for board and lodging and superintendence, 70*l.* for the Session.

Warden.—Herbert A. Strong, Esq., M.A., Oxon, Assistant-Professor of Latin.

Sub-Warden and Mathematical Lecturer.—John McLeod, Esq., M.A., Assistant-Professor of Mathematics.

Secretary and Treasurer.—James Graham, Esq., C.A., 128, S. Vincent Street.

Applications for admission for next Session, accompanied by testimonials as to character and diligence, should be lodged with the Secretary.

The University of S. Andrew's.

Founded 1411. The course of study necessary for the Degree of Master of Arts extends over 4 Winter Sessions, and includes attendance for not less than 2 Sessions on the Classes of Humanity, Greek, and Mathematics, respectively; and attendance for not less than one Session on the Classes of Logic, Moral Philosophy, and Natural Philosophy respectively; and also attendance on a course of English Literature (Rhetoric). But any Student who, at the time of his entrance to the University, can satisfy the Professors of the Faculty of Arts, on examination, that he is qualified to attend the higher Classes of Latin, Greek, or Mathematics, or any one of them, may be admitted to such higher Class or Classes, without having previously attended the first or Junior Class or Classes in the same Department. And when any Student has been thus admitted to the higher Classes both of Latin and Greek, without having previously attended the first or Junior Latin and Greek Classes, his course of study for the Degree of Master of Arts may be completed within 3 Winter Sessions instead of 4.

The Degree of B.A. is not conferred.

The fees of M.A. Examination are Three Guineas.

The Degree of Doctor of Medicine may be conferred by the University of *S. Andrew's* on any registered Medical Practitioner above the age of 40 years, whose professional position and experience are such as, in the estimation of the University, to entitle him to that Degree, and who shall, on examination, satisfy the Medical Examiners of the sufficiency of his professional knowledge: Provided always, that Degrees shall not be conferred under this section to a greater number than 10 in any one year. On or before the 25th day of March in each year, candidates lodge with the Registrar of the University the following certificates:—A certificate of *age*. Certificates from three medical men, of such acknowledged reputation in the profession, or of such standing in the medical schools, as shall satisfy the Senatus of the *professional position* and *experience* of the candidate. A certain portion (viz., 10*l*. 10*s*.) of the Graduation Fees, 52*l*. 10*s*., is forfeited should the candidate fail to appear at the time appointed for examination, or should he fail to pass the prescribed examination, which is conducted both in writing and *viva voce*, in Materia Medica and General Therapeutics, Medical Jurisprudence, Practice of Medicine and Pathology, Surgery, and Midwifery. A minute knowledge, however, is not required from those who do not practise these branches of the profession.

The Session lasts in the United College from first Friday of November to last Friday of April; in S. Mary's College, from end of November to end of March. About 180 Students.

University Endowments.

The number of Bursaries attached to the United College is 74, varying in value from 5*l.* to 30*l.* per ann. The endowments for Special Prizes yield annually about 114*l.*

The number of Bursaries belonging to S. Mary's College is 20, in value from 6*l.* to 30*l.* per ann. There are also 18 Bursaries of the same value, transferable from the United College, when the Bursars proceed to the study of Divinity. In this College there are 2 Prizes of 10*l.* each, and a Testimonial of 21*l.*, open to competition in each Session.

There are 5 Scholarships in the University: 2 of the annual value of 50*l.* each, tenable for 4 years; 2 of the annual value of 53*l.* each, tenable for 2 years; and one tenable for 4 years—value for the first year 100*l.*, and 50*l.* for each of the 3 following years.

The proceeds available for Bursaries, Prizes, and Scholarships in the University amount annually to about 1800*l.*

University Scholarships.

RAMSAY SCHOLARSHIPS.—There are 2 Scholarships on this foundation, of the annual value of not less than 50*l.* each, tenable for 4 years. Each Scholarship is awarded after competitive examination in the several branches of study on which attendance is required of Students proceeding to the Degree of M.A.; and all persons who have obtained the said Degree in the University in the year in which the competition takes place, or in the year

preceding, are admissible to the competition. One Scholarship falls vacant in every alternate year. No person can hold either of these Scholarships along with any other Scholarship, Fellowship, or Bursary of any Scottish University. The examination for each of the said Scholarships is to be conducted by the Principal of the United College, and by the Professors on whose Classes attendance is required of Students proceeding to the Degree of M.A.

GUTHRIE SCHOLARSHIP.—Founded in 1864. This Scholarship is open for competition to all Students who have completed 2 regular Sessions at the United College, and whose age did not exceed 19 years on the 30th of November preceding the election. It is tenable for 4 years—value, 100*l.* for the first year, and 50*l.* for each of the 3 following years. The Guthrie Scholar is to continue his education at Oxford or Cambridge, or (with the consent of the Trustees) at some foreign University. If, after 2 years of general study, he desires to commence the professional study of Divinity, Law, or Medicine, in a Scottish University, he may do so with the sanction of the Trustees.

BRUCE AND FALKLAND SCHOLARSHIPS.—Two Scholarships of the annual value of 50*l.* each, founded in 1865, are to be held only by Students who have passed their examinations for the Degree of M.A. in the Session previous to the bestowal of the Scholarships, and are conferred on any Masters of Arts who may have passed with honours, or in such creditable manner as the Senatus may deem to render them deserving of the Scholarships; and who are not above the age of 23 years when they have passed all the examinations for their Degree. The Scholarships are tenable for 2 years, during which the Scholars, if Students of Divinity, must attend S. Mary's College; but if they be Students "in the Departments of Literature and Science, Law or Medicine," the Scholars may prosecute the same in the University of Edinburgh. It is not competent for any person to hold one of the said Scholarships along with any other Scholarship or Fellowship of any Scottish University, or with any situation or appointment yielding to him an annual income of 50*l.* or upwards.

The Universities Royal Commission.

The Royal Commission to inquire into the Property and Income of the Universities of Oxford and Cambridge, and of the Colleges and Halls therein, will consist of

The Duke of Cleveland (Chairman).
Lord Frederick Cavendish, M.P.
Lord Clinton.
The Hon. J. W. Strutt.
The Master of S. John's College, Cambridge.
Professor Price.
Mr. Kirkman Hodgson, M.P.

The Duke of Cleveland, Lord Clinton, and Professor Price (Bodleian Professor of Natural Philosophy), were educated at Oxford, while Cambridge is represented by Lord F. Cavendish, the Master of S. John's, and Mr. Strutt (eldest son of Lord Rayleigh, and Senior Wrangler in 1865). Mr. Hodgson represents the outside public, not having been educated at either University.

Eton.

"*Floreat Etona.*"

This celebrated School and College, the richest and most influential in England, is situate in the County of Bucks. It is only separated from Windsor in Berkshire by the river Thames. It was established by Henry VI. in 1441, bearing the name of "The College of the Blessed Mary of Eton." It consists of a Provost, 7 Fellows, 70 Scholars called King's Scholars, 3 Chaplains, 10 Lay Clerks, 12 Choristers, a Head Master, a Lower Master, and several Assistant Masters. The buildings comprise two quadrangles, in the first is a central statute of Henry VI. in bronze. The square is surrounded by the chapel schools and dormitories. The other quadrangle comprises the cloisters and library. The Chapel is situate on the south side of the quadrangle. The date it was built is uncertain, but the College buildings were erected about the year 1440.

The governing body consists of the Provost and Fellows. It affords education in Classics and Mathematics, and in French, German, Italian, Drawing, etc. Its endowment amounts to 20,569*l.* per ann., or, less the expenses of management, 16,000*l.* The 70 King's Scholars are admitted after competitive examination, between 8 and 15 years old, pay 25*l.* per ann., inclusive of charge for washing and attendance. The other Scholars, numbering about 770, and called Oppidans, are admitted from 7 up to 14 years of age into the Upper School, upon application to the College Tutor. The annual expenses of an Oppidan are from 150*l.* to 210*l.* Lodging at a Dame's house is about 16*l.* a year cheaper than at a Tutor's. The King's Scholars are exclusively eligible to Scholarships at King's College, Cambridge, but there are 16 other Scholarships whose total value is about 800*l.* per ann. Eton has 40 benefices in gift, varying from 100*l.* to 1,200*l.* The Examinations are conducted by the Head Master. The fagging system is still continued here.

Winchester.

"Manners make the man."

Winchester, S. Mary's College, or Winchester College, founded 1387, now consists of a Warden, seven Fellows, seventy-five Scholars, eight Exhibitioners, a Head Master, a Second Master, sixteen Assistant Masters, one Lecturer in Physical Science, and five extra Masters giving instruction in Modern Languages, Drawing, etc.; three Chaplains, three Clerks, and sixteen Choristers. Average income, as returned to Public Schools Commissioners, 15,494*l.* 17*s.* 5*d.* The Warden and Fellows are the present governing body, but a new governing body is about to be elected, under the provisions of the Public Schools Act of 1868. The Scholars and Exhibitioners are elected by the Warden, Sub-Warden, and Head Master of Winchester, jointly with the Warden and two Fellows of New College, Oxford, after a competitive examination, there being about twelve vacancies annually, and about 130 candidates. A Scholar is well boarded, lodged, and educated, at a cost to his friends of about 30*l.* per annum, including tradesmen's bills for books, clothes, etc., etc. Besides the Scholars there are about 300 Commons, non-foundation boys, who are lodged and boarded in Masters' houses. The expenses of a Commoner are about 135*l.* per annum. Winchester has thirty Scholarships at New College, Oxford, open to Scholars and Commoners, and tenable for five years. There are also Exhibitions given to deserving boys, on their proceeding to the University.

The Scholars on the Foundation of Winchester College are elected after a competitive examination, the particulars of which may be obtained by application to the Head Master, or to J. D. Walford, Esq., College Street.

The Commoners are received in boarding houses, containing about thirty boys each, at a charge of 100 guineas per annum, of which 30 guineas are charged for Easter Term and 35 guineas for each of the other two Terms.

There are Exhibitions (at present eight in number) to be held by Commoners, of the value of 50*l.* per annum, to which boys under fifteen years are elected by competition at the time of the Examination for the Scholarships.

The annual total of the three terminal school accounts — comprising, besides the school charges and a general charge of two guineas for medical attendance, a boy's personal bills for books, clothes, etc,—averages, for a Scholar, about 30*l.*; for a Commoner, about 135*l.*

The accounts are settled after every Term.

The Masters who keep boarding houses at present are, in order of appointment:—

The Rev. H. J. Wickham.	F. Morshead, Esq.
The Rev. H. E. Moberly.	The Rev. E. W. Sergeant.
The Rev. J. T. H. Du Boulay.	The Rev. C. H. Hawkins.
The Rev. W. A. Fearon.	The Rev. J. T. Bramston.

E. J. Turner, Esq.

Application for a boy's admission as a Commoner will be most conveniently made direct to the Master in whose house it is wished that the boy

shall be placed; or it may be made to the Head Master, who will then make the further arrangements.

No boy is received after completing his fifteenth year, except under special circumstances, and on condition of his being able to take a good position in the School. Boys under that age are required to be qualified to join some class in the School.

The grammars in use are the Public Schools Latin Primer and Wordsworth's Greek Grammar.

There are holidays three times a year: at Christmas five weeks, commencing on the Wednesday before Christmas Day; at Easter three weeks, commencing on the Wednesday before Easter Day; in the Summer seven weeks, commencing on the Wednesday nearest to the 1st of August.

I. The Scholarships of Winchester College are open to the competition of all boys who have completed their eleventh and not exceeded their fourteenth year on the 1st of July preceding the Election. An Examination graduated in difficulty according to the age of the candidates is held at the College annually in the month of July. The relative proficiency of the candidates, as exhibited in this Examination, determines the election. In cases of equal merit, the choice of the electors is influenced by the character of the candidates, and their pecuniary circumstances as stated in the declaration of their parents.

II. The Exhibitions are open to all boys under fifteen years of age, whether already in the School as Commoners or not. These are of the annual value of 50*l.* each, and are tenable during the whole of the Exhibitioner's stay in the School, unless vacated by his subsequent election to a Scholarship, or by forfeiture on account of idleness or other misconduct. The Examination for the Exhibition is conducted at the same time as that for the Scholarships.

III. Notice of candidates for the Scholarships or Exhibitions must be given on or before the first day of June in each year.

IV. Such Notice—addressed to J. D. Walford, Esq., College Street, Winchester—must be accompanied by the following papers:—

1. Certificate of baptism.
2. Certificate of character and conduct, specifying the length of time to which it applies, from the Schoolmaster or Tutor under whom the candidate has been last placed. In the case of a boy who has been brought up entirely at home, the parents' certificate of character is admitted.
3. A declaration signed by one of the parents of the candidate, or, if both parents be dead, by the person best qualified to give the necessary evidence. Forms of the declaration will be supplied on application to J. D. Walford, Esq., College Street, Winchester.

V. The candidates are examined:—

1. In Elementary Religious Knowledge.
2. In English Dictation.
3. In Arithmetic, Algebra, and Geometry.
4. In Latin Composition, Verse and Prose.
5. In construing and parsing in Greek and Latin.

VI. Besides the subjects specified above, others not declared beforehand are introduced from time to time; copies of questions set at previous elections are not issued, nor are the particular books in which the Candidates will be examined previously stated.

VII. The Scholarships of New College, Oxford, are open to all boys alike who have received their education at the School of Winchester College, whether as Scholars or as Commoners.

Westminster School.

"*In patriam populumque.*"

This ancient seat of education was founded in 1560, in connexion with the Collegiate Church of S. Peter's, Westminster, and is governed by Dean and Chapter. It affords instruction to about 150 boys, of whom 40 are elected by open competition (about 10 yearly, at Whitsuntide) from boys who have been a year in the School, and are under 15 when the year begins. These 40 Queen's Scholars pay 35*l.* per ann. for board and tuition in the College. Boarders pay 65 guineas for board with a Master, and 25 guineas for tuition, besides entrance fees of 10 guineas to School, and 5 guineas to House. Home boarders (boys who might elsewhere be called day pupils) pay the 10-guinea entrance fee, and 25 guineas per ann. tuition fee. School hours are from 8 to 9; from 10 to 12.30; from 3.30 to 5.30, excepting on Wednesdays and Saturdays, when School terminates at 12.30. Boys who board at home are allowed to come (having breakfasted) at 9, and they of course work during the breakfast hour, one or more masters remaining with them. Besides various prizes for the School generally, there are 3 Junior Studentships of 120*l.*, tenable 7 years at Christ's Church, Oxford; gifts to extent of 600*l.* per ann., in sums of not less than 50*l.*, nor more than 100*l.* annually, to poor or deserving Students at the same place; and 3 Exhibitions of 40*l.* per ann., tenable till B.A. degree at Trinity College, Cambridge,—all confined to the Queen's Scholars. Besides these there are annually open to whole School 2 Exhibitions of 50*l.*, tenable 3 years at College, at Oxford or Cambridge, and one of 40*l.* tenable for 2 years. Fagging is permitted to a limited extent. Vacations, 14 weeks. It is probable that important changes may be made soon in this School, reducing the cost of the Foundation to parents, and opening the Christ Church and Trinity Benefactions to boys not on the Foundation.

Charterhouse.

"*Floreat æternum carthusiana domus.*"

This celebrated School is situate in Aldersgate Street, City, and was founded in 1611, in connexion with a Hospital for 80 old men, and shares with it an endowment of the value of 29,000*l.* a year, of which about 8,000*l.* is spent on the School. A number limited to 200 boys are instructed, of whom 55 are now on the Foundation, and are nominated chiefly by the Governors in rotation for admission; every year, however, "two scholars are elected by competition" from among the boys who (being between 13 and 15 years of age) have spent not less than one year at the School, and placed upon the Foundation. Foundation Scholars are clothed and maintained, and are only called upon to pay for books and stationery, and four or five guineas per ann., and must, when nominated by Governors, be between the ages of 10 and 14, and be able to pass an examination proportioned to age in Classics and Arithmetic. Boys not on the Foundation are admitted by the Head Master, and pay for board and education, 80 guineas per ann., up to the fifth form, and in and above that form 90 guineas. For day boys, of whom there are from 30 to 35, the annual charge is 20 guineas. Education includes Classics, Mathematics, and English course, and the extras, German, Chemistry, Singing, Drawing, Drilling. Foundationers remain until their 16th, 17th, 18th, or 19th year, according to the report of Examiners. If the Foundationer passes a satisfactory examination at the age of 18, he receives an Exhibition of 80*l.* per ann., tenable 4 years, at Oxford or Cambridge, with 20*l.* extra the last year. Every Foundationer who satisfies the Examiners that it is probable he will pass the first public examination at the University, is qualified for an Exhibition. The Talbot Scholarship of 70*l.* is paid in three annual instalments, and the Havelock Scholarship of 20*l.*, to the friends of Scholar on his leaving the School. The monitorial system is in operation here, and the power of "fagging" is assigned by the Head Master to the monitors and others on the sixth and fifth forms, and is exercised over boys below the fourth form, "implying the right to exact certain personal services, such as making tea, fetching anything a senior boy may want, fagging out at cricket (limited to an hour a day), and occasional attendance at football." There are 10 benefices in the gift of the Hospital for Foundationers. This School will be removed to Godalming, Surrey, in the spring of 1872.

Harrow.

"Stet Fortuna Domus."

HARROW-ON-THE-HILL GRAMMAR SCHOOL.—This now celebrated School is distant about ten miles from London, and its situation is an excellent one, commanding a view of Windsor Castle and the Oxfordshire hills. It is stated that in clear weather no less than thirteen counties can be seen from the top of the church tower. The founder of Harrow was a yeoman called John Lyon, born at Harrow, in the hamlet of Preston. He took the deepest interest in education, and even when his resources were small he set aside a yearly sum to be expended in educating the children of the poorer classes. In the fourteenth year of Elizabeth's reign, A.D. 1571, a charter was granted to "the Keepers and Governors of the School called the Free Grammar School of John Lyon, in the village of Harrow-upon-the-Hill, in the countie of Middlesex." The endowment is now about 1,100*l.* per ann., besides nearly 10,000*l.* invested in consols for the purposes of Scholarships, Exhibitions, Prizes, &c. It affords instruction to about 500 boys, between 12 and 20 years of age, of whom about 32 are foundationers (admitted by the Governors from residents of parish), paying 17 guineas per ann.; about 10 are house boarders (not on foundation) paying 41*l.* 5*s.*, and the remainder boarders in a Master's house, at rates varying from 109*l.* to 176*l.*, including schooling, besides 16*l.* entrance fees, &c. There is a separate day school called an English Form, which is attended by sons of Harrow tradesmen, paying 5*l.* per ann., for Commercial course, including French. The Head Master enjoys, practically, the entire control of, and grants admission to, the School. His income averages 4,000*l.* per ann. There are about 6 Scholarships of 30*l.* per ann., tenable 4 years at University; 2 of 50*l.*, for the like term, 2 of 30*l.*, for 3 years at Oxford, 1 of 60*l.*, for 3 years, and 1 of 100*l.*, tenable 4 years; besides 5 Gold Medals, worth 10 guineas each, and numerous valuable Prizes in books. All but the first 200 boys in the School are liable to be fagged, excepting those who have fagged for three years. Half-holidays thrice a week. Vacations, 14 weeks. The Head Master's house is a commanding and substantial edifice, with accommodation for 60 boarders. The houses of the other Masters who receive boarders are situate in the village, in the vicinity of the School. No boy can be admitted to the School until he has passed an entrance examination in Latin and Greek. Every boy at the School has a private tutor. The number of pupils at present exceed the limit, 500, and under the government of the present Head Master no diminution in numbers can be anticipated.

Rugby.

"Orando laborando."

This school is situate in Warwickshire. Founded 1567. Endowment, 5,653*l.* per ann. About 500 boys are educated, from 12 years old, of whom about 80, being the sons of persons resident for two years within ten miles of Rugby on the Warwickshire side, and five miles of it in the other adjoining counties, are foundationers. The management, vested nominally in Trustees, is really in the hands of the Head Master. Foundationers are admitted by him, and are gratuitously supplied with all class instruction, and, if they apply for it, with tutorial instruction also. The Tutors, as well as the Head Master, receive boarders at 16*s.* per ann.; with 2 guineas entrance fee. The tuition and other fees bring the payment up nearly to 100*l.* per ann. Five Exhibitions, tenable 4 years at Oxford or Cambridge, are annually competed for; their value, ranging from 80*l.* to 40*l.* per ann., marks the place of the candidate in the examination at which they are awarded. There are, besides, several Prizes. A modified fagging is part of the school system, and is undergone by all boys before reaching the fifth form. Vacations, 15 weeks.

This College was founded in 1799, and formerly it was intended for the instruction of candidates for admission into the Army, either after competitive examinations or by purchase. They were admitted into what was termed "the Cadet College," and about 300 cadets were received. Thirty free Commissions were given every half-year to those highest on the list at the competitive examinations then held. This organisation has been recently changed, and the College is at present open only to those gentlemen who have passed Examinations for Direct Commissions in the Army. The course of study lasts one year, and comprises Field Fortifications, Military Surveying and Reconnaissance, the Elements of Tactics, Military Administration, Accounts and Correspondence, Gymnastics, Riding, and Drill.

An announcement has recently been officially made, that in future (viz., on and after 1st January, 1872) all candidates for Commissions in the Guards will only be required to pass a special examination. This order has no doubt been issued to maintain the aristocratic constitution of the household troops; but the expediency of the order is open to be seriously questioned, for naturally the line officers will eventually look down upon Guards' officers as possessed of inferior acquirements.

Royal Military Staff College.

Farnborough Station,

HANTS.

This College is open to officers of all arms of the service, and consists of 40 students; admission to the College is determined by a competitive examination. Only one officer at a time can belong to the College from a battalion of Infantry, or a regiment of Cavalry, and only ten officers at a time from the two corps of Royal Artillery and Royal Engineers. Every application to study at the Staff College must be made whilst the officer making it is present and serving with his regiment, through the Commanding Officer. No application from an officer on leave is entertained.

Twenty vacancies are offered for competition annually, five of which may be filled by officers of the Royal Artillery and Royal Engineers, highest on the list.

No payment is required from students to the funds of the College, beyond an entrance fee of 3*l.* from an unmarried, and 1*l.* 10*s.* from a married officer, as a contribution to the college mess funds, in addition to the regulated quarterly subscription; and an entrance subscription of three guineas to the college library.

The qualifications requisite for admission, are—

(*a*) A service of not less than five years, previous to examination, exclusive of leave of absence.

(*b*) A certificate from his commanding officer, that the candidate is in every respect a thoroughly good regimental officer.

(*c*) A confidential report (in answer to specific questions) regarding the character, habits, and disposition of the candidate.

(*d*) A certificate that the candidate, if not a captain, has passed the examination for a troop or company, and the "special Army examination."

(*e*) A medical certificate of good health and fitness for the active duties of the staff.

The competitive examination for entrance to the Staff College comprises

the following subjects, the relative value of each at the examination being shown by the number of marks attached to it :—

	Marks.
Mathematics, limited to arithmetic, algebra, geometry, plane trigonometry, and elementary mechanics	900
Military history and geography	900
French	300
German	300
Hindustani	300
Fortification	600
Military drawing	300
Geology, exclusive of Mineralogy	300
Chemistry, heat, electricity, and magnetism	300

The College course of study commences annually on or about the 1st February. The transmission of the printed examination papers to stations abroad is so arranged that the examinations may be held simultaneously, and the merits of the candidates decided upon in time to admit of those who are successful joining the Staff College by the 1st February next ensuing.

A synopsis of the course of study will be forwarded to any officer on application to the Director-General of Military Education, 13, Great George Street, S.W.

The course of study occupies two years, which period is not to be exceeded.

The yearly course is divided into two terms, viz., from the 1st February to the 15th June, and from the 15th July to the 15th December, the intervening periods constituting the vacations.

Should any marked case of deficiency or neglect be brought under the notice of the Director-General of Military Education, the student so reported will be liable to removal.

At the end of the second year a final examination will be held for the purpose of testing the general proficiency of the students in the obligatory subjects of the College course.

In the examination in modern languages, great stress will be laid on original composition, and on colloquial knowledge, and candidates who shall have proved their fitness for employment in the topographical department of the War Office, by a superior knowledge of French and German, as well as of Topography, will be named in the report of the Director-General of Military Education as qualified for employment in that department.

FOUNDED 1741.

This Military Academy is maintained for the purpose of affording a preparatory education to candidates for the Royal Artillery and Royal Engineers; the education is chiefly technical, and in no obligatory subject is carried beyond the point useful to both corps alike.

The number of cadets vary according to the requirements of the Service, and the admission is determined by competition, unaccompanied by nomination. Notice is given from time to time of the Examinations for admission, which are conducted under the superintendence of the Civil Service Commissioners, and take place half-yearly at Christmas and Midsummer.

The limits of age for admission are—For the Winter Examination, 1871-2, 16 to 19 years; for the Midsummer Examination, 1872, 16 to 18½; for subsequent Examinations, 16 to 18.

Any gentleman who wishes to present himself at one of the competitive examinations, must send in his name to the Military Secretary at the Horse Guards one month before the time of his examination, forwarding the following papers:—

1st. An extract from the register of his baptism.

2nd. A certificate of good moral character.

3rd. A statement of the subjects of examination in which he may desire to be examined.

Candidates are inspected by Military Surgeons on the first day of the examination, in order that it may be ascertained that they are free from any bodily defects.

The number of trials allowed will not exceed three.

Every candidate will be required to pass a qualifying examination in the following subjects:—

Mathematics, French or German, English writing from dictation, Geometrical drawing, Latin, Greek, French (the examination to be partly colloquial), German (the examination to be partly colloquial), Experimental sciences, viz., (*a*) Chemistry and heat, or Electricity and Magnetism, free-hand figure and landscape drawing.

Marks for these subjects are given in the following proportions:—

Mathematics (including 1,500 allotted to the subjects of the qualifying examination)	4,000
English composition and literature	1,500
English composition and history	1,500
Latin	3,000
Greek	2,000

French	2,000
German	2,000
Experimental sciences	1,500
Freehand drawing	1,000

Of these eight subjects a candidate will not be allowed to take up more than five for competition, or six if free-hand drawing be one of them.

The terms of payment to be contributed on behalf of a cadet are as follows, and are paid half-yearly, in advance :—

	Annually.
Queen's Cadets (if any)	Nil.
For the son of an Officer who has died in the service, and whose family is left in pecuniary distress	20*l.*
For the son of an Officer below the rank of Colonel	40*l.*
For the son of a Colonel, or of Captain or Commander in the Navy, or of a Professor at the Royal Military Academies ..	60*l.*
For the son of a private gentleman	125*l.*

The pay of a cadet is 3*s.* a day, it is issued to cover the expense of regimental clothing, messing, washing, and other contingencies.

Each cadet on first joining will be required to pay, in addition to the regulated contribution, a sum of 25*l.* to cover the expense of uniform, books, &c., and to bring with him the articles of clothing of which he will receive notice, and which must afterwards be kept up at his own expense.

The Field-Marshal Commanding-in-Chief is the President of the Royal Military Academy.

The Academy is under the control of a Governor, a military man, selected with special reference to his qualifications for superintending both instruction and discipline, and appointed by and responsible to the Secretary of State for War, through the Field-Marshal Commanding-in-Chief.

The Governor, with the approval of the Secretary of State for War, will have the power of appointing and removing the Professors and Instructors.

The organization is on a military basis. The cadets form one company under a Captain, assisted by four Lieutenants, charged with the discipline out of studies and the drill, one of whom will be Adjutant and Quarter-master. The Professors and Instructors may be either military men or civilians.

The Professors and Instructors will have certain limited powers of punishment, within and without the halls of study, at the discretion of the Governor, to whom they will report all punishments which they may inflict.

A sword is given at each final examination as a special reward for excellence in conduct.

The length of the course of instruction is two years and a half, and if any cadet fail to come up to the required standard at two examinations, he will be removed.

The following subjects form the course of obligatory studies :—

(1) Mathematics, including a thorough knowledge of plane trigonometry (the above to form the first year's course); practical mechanics, with the application of mathematics to machinery.

(2) Fortification, field and permanent; such a course as is suitable to cadets qualifying for the Artillery, and the requisite amount of geometrical drawing.

(3) Artillery; such a course as is suitable to cadets qualifying for the Engineers.
(4) Military drawing, with field sketching and reconnaissance.
(5) Military history and geography.
(6) French or German, at the student's choice.
(7) Elementary chemistry and physics.
(8) Drills and exercises.

Marks are assigned to the obligatory subjects of instruction in the following proportions:—

Mathematics and mechanics		7
Fortification		7
Artillery		5
Military drawing and reconnaissance		6
Military history, &c.		3
One modern language, French or German		2
Elementary chemistry and physics		2
Drills and exercises.	Manual, platoon, and Company drill	½
	Gymnastics	½
	Riding and sword exercises	½
	Artillery	2
		3½

No obligatory subject will gain a cadet any marks unless he obtain a minimum of one half marks in it, and no cadet will be ensured a commission unless he qualify by obtaining at least one half marks in the obligatory course in mathematics and mechanics, fortification and artillery, and one half of the total aggregate of the marks allotted to all the obligatory subjects.

Indian Civil Engineering College,

Cooper's Hill,

MIDDLESEX.

Post Town: Staines Railway Station, Egham, Surrey.

This College has been founded for the service of the Government of India, and an extensive range of buildings has been recently erected by additions to the mansion on Cooper's Hill. The site is peculiarly commanding and well chosen, the views of the surrounding country being most picturesque. The architect, Sir Digby Wyatt, has, by judicious alterations, and by the erection of new buildings, produced a handsome College, with accommodation for 150 students. There are now 50 in residence, and the number will be increased by 50 each year till the maximum of 150 has been reached. The studies involve a three years' course, so that every year there will be 50 fresh students.

The College has been established under the orders of the Secretary of State for India in Council, in view to the education of Civil Engineers for the service of Government in the Indian Public Works Department.

Admission is obtained by competitive examination, to which all British-born subjects between the ages of 17 and 21 years on the 1st day of July, 1872 are eligible,* but intending competitors will be required to furnish satisfactory evidence of fitness to the Civil Service Commissioners.

The course of special education for the candidates selected by this competition extends over three years, and all the students who pass through it successfully may obtain appointments in the Indian Public Works Department, as Assistant Engineers, and will be provided with a free passage to India.

The college course will extend over three years, each divided into three terms, with vacations of four weeks at Christmas, two weeks at Easter, and seven weeks in the summer. The Easter term begins on the 15th January, and ends on the Wednesday next before Easter Sunday. The summer term begins 14 days afterwards, and ends on the 29th July. The autumn term begins on the 16th September, and ends on the 18th December.

* The needful forms of application, with instructions for filling them up, and as to the nature of the evidence required, may be obtained from the Secretary, Civil Service Commissioners, Cannon Row, Westminster, S.W., at any time after May 1, 1872.

An annual charge of 150*l.* will be made for each student, in three payments of 50*l.* per term, which must be paid in advance to the Accountant-General, India Office.

The system of instruction will be partly what is usually termed professorial, by delivery of lectures, and partly tutorial, that is, in supervision of and assistance given to the students in their work. There will be specified courses of lectures and times of instruction, at which attendance will be obligatory, but the Professors and Instructors in each branch will also give additional instruction to those who desire it.

The College Staff when complete will consist of the President and eleven Professors. The present staff are—

President	Lieut.-Col. Chesney, R.E.
Professor of Construction and Mechanical Engineering	Callcott Reilly, Men. Inst., C.E.
Professor of Mathematics	The Rev. J. Wolstenholme, M.A.
Professor of Physical Science ...	Herbert McLeod.
Professor of Surveying	Capt. W. H. Edgcome, R.E.
Instructor in Mechanical Drawing	Lieut. G. S. Clarke, R.E.
Lecturer in Hindostani and History of India	Cotton Mather.
Instructor in Freehand Drawing	S. T. G. Evans.
Lecturer in Geology and Mineralogy	Professor M. Duncan, M.D., F.R.S.

Army Medical School,

Netley.

Every candidate presenting himself for admission to the competitive examination required for the Army Medical Service must be unmarried. He must produce a birth certificate, or affidavit of birth. The candidate should not be above 28, nor under 21 years of age. He must also produce certificates of moral conduct and character, and make a declaration that he labours under no mental or constitutional disease. He must also attest his readiness to engage for general service immediately on being gazetted, and must possess a diploma in surgery, or a licence to practise it, as well as a degree in medicine or a licence to practise it, in Great Britain or Ireland.

Certificates of registration of age and character must be lodged at the Army Medical Department, one week before the candidate appears for examination.

Candidates are examined in the following subjects :—

Anatomy and Physiology. Surgery. Medicine, including Therapeutics, the Diseases of Women and Children, Chemistry and Pharmacy, and a practical knowledge of drugs.

The examination in Medicine and Surgery will be in part practical, and will include operations on the dead body, the application of surgical apparatus, and the examination of medical and surgical patients at the bedside.

The Examiners in London prepare a list in order of merit with the marks affixed in the different subjects to be transmitted to the Director-General, and communicated to the Professors of the Army Medical School. If any candidate is found to be deficient in any particular subject, this shall be stated, in order that he may receive special instruction on the point at Netley.

After passing the preliminary examination, every candidate will be required to attend one entire course of practical instruction at the Army Medical School, before being admitted to his examination for a commission, on—(1) Hygiène; (2) Clinical and Military Medicine; (3) Clinical and Military Surgery; (4) Pathology of Diseases and Injuries incident to Military Service.

These courses to be of not less than four months' duration, and at their conclusion the candidate will be required to pass an examination on the subjects taught in the School. The examination will be conducted by the Professors of the School.

During the period of his residence at the Army Medical School, each candidate will receive an allowance of 5*s.* per diem with quarters, or 7*s.* per diem without quarters, to cover all costs of maintenance. And he will be required to provide himself with uniform, viz., the regulation undress uniform of an Assistant Surgeon, but without the sword.

All candidates are required to conform to such rules of discipline as the Senate may from time to time enact.

Royal Military Asylum (Model Schools),

Chelsea.

In these Schools candidates for the situation of Army Schoolmasters are trained for their duties. Non-commissioned officers and privates of the army recommended by their officers, civilian pupil-teachers who have completed their apprenticeship, and certificated school-teachers, are eligible if they be of sound health, free from deformity, from 20 to 25 years of age, and not under 5 feet 5 inches in height. The period of residence may extend to 2 years, during which time civilian candidates are messed and provided with uniform at the public expense. On completing their course of training as students, and on being reported qualified by the Council of Military Education, they will be enlisted and appointed Army Schoolmasters; if civilians, they will be enlisted (without bounty) for general service for the period of 12 years; if soldiers, they will be discharged from their regiments and re-enlisted (without bounty) for general service for the period of 12 years, reckoning towards their pension as schoolmasters one half of their service prior to admission to the Royal Military Asylum, but no portion of the time spent by them at the Royal Military Asylum. Army

schoolmasters rank as non-commissioned officers next below sergeant-majors. Their pay is as follows, with quarters and fuel, or allowance in lieu :—On first appointment, 3*s.* per diem, increasing 6*d.* per diem every 2 years' service. Schoolmasters, after 21 years' service, calculated according to the regulations, are entitled to a pension of 2*s.* 6*d.* or 3*s.* per diem. Superintending Schoolmasters are selected from the Army Schoolmasters for merit and service. They receive commissions as officers, with the relative rank of ensign. Their pay varies from 7*s.* to 8*s.* a day, according to service, with quarters or lodging money, and with an allowance of 1*s.* a day in lieu of a soldier servant. Superintending Schoolmasters may, with the sanction of the Commander-in-Chief and the Secretary of State for War, be permitted to retire after an aggregate service of 30 years, calculated in conformity with the regulations, on an allowance of 7*s.* 6*d.* or 8*s.* per diem. The widows of Superintending Schoolmasters will be eligible for pensions, and their children for an allowance from the Compassionate Fund, under the regulations applicable to officers of corresponding rank. All Army Schoolmasters are subject to the Mutiny Act.

Our Theological Colleges.

Chichester Theological College.

This College was founded in the year 1839 for the instruction of candidates for Holy Orders in Theology and in the duties of the Christian Ministry. It is under the immediate control of the Bishop, and is in connection with the Cathedral Church.

The Principal is appointed by the Bishop, and the Vice-Principal by the Principal, subject to the Bishop's approval. They must both be in Priest's Orders, and Masters of Arts or Graduates in Theology or Law.

The College is designed for Graduates of the Universities and others professing their intention of offering themselves as candidates for Holy Orders in the diocese of Chichester or elsewhere. No Student is admitted without the approbation of the Bishop, and testimonials are required in the form subjoined. Application for admission must be made to the Principal.

The course of study* occupies four terms. It embraces the Holy Scriptures, with special reference to the Greek of the New Testament; Selections from the early Fathers and the great Divines of the Church of England; the Book of Common Prayer and the xxxix. Articles; the Evidences of Christianity; the History of the Church and of the Reformation; and practical instruction in the duties of the Christian Ministry, in the composition and delivery of Sermons, management of Schools, parochial visitation, &c., &c.

Each Student on admission pays 1*l.* to the College Library, and a fee of 30*l.*, or, if preferred, 10*l.* at the commencement of each of the first three terms, covering all collegiate charges for the year. If residence extend beyond the four terms, 10*l.* is paid for each of the first three terms after the fourth.

The Students reside in lodgings approved by the Principal, and, when possible, within the Cathedral precincts. In all cases the expense of residence is placed under limitations, and the Students are expected to conform as to their habits and general conduct to the directions of the Principal acting under the Bishop.

The Students attend prayers daily in the Cathedral during residence, in the academical habit of their degree, and must be frequent partakers of the Holy Communion.

* N.B.—When a Student is admitted who is not a Graduate, he is expected to stay two years, unless special permission be given to abridge his course of study.

Visitor and President.
The Right Reverend Lord Bishop of Chichester, D.D.
Principal.
The Rev. A. R. Ashwell, M.A., Canon Residentiary of Chichester.
Vice-Principal.
The Rev. F. R. H. H. Noyes, M.A., University College, Durham.

Cuddesdon Theological College,

Wheatley, Oxfordshire.

The College is under the immediate direction of the Lord Bishop of Oxford, and is intended as a place of residence for religious preparation and theological study, between graduating at the Universities, and being admitted to Holy Orders.

It is open to all who have passed the Final Examination at Oxford, Cambridge, and Durham; and the Theological Examination at Trinity College, Dublin, and King's College, London.

Students admitted are not in any way pledged to take cures within the Diocese of Oxford.

Those who, being already in Deacon's Orders, are desirous of retirement and study, before becoming candidates for the Priesthood, may be admitted for short periods, at the discretion of the Principal, if there be room in the College.

As a general rule, Students are not admitted for a shorter period than one year.

The year is divided into four terms, ending severally with the four Ember Seasons, with the exception of Lent Term, which always ends on Easter Monday. Students are not allowed to remain in College during the vacations, without special leave of the Principal.

The course of study comprehends Lectures on the Holy Scriptures, on the Doctrine and Liturgy of the Church of England (especially Pearson and Hooker), on Church History, and the elements of Hebrew. Portions of the early Fathers and Historians are read in connection with the Lectures; the Students are also exercised in the composition and delivery of Sermons.

The manner of living is collegiate; all meals are taken in common, and all live under one roof, as in Colleges at the University.

The payment for the first year's residence is 120*l.* Of this sum, 30*l.* is paid when the name is first entered, and 30*l.* at the beginning of the first, second, and third terms of residence respectively. If the residence be prolonged beyond the first year, the payment is at the rate of 27*l.* 10*s.* per term, payable in advance. All College expenses, and all cost of fuel, candles, servants' wages, &c., are covered by the above payment; the rooms are furnished, but sheets and towels are not provided by the College.

Trinity College, Glenalmond,

Perthshire.

This College is designed for Students for Holy Orders, whether in England or Scotland. The minimum duration of the course is 2 years; and the formal diploma of the College will not be given to any Student who has not resided for this period. Students can be received for a shorter time; but such will only receive an informal certificate from the Warden. There are vacations of six weeks at Christmas, and eight weeks in the summer. Lectures are delivered on the following subjects:—The Scriptures in Hebrew and Greek, Dogmatic Theology, Pastoral Theology, Ecclesiastical History, Moral Philosophy, and Logic. Arrangements have been made by which Students can pass their vacations in parishes in England, so as to be introduced to pastoral work, under the guidance of experienced Clergy. The entrance fee is 5*l.*, payable on admission; the yearly charge (including every necessary expense at College, except academical dress), for candidates for Scottish Orders, 40*l.*; for candidates for English Orders, 70*l.* As in the School department, this charge is payable in advance: two-fifths in September, three-tenths in January, and three-tenths at Easter. There are some Bursaries in the gift of the Bishops of Scotland, which are bestowed by them on deserving Students, natives of Scotland, or of Scottish parentage, and candidates for Scottish Orders. Candidates for Scottish Orders are also provided with the necessary lecture books free of expense. Every candidate for admission is required to pass an examination in the following subjects:—

1. The Sacred History of the Old and New Testament.
2. The Four Gospels in the Original Greek.
3. Paley's Evidences of Christianity.
4. The first two Books of Xenophon's Anabasis to be construed and parsed.
5. Cicero de Officiis to be construed and parsed.
6. A passage of English to be translated into Latin.

He must also have been confirmed and become a communicant; and must produce a testimonial of good character from his Clergyman. He is

expected to provide himself with cap, gown, and surplice. Applications for admission, or further information, may be made to the Rev. the Warden.

There is also a Public School Department, for which see Schools, Glenalmond.

Gloucester Theological College.

This College is designed, primarily, for Graduates of the Universities who, being furnished with College testimonials, are desirous of entering upon a course of theological study, and of practical training in parochial work.

The period of residence for Graduates will be three terms; after which, if their conduct has been good and they have satisfactorily passed the prescribed examinations, they will receive the College Certificate. This Certificate will be accepted by the Bishop of Gloucester and Bristol in place of the Certificate of having passed the Cambridge Theological Examination, and of having attended the usual two courses of Divinity Lectures at Oxford.

Graduates who do not require the Certificate may be admitted for periods less than three terms.

In special cases, recommended by the Bishop, Students who have not attained a University degree may be accepted as Students of the College. Such candidates, however, will be expected to possess a fair knowledge of Greek and Latin, to be tested by a preliminary examination. To obtain the College Testimonium, which will entitle them to be accepted by the Bishop as candidates for Holy Orders, they will be required to reside six terms at the College, and to pass with credit a final examination.

The general regulations and discipline of the College will be as follows: daily attendance at the Cathedral; lectures for two hours every day, and regular training in parochial work.

An examination at the end of every term, and in the case both of applicants for a Certificate and of Non-Graduates; a concluding examination at the end of the whole prescribed course.

Particular attention will be given to the composition of Sermons and to public reading.

The Students will live, as far as can be arranged, in the Principal's house: in all other cases, in lodgings approved by the Principal.

The year will be divided into three terms of about 12 weeks each, beginning *about* Jan. 15, May 1, and Sept. 20.

The College fees are 10*l.* each term (to be paid in advance) in the case of those who are admitted to reside for not less than three terms; and 12*l.* each term (to be paid in advance) in the case of those admitted for a less time; and in all cases, an entrance fee of 1*l.* towards the Library Fund.

The charge for board and lodging at the Principal's house will be 33*l.* each term; the Principal having at present to hire a house so as to enable him to receive Students under his own roof.

The Council will meet once a year to audit the accounts and receive the Report of the Principal.

President and Visitor.—The Right Rev. the Lord Bishop of the Diocese.

Principal.—The Rev. W. H. Girdlestone, M.A., Vicar of S. Mark's, Gloucester.

Cumbrae College,

Isle of Cumbrae, N.B.

This College was established in 1849. The primary object of the foundation has been throughout the frequent celebration of Divine Service by a collegiate body, under circumstances favourable to religious learning; the second, Education. In regard to the latter, certain changes were made in 1853, the northern wing of the College, which had been assigned to the junior scholars and choristers, having been subsequently devoted to the reception of young men preparing for the English Universities, or residing there during the Long Vacation, or at any other period of the year, in preparation for the University Examinations. The southern wing of the College has continued from the first to be the residence of the canons—of

clergy desiring to be received there for a time for rest, or special study, or literary labours—and of Theological Students.

The foundation stone of the Collegiate Church was laid on May 29th, 1849, and it was opened for Divine Service on Whit-Sunday, 1851. The south wing of the College, or Canon's House, was opened on November 18th, 1850, and the northern wing, then called the Chorister's House, on October 9th, 1851. On the eve of S. Peter's Day, June 28th, 1854, the Bishop of the Diocese was installed as Provost of the Church and College, which office he continued to hold until January, 1867, when he intimated his wish that the Rev. J. G. Cazenove, who for upwards of twelve years had acted as Vice-Provost, should be made Provost. The founder assenting to the Bishop's nomination, the Rev. J. G. Cazenove was installed as Provost on February 24th, 1867.

The Church and College are dedicated more especially to the honour and glory of the Third Person of the Ever Blessed Trinity.

A limited number of aged or infirm clergymen are permitted to reside in the College, or in houses within its precincts, and to officiate in the Collegiate Church.

Morning and Evening Prayer are used in the Church, and the Holy Eucharist is celebrated, at the least, every Sunday, and on all Holy-Days.

The Provost receives into the College a certain number of Students. They consist of young men preparing for one of the Universities, or spending in the College the Long Vacation for the purpose of study, and of persons who after their University course are preparing for Holy Orders, or of persons who are about to enter some Theological College. No Student is ordinarily admitted who is not *above* sixteen years of age (in the case of those preparing for the Universities), and in all cases they may be required to produce such testimonials as are satisfactory to the Provost.

Graduates preparing for Ordination are admitted into this College, and reside in the same building with the clergy, each having a bedroom arranged to serve the purpose of a study, and the use of a library as a common room; and will receive assistance in their studies.

Terms, including rooms, board and tuition, 82*l.* per annum; the period of residence being about nine months in the year; or at the same rate for any period of not less than three months. Exhibitioners pay 2*l.* per month.

The members of the College take their meals in the College Hall with the clergy. Graduates wear the gown of their degree in hall, and at the Church Services.

Young men preparing for the Universities, or, in some cases, for a profession, are received into this College. None are admitted who are not above the age of sixteen. Each Student, as a general rule, has a study and bedroom, and also access to a library as a common-room.

Terms, for rooms, board, and tuition, 105*l.* per annum; or, 82*l.* for such as have a bedroom serving also as a study.

The College will be found suitable for such as are about to enter Universities at a somewhat later period than usual.

The members of the College take their meals in the College hall with the clergy. They are generally expected to be present at the Church Services, and to conform in other respects to the regulations of the College.

Members of the Universities are admitted to read during the Long Vacation, or at any other period of the year when there may be rooms vacant. Terms, 10 guineas per month.

King's College, London,

Was founded in 1828 by Royal Charter, upon the principle that "the Christian religion is an indispensable part of the instruction which should be given to youth."

The THEOLOGICAL DEPARTMENT provides instruction for young men purposing to offer themselves for Holy Orders, and is superintended by the Principal of the College. Students in this Department are admitted on proof of their having either graduated at Oxford, Cambridge, Durham, or Dublin, or of their having obtained an Associateship of King's College, or who, having been examined and reported eligible by the Principal, shall obtain the recommendation of a Bishop. The course of study must be continued during at least 6 Academical Terms (2 years). Examinations take place in each of the several branches of instruction every Term, and a probationary *vivâ voce* must be passed by every Student in his fourth or fifth Term. At the close of the course of 2 years a strict examination takes place; and to all Students who have merited such a distinction by their attainments, and by their good character during the period of their studies in King's College, the Principal is empowered by the Council to grant a certificate of attainments, which may be exhibited for the satisfaction of that Bishop to whom any Student may apply to be admitted as a candidate for Holy Orders. The two Archbishops and 25 of the Bishops have consented to admit as candidates for Holy Orders those Students who shall produce the College certificate. The fees for attending the full prescribed Theological Course are 10*l.* 10*s.* per Term for all Associates of King's College, London; and 12*l.* 12*s.* per Term for all other Students. The fees for the first two Terms must, except by special permission, be paid upon entrance, in addition to 5*l.* 17*s.* 6*d.* for Matriculation Fees. The Academical year consists of three Terms. Michaelmas Term, from about the 1st of October to the week before Christmas. Lent Term, from about the 20th of January to the week before Easter. Easter Term, from about 10 days after Easter to the end of June. Gentlemen (not being Graduates) not wishing to attend the whole course, may select any one or more subjects, at fees varying from One to Four Guineas per Class for each Term, or Five to Eight Guineas a year. Any person 20 years of age, not wishing to qualify to pass the examination for admission into the Theological Department, can enter classes for instruction in Latin, Greek, Hebrew, and Divinity, on payment of Eight Guineas per Term; attendance from 10 to 2 o'clock daily.

Visitor.—The Archbishop of Canterbury.
Principal.—The Rev. Alfred Barry, D.D., Canon of Worcester.
Head Master.—The Rev. G. F. Maclear, B.D.

The names of the rest of the Staff will be found in full length at page 61.

Lichfield Theological College.

Founded 1857. Graduates and others prepared for Holy Orders in the Church of England. Graduates of Universities in connection with the Church of England may obtain the College Certificate after a residence of three Terms. If the Certificate is not required, they are at liberty to study at the College for one or more Terms, on presenting satisfactory Testimonials.

All Candidates for admission must send to the Principal three or four testimonials of good and suitable character, from Clergymen who have known them well, and (if Graduates) from the Head or Tutor of their College. Non-Graduates must also pass an examination (1) in the Greek of St. Matthew's Gospel: (2) in general knowledge of the Bible. Unless under very exceptional circumstances, those who have failed at the Universities are not eligible for admission.

Graduates of the Universities reside one year. Non-Graduates two years. But Graduates, if they do not require the College Certificate, can be admitted to study for shorter periods, by special permission of the Principal; and Non-Graduates can, by industry and good conduct, obtain the Certificate from the Council (on the Principal's, recommendation) somewhat before the expiration of two years.

The course of study comprises—The Holy Scriptures; the Old Testament in English, and the New Testament in Greek. The Prayer Book, with an examination of Primitive and Mediæval Liturgies. The Doctrines of the Church of England, especially as set forth in her Creeds, Articles, and Standard Divines (Hooker, Pearson, &c). Church History, Primitive, Mediæval, and Modern. Evidences, &c.; *e.g.*, Bp. Butler, Paley, Blunt; also the Canon Law; the principles of the more important English Sects, &c. Elementary instruction is given in Hebrew and Greek.

Public reading is practised, under the instruction of the Principal; and each Student in turn reads the Lessons at daily morning chapel.

Public speaking is cultivated by means of Debates, School-room Lectures, &c.

Sermons or Theological Essays are frequently written.

Visitation of the sick and poor is learnt, under the guidance of the clergy, in the parishes of the city and neighbourhood.

An insight into the working of Schools is gained by occasional attendance at inspections, and by assistance at Sunday and Night Schools.

Elementary instruction in matters connected with health and disease is kindly given by one of the physicians in the city.

Music is taught by the Precentor of the College.

The tuition fees are 10*l.* for each Term of 12 weeks, beginning about February 1st, May 15th, and September 20th. There is an entrance fee of 1*l.* to the Library; Room-rent in the College House is 10*s.* a week; in lodging (sanctioned by the Principal) it varies from 9*s.* or 10*s.* upwards. Books cost about 4*l.* A surplice can be obtained at the College for 30*s.* It is computed that a Student's whole expense during residence need not exceed 25*l.* a Term.

There are at present two Exhibitions (valued at 25*l.* a year, and consisting of free commons in the College House) open for competition every Christmas.

President.—The Lord Bishop of the Diocese.

Principal.—The Rev. G. H. Curteis, M.A., Prebendary of Lichfield Cathedral; late Fellow and Sub-Rector of Exeter College, Oxford; Select Preacher, 1859 and 1866; Bampton Lecturer, 1871; formerly Fellow of S. Augustine's College, Canterbury; Rector of Turweston, Bucks.

Occasional Lecturers.—The Right Rev. Bishop Abraham, D.D., Coadjutor Bishop of the Diocese; the Rev. T. A. Bangham, M.A., Vicar of Christ Church, Lichfield, and other clergymen.

The following is an extract of a letter which has appeared in the *Guardian* newspaper:—

"In Canon King's paper, read at the Nottingham Congress, he seems to have been unwilling to recognise the fact that at least one fourth of the men who now seek Holy Orders are men who have not had the advantage of a University education. If so, he must entirely fail to appreciate the importance and real meaning of that fact. Yet it is surely one which, properly understood, should cause every Churchman to thank God and to take courage . . . that the Church of England is recovering from the mistake of recruiting her ministry exclusively from those who can afford to spend 1,000*l.* on their education, and to earn nothing till after the age of twenty-three. . . . I speak from the experience of a life-time devoted to this work—at S. Augustine's, at Oxford, and now at Lichfield, where 217 men have passed through my hands (one-third graduates, the remainder non-graduates)—when I say that, deeply appreciating, and invariably advising, a University education wherever it can be had, I find the non-graduate clergymen who have issued from this College are in acceptance with the people, and in self-devotion fully on a par with their graduate brethren, and that though often deficient in classical acquirements, still their knowledge of the world, the information which they have derived from the army, the navy, the law, the medical profession, in banking and trade, etc. . . . have more than compensated for defective literary education, and given them powers only attained by graduating in the great university of the world.

Two years spent in the training of a Theological College supplies, in considerable measure, the mental preparation for Holy Orders offered at the Universities. There is given: 1. Daily opportunity of worship in the beautiful Cathedral close at hand. 2. Perpetual and serious study of the Holy Scriptures, of the doctrines of the Church, of history, of the sacred languages. . . . 3. Constant and careful practice in public reading, in writing and delivering sermons, extempore and otherwise, in teaching, in music, and (with the Bishop's commission) in holding mission services and visiting the sick. . . .

"I trust this defence of a most deserving and increasing body of clergymen may reassure those who have been troubled by hearing the discussion at Nottingham.

"G. H. CURTEIS."

"*The College House, Lichfield.*"

Queen's College, Birmingham.

Founded 1828; incorporated 1843. Students are trained in the different departments of Arts, Law, Medicine, Theology, Engineering; and thus qualified for Degrees in the University of London, and for the Diploma of the Royal College of Surgeons, etc. There are several Scholarships, Prizes, etc.

This College is incorporated by Act of Parliament; the Visitor is the Bishop of the Diocese for the time being, and the Act provides that the instruction given in the department shall be regulated by the Warden, subject to the general superintendence of the President and Vice-President.

The object is to afford, at a moderate expense, to young men intended for Holy Orders, systematic and practical training in all the various branches of Theology, by a course of study extending over a period of two years.

Every Student, before admission, is required to sign the Thirty-nine Articles of Religion, and a declaration that he will conform to all the rules and regulations of the College.

The department is open to three descriptions of Students:—(1.) To Graduated Students, who are admitted for one year only, and from such candidates College testimonials, and the *testamur* of their Examiners, will be required. (2.) To Members of the Arts Department of Queen's College, who have passed the requisite examination. (3.) To Literates. Every such candidate for admission must forward a certificate of baptism, and a recommendation from a Bishop, and from the Clergyman of his Parish.

All Students, except Graduates, are subject, before admission, to a preliminary examination.

The courses of Lectures and the Examinations in Divinity are regulated by the Warden, with the sanction of the Bishop of the Diocese.

Opportunities will, with the consent and co-operation of the Parochial Clergy, be given for gaining practical knowledge of parochial work.

Residences are provided in the College, in which the Students are supplied each with a furnished room, and with board; and all Students (except Graduates, or those whose homes are in Birmingham or the immediate neighbourhood) are expected to reside in the College.

The expenses in this department are—For In-Students: Furnished room and commons, 50*l.* per annum; fees, 15 guineas per annum. (2.) For Out-Students: fees, 7 guineas per term.

An Examination is held in each Term, on the subjects of the lectures, and such other subjects as the Warden may appoint.

The final Examination in Divinity is held at the close of the second year.

A testimonial under the seal of the College will be granted to each Student who has passed the final examination, and whose conduct throughout his collegiate residence has been satisfactory.

Clergymen in Deacon's Orders, desirous of preparing themselves for Priest's Orders, may, with the consent of the Warden, attend any portion of the Lectures and Examinations for that purpose.

Students intended for Holy Orders, under the age of twenty-one years, or above that age, who shall not be able to pass the preliminary examina-

tion, may be admitted into the Preparatory Department; and classes are established for affording the necessary instructions preparatory to the Theological Course.

Prizes are annually offered by the Council and by friends of the College to deserving Students in this department.

Students are encouraged to offer themselves as candidates for the degree of M.A. conferred by the Archbishop of Canterbury on fit persons who pass the examinations required by the Archbishop, and special help will be given to those who are desirous of preparing themselves for these examinations.

The Academical Year consists of three terms, viz.: (1.) Michaelmas Term; from the first Monday in October to the week before Christmas. (2.) Lent Term; from the middle of January to the end of March. (3.) Trinity Term; from the first Monday in May to the end of July.

Students intended for Holy Orders will be admissible to the Arts or Preparatory Department, preparatory to their admission into the Department of Theology.

Each such Student on entrance will be examined by the Warden.

Such Students will pass a preliminary examination before entering the Department of Theology.

The expenses in this Preparatory Department are—(1.) For In-Students: Furnished room and commons, 50*l.* per annum; fees, 15 guineas per annum. (2.) For Out-Students: Fees, 5 guineas per term.

Instruction given, if required, in German and French, for which an additional 4*l.* 4*s.* will be charged.

The supervision of Students in all the Departments belongs to the Warden, Sub-Warden, and Tutors.

Information respecting the Medical Department, and the Arts Department preparatory thereto, will be given by the Warden, Queen's College, Birmingham.

Visitor.—The Right Rev. the Lord Bishop of Worcester.

President.—The Right Hon. the Earl of Lichfield.

Vice-President.—The Hon. The Rev. Prebendary Yorke, M.A., Rector of S. Philip's, Birmingham.

Warden and Professor of Theology.—The Rev. T. E. Espin, B.D., Hon. Canon of Chester.

Sub-Warden, Chaplain, and Senior Divinity Tutor.—The Rev. Thomas Bates, M.A.

S. Aidan's Theological College,

Birkenhead.

The Principal addresses intending Students in these words: "I would express an earnest hope that all Students coming to S. Aidan's will resolve, by God's grace, to exercise frugality, diligence, and self-discipline, as among the best practical preparations for the work of the Christian Ministry. I hope that Resident and Non-resident Students alike will, both in their persevering application to study, and in the regulation of their conduct generally during their College course, never forget the high object to which in entering the College they have distinctly devoted themselves, and that, with ceaseless prayer for God's blessing, they may so prepare themselves for the sacred Ministry of Christ's Church as both by their life and doctrine to set forth God's glory and set forward the salvation of all men."

The ordinary course of a Student at the College extends over six Terms, *i.e.*, three Terms in each year, Michaelmas Term, Lent, and Easter.

Every one applying to be admitted as a Student is required to send to the Principal the names of two competent referees, a certificate of baptism, and a testimonial signed by a Beneficed Clergyman of the Church of England, and if accepted to pass the Entrance Examination, which is strictly elementary, and which comprises general questions in Old and New Testament History, Arithmetic, Elements of Greek and Latin Grammar, the Gospel according to S. Mark in Greek, the Gospel according to S. Mark in Latin.

The College course for University Graduates will be three Terms, commencing with the Michaelmas Term. Graduates on applying for admission must send a certificate of their degree in addition to the documents above mentioned. The fees are as follows:—

	£	s.	d.
Entrance Fee	2	2	0
Resident Students (per Term) . . .	2	0	0
Non-resident Students (per Term) . .	10	10	0

Students may obtain permission to reside in the College during the vacations, and can read with the Assistant Tutors under special arrangement.

The principal Entrance Examination will be held at the beginning of the Michaelmas Term, and a Supplemental Examination will be held in January for those who cannot enter in October.

Examinations will be held at the end of each Term; and a list of the Students will be arranged in Classes according to the results of the Examination.

Visitor.—The Right Reverend the Lord Bishop of Chester.

Principal.—The Rev. W. Saumarez Smith, B.D., late Fellow of Trinity College, Cambridge.

Assistant Tutor and Lecturer.

The Rev. A. D. Mathews, M.A., S. John's College, Cambridge.

Resident Assistant Tutor and Chaplain.

The Rev. J. T. Kingsmill, B.A., Trinity College, Dublin.

S. Augustine's College, Canterbury.

(Founded as an Abbey and endowed by King Ethelbert, A.D. 605; suppressed, A.D. 1538; Restored as a Missionary College, under Royal Charter, with a body of Statutes, A.D. 1848.)

"*Benedicat nos Deus: Et metuant Eum omnes fines terræ.*"

The Missionary College of S. Augustine, Canterbury, was established by free contributions of Members of the Church, at the head of whom are Her Majesty the Queen, Her late Majesty the Queen-Dowager, and His late R.H. the Prince Consort. The greater part of the original fund was collected by the exertions of the Rev. Edward Coleridge, of Eton College.

The College is on a portion of the site of the ancient Abbey of S. Augustine, including the principal gateway, and the buildings are the Chapel, Hall, Library, Warden's Lodge, Fellows' Buildings, and rooms for forty Students, and for twelve Foreigners.

The object of the College is "to provide an education to qualify young men for the service of the Church in the distant dependencies of the British Empire, with such strict regard to economy and frugality of habits, as may fit them for the special duties to be discharged, the difficulties to be encountered, and the hardships to be endured."

The College is formed on the general plan of the collegiate institutions of the English Universities—to consist of a Warden, Sub-warden, and Six Fellows.

The Students may be of any nation and rank in life, and are "under such Statutes, Rules, and Ordinances as are for the time being in force in the College." The principal clauses of the College Statute, relating to Students, are:—

"Candidates for admission into the College as Students will be submitted to a previous examination. They will be required to be in communion with the Church of England, and to bring with them satisfactory certificates of baptism, and of religious and moral character.

"They will not be admitted ordinarily under eighteen or above twenty-two years of age. But the Warden may, in special cases, dispense with this regulation on the subject of age. They shall sign a written promise to conform to the rules of the College, to obey those who are set over them, and diligently to pursue the studies appointed them. They shall also sign a written declaration of their deliberate intention to devote themselves, with all the powers of mind and body which God in His goodness has given them, to His service in the Ministry of the Church of England in the distant dependencies of the British Empire.

"The Students are required to attend the daily Morning and Evening Prayers in the College Chapel, and are exhorted to communicate monthly at the least, and oftener if they desire it, and the Warden consider them fit so to do.

"The Students shall have separate apartments, but shall take all their meals in common in the College Hall.

"They shall wear a distinctive dress, and their ordinary apparel shall be grave and sober.

"The ordinary course of instruction in the College will be completed in three years.

"The payments to be made by the Students for the expense of their maintenance shall be from time to time fixed by the Warden, with the approbation of the Visitor, and shall be made in advance at the beginning of each Term."

The annual collegiate charge for the education and maintenance of each Student is 40*l*. This includes rooms, furniture, and attendance of College servants. It does not include the vacations, which are limited to three lunar months in the year, nor travelling and personal expenses, books, and stationery; but the two last are furnished at a reduced price. The expense of cap, gown, and surplice is three guineas. Each Student is expected to find his own sheets and towels. All other things are provided by the College. No fee of any kind, or caution money, is required on admission; but every Student at the close of his residence, before receiving his College testimonials, is required to make a declaration that all his bills are duly settled.

In May, 1857, the use of a distinctive hood was sanctioned by His Grace the Visitor of the College. The hood, accompanied by a diploma, is granted by the College to such matriculated Students as have completed the prescribed course, and have received missionary or colonial appointments.

The Terms of the College are two, and are fixed according to the discretion of the Warden.

There are 26 Exhibitions of considerable value to Students.

S. Bees College,

Cumberland.

This College was founded by Bishop Law, in the year 1816, endowed by the Earl of Lonsdale with the incumbency of the Parish of S. Bees, and recognized by Act of Parliament (3 and 4 Vic. cap. 77). Its object is to supply a good and economical education for candidates for Holy Orders. The College course extends over two years: this period is divided into four Terms; during which residence is indispensable. The first Term commences about the 28th of January, and ends towards the 5th of May; the second begins about the 28th of August, and closes about the 5th of December. The third and fourth are like the first and second. Lectures begin punctually (Sundays excepted) on the 1st of February and 1st of September. Students are admitted either in January or August.

There being no Collegiate Buildings, each Student furnishes himself with a house or lodgings in the village, under the direction and control of the Principal. The expense of board and lodging, with moderate economy, may be from eighteen shillings to twenty-four shillings a week for each Student. The fee for Tuition is 10*l.* a Term, paid each Term in advance; three guineas are paid by each Student when he comes into residence, in aid of a fund for keeping the College in repair and increasing the Library; the cap and gown cost about 1*l.* 10*s.*; this, with the additional cost of some prescribed books, includes all the necessary expenses. The Librarian, who is generally a distinguished Student of the College, is exempted from the payment of the College fee.

Before the admission of a Student, the Principal must be furnished with testimonials from two Clergymen of the Church of England; one of these must certify that the person in whose behalf it is given is a man of unblemished morality and consistent piety; that he is cordially attached to the Church of England; and fitted, by his general habits, character, and attainments, for the office of the ministry. It is desirable that it should also specify his age and condition, as well as his pursuits from the time when he left school to that in which the certificate is granted. If no single Clergyman can give the testimonial for the *whole period*, it may be covered by several. The other Testimonial is to certify that the individual desiring admission has such a knowledge of the Greek and Latin languages that he can attend lectures upon the Greek Gospels and some easy Latin Author, with advantage to himself. No Student can continue a member of the College, whose conduct is not in all respects satisfactory to the Authorities.

The ordinary limits of age are twenty-one and thirty-five. It is desirable that the Testimonials should be sent in during the three months previous to the commencement of that Term in which the Student proposes to begin his residence.

The course of study during the four Terms embraces Scriptural and Ecclesiastical History; the evidences of Religion, external and internal; an expository knowledge of the New Testament; Lectures on the Creeds and the Articles of Religion; Theology, doctrinal and pastoral; and the composition and delivery of Sermons.

S. Boniface' Mission-House,

Warminster, Wilts.

Established October 5th, 1860.

This College has been established by the Rev. James Erasmus Philipps, M.A., Vicar of Warminster, for the purpose of preparing young men (of the age of sixteen about and upwards) for S. Augustine's College, Canterbury, and other Missionary Colleges abroad, as Bishop's College, Calcutta, S. John's, Newfoundland, &c. It admits men of all classes in society, who seem to be gifted for Missionary work, and called to the same of God. Exceptional education can be offered to those who are of an advanced age, and cannot be admitted in consequence at S. Augustine's, &c. They are entitled Associate Students. Each application will be decided on its own merits.

The instruction given is in (1) the Latin and Greek languages *ab initio:* (2) Mathematics (pure and mixed), if needed: (3) English Literature and Grammar, and general subjects, with a view of preparing them for any circumstances in which they may be placed: (4) Theology, the Old and New Testament History, Liturgiology, and Ecclesiastical History, &c.:

(5) Gardening, Carpentering, Printing, and Bookbinding. Besides there are opportunities for teaching in the Night and Sunday Schools, and visiting the poor, when it is thought advisable, and their services are required. Singing is occasionally taught, and instruction in playing on the Harmonium, &c., can be had.

The Students attend Matins in the College Chapel, and a short service in College in the evening. Also a Mid-day Service and Evensong, if so disposed. There is a Celebration in the Parish on Sundays and Holy Days. Opportunities for special prayer and meditation are afforded at times, and it is intended by degrees, as thought fit from time to time, to give direct instruction in ministerial work, and the spiritual life.

The College is at present a large house, near the Parish Church, capable of holding 20 Students. There is a Common room, and a Library,

The Terms are four in number, and are called Lent, Easter, Michaelmas, and Advent Terms. Lent Term begins about January 25; Michaelmas about August 5. The Vacations are five weeks at Christmas and seven at Midsummer, a week at Easter, and a few days between Michaelmas and Advent Terms after Commemoration Day. The two latter are usually spent in College.

The College charge is 40*l.* a year, including board, lodging, tutors, washing, and surgery. The S.P.G. make a grant to a certain number of the Students, of 10*l.* a year. This is attainable usually after a short stay at the College. Books can be obtained with 25 per cent. discount taken off at the College. It is recommended that 2*l.* worth a year be provided—the education being directly interfered with, if an insufficient number be granted. Otherwise the personal expenses of the Students are small, all extravagance and waste being discouraged, as inconsistent with the poverty which should more or less characterize all clergy, especially those who have chosen the Missionary life, and unjust to those who assist them in their stay at the College.

For admission the written testimony of the clergyman of the parish in which the candidate resides, or of two other clergy, to his character is required, as also the consent of his guardians or parents, if under age. A guarantee that the College charge will be paid is also looked for.

The College has the sanction of the Bishop of Salisbury (the Diocesan), and is approved by the Bishop of Gloucester and Bristol, Bishop Hobhouse, Archdeacon Huxtable, the Rev. Dr. Bailey, Warden of S. Augustine's, and many other home and colonial bishops and clergy.

Warden.—The Rev. James Erasmus Philipps, M.A., Vicar of Warminster, and Prebendary of Sarum.

Principal.—The Rev. James Russel Madan, M.A., Queen's Coll., Oxford.

Tutor.—The Rev. Edward Hill Beale, M.A., S. John's College, Oxford.

S. David's College, Lampeter,

Cardiganshire.

Incorporated 1828. Income from Endowment and Grant, about 1,000*l.* per ann. Students prepared for Holy Orders in the Church of England, at a

cost of about 45*l.* per ann. for tuition, rooms, &c. The course extends to 10 terms—3 terms to the year. Numerous Prizes and Scholarships.

The Course of Instruction comprises the following Subjects :—Theology, Classics, Mathematics, English, German and French, Welsh.

Thus the Course embraces preparation for the Civil Service, and for other Professions, as well as for Holy Orders.

Nearly all the Scholarships on the original foundation, and all those recently endowed, are entirely open.

Students who enter in February and October are at liberty to compete for the Scholarships then vacant. The Examinations begin on or about the 1st of October and 1st February.

The Scholarships are tenable during residence in the College; but are forfeited by misconduct.

Prizes are given in Theology, Hebrew, Classics, Mathematics, Logic, History, the Natural Sciences, English, French, Welsh, and German.

The Bates Prize, value 14*l.*, is given to the Student who in his first year distinguishes himself most in Classics and Mathematics. Three Hebrew Exhibitions, one in Welsh, and one in Natural Sciences, of the value of 10*l.*, are awarded for the greatest proficiency in these subjects, and may be held with any Scholarship which does not exceed 40*l.* in value.

The College has by Charter the power of conferring the Degrees of B.A. and B.D. The B.A. Degree can be obtained by Students who have resided nine full Terms, and who have passed all their examinations satisfactorily. These Examinations take place each year in June, and are conducted by Examiners nominated by the Vice-Chancellors of the Universities of Oxford and Cambridge. For the Theological Certificate and for the Degree of B.D. a residence of ten Terms is necessary. This degree can only be obtained five years after the candidate has taken Priest's Orders.

There are three Terms in the year. The Lent Term begins on February 1st; the Easter Term the third Wednesday after Easter Day; the Michaelmas Term, on October 1st.

Students can matriculate at the beginning of any of these Terms. They are examined at entrance, when they must bring up one Greek and one Latin Classical Author; some knowledge of Mathematics is also desirable. The Matriculation Fee is 1*l.* The sum of 20*l.* must also be deposited at entrance as caution money, which is returned whenever a Student leaves College.

The entire necessary expenses of a Student, including tuition, rooms, commons in Hall, &c., do not exceed 45*l.* per annum.

Visitor.—The Lord Bishop of S. David's.

Principal and Professor of Greek.—The Very Rev. Ll. Lewellin, D.C.L., Dean of S. David's.

Vice-Principal and Hebrew Professor.—The Rev. J. J. S. Perowne, B.D., Canon Residentiary of Llandaff Cathedral.

Latin Professor.—The Rev. Charles G. Edmondes, M.A.

Professor of English and Modern Languages.—The Rev. J. J. Lias, M.A.

Welsh Professor.—The Rev. Joseph Hughes, B.D.

Salisbury Theological College.

FOUNDED BY BISHOP HAMILTON, A.D. 1860.

The object of this Institution is to supply candidates for Holy Orders with religious and intellectual training, between the time of graduating at the University and entering the Ministry.

The College is designed for all who have taken their degree at Oxford, Cambridge, or Durham; or who have passed the Theological Examination at Trinity College, Dublin, and King's College, London.

Students may be admitted who have not graduated at the University, with the sanction of the Bishop; such Students to remain at the College for two years *at least*.

Candidates for admission will be expected to produce testimonials of good conduct, and strict inquiry will be made of their fitness to enter upon this preparatory work.

Students are not confined in their choice of Curacies to the Diocese of Salisbury. The Bishop of Salisbury and some other Bishops will accept one year's residence at this College in lieu of the Divinity Certificate at Oxford, and the Voluntary Theological Examination at Cambridge.

Students, before entering the College, are required to pass an examination in the Greek of S. Matthew's Gospel, in the English Bible, and in the first Book of Cicero de Officiis.

They reside in the College with the Principal, or in an adjoining house, adopting a Collegiate life.

The length of residence for Graduates is one year, consisting of four terms.

The Students attend daily the Cathedral and College Chapel Services. Surplice, cap, gown, and hood will be required.

The course of Lectures embraces the Old and New Testament, especially the study of the Psalter (as entering largely into future clerical life), the Doctrine and Liturgy of the Church of England, Church History, Patristic Reading, with the study of the Hebrew language. A subjoined list of the subjects required by the Bishop will show what books are used at the College. Practice in writing Sermons, and in preaching without book is given. Opportunities also are afforded for seeing parochial and school work.

The payments are 30*l.*, payable in advance at the beginning of each term, and 1*l.* annually towards the Library.

The sum of 10*l.* will be required of each Student, upon his name being inserted in the College Books, which, upon his admission, will be deducted from the payment for the first term.

These payments include all expenses connected with the College, for board, lodging, servants' wages, &c.; but each Student is requested to bring his own sheets and towels.

The terms are so arranged as to embrace the four Ember Seasons, viz.: Lent, Trinity, Michaelmas, and Christmas.

Visitor.—The Lord Bishop of Salisbury.
Principal.—The Rev. J. Daubeny, M.A., Chancellor of Salisbury Cathedral.
Vice-Principal.—The Rev. H. T. Armfield, M.A.

Wells Theological College.

This College was opened on the 1st May, 1840, to Graduates of the Universities of the United Church of England and Ireland, desirous of preparing themselves for Holy Orders, and furnished with satisfactory testimonials.

The period of residence ordinarily required is one year, but in certain cases Graduates may be admitted for a shorter period of not less than two terms. The year is divided into four terms, with vacations.

The Bishop of Bath and Wells will accept the testimonial of a year's residence and of fitness for Holy Orders, in place of the certificate of having passed the Cambridge Voluntary Examination, or of having attended the usual Divinity Lectures at Oxford, and in very special cases, instead of the Dublin Divinity Testimonium.

Non-Graduates who come with sufficient recommendations, and are approved by the Bishop, may also be admitted as Students. These candidates are required to pass an entrance examination in elementary Bible knowledge, and in Greek and Latin, and to reside two years at the College.

The general course of study consists of the Holy Scriptures, the Book of Common Prayer, and the Articles of the Church of England; Ecclesiastical History; Hooker, Bp. Pearson, Bp. Butler. Hebrew, and some of the Greek and Latin Church writers form the subject of private lectures. Attention is paid to the subject of Pastoral Theology, and opportunity is afforded for teaching in schools, and visiting the sick and poor; for practice in the composition of sermons, and of public reading; and for instruction in Church music.

The Students live in lodgings which are assigned by the Principal. They are required to conform to the College rules, and to pass satisfactorily the examinations at the end of each term, in order to obtain testimonials on leaving the College.

The College Fee is 30*l.* for each year, or 10*l.* per term for any period less than the year, to be paid in advance into Messrs. Stuckey's Bank, Wells, to the account of the Trustees. In all cases a payment of 1*l.* 10*s.* towards the College Choir, and of 1*l.* 10*s.* to the Library, is required on admission. The cap, gown, and hood of Degree are used.

Visitor.—The Right Rev. the Lord Bishop of Bath and Wells.

Principal.—The Rev. C. M. Church, M.A., Oriel College, Oxford, Sub-Dean and Prebendary of Wells Cathedral.

Vice-Principal.—The Rev. A. W. Grafton, M.A., Trinity Hall, Cambridge, Prebendary of Wells Cathedral.

THE EDITOR of this Work will be happy to afford fuller information (gratuitously) respecting any of the Schools named in this book, upon receipt of a stamped envelope addressed to him at Berners Chambers, 70, Berners Street, W.

Plan of the Book.

The Index of the names of Head Masters will be found at the end of the Appendix, but as the names of Towns and places are arranged in **alphabetical order** in the work, it will scarcely be necessary to refer to the general Index. Places such as S. Leonards, S. Davids, S. Austell, etc., will be found under **S**, as S. Leonards, S. Davids, S. Austell, etc., the only deviation is that London is divided into its postal districts according to the system followed in the "British Postal Guide," and the Schools will be found alphabetically placed under their respective districts, with the designation of the house, or name of the street or locality in which they are situate.

Editor's Note.

In the body of the work the Schools are arranged in opographical and alphabetical order, and at the end of the book, immediately following the Appendix, an index of the names of Head Masters and others will be found, also arranged in alphabetical order.

N.B.—With regard to those Schools where pupils are prepared for the Oxford and Cambridge local examinations, the difference between Oxford and Cambridge in their arrangements is thus described:

"Oxford confers on those who pass the Senior Examination the title of Associate in Arts, and on the Juniors merely a Certificate; Cambridge gives a Certificate only to both classes. Oxford does not allow the fact that a Student has passed the Theological part of the Examination to be stated on the Certificate, unless he has been examined in the Prayer Book; Cambridge does allow it. Oxford arranges the Candidates in the First Class in order of merit, the rest alphabetically; Cambridge arranges all alphabetically, but adds lists of those who have specially distinguished themselves. Oxford does not set special books in languages for the Senior Examination; Cambridge does, but adds also some passages from other books than those set."

Cambridge has established Examinations for Girls' Schools also. The Masters and Fellows of Balliol College, Oxford, have given 5 Exhibitions of fifty guineas each, tenable 4 years, to be competed for at the Oxford Local Examinations. They will be offered to those among the Senior Candidates who shall obtain the highest places in the first division of the general list. The Exhibitioners will be expected to produce testimonials of good conduct. They will commence residence in January, and will be required to pass the first of their University Examinations (Responsions) within six months. The Exhibitioners will have to pay to the University an admission fee of 2*l.* 10*s.* and an annual fee of 1*l.* They will also have to pay to Balliol College the annual sums of 22*l.* 3*s.* for tuition, and of 10*l.* for furnished lodgings; but they will not be subject to any other College charges, and they will be able to regulate the expense of their own living.—The Universities of Edinburgh and Durham have also established Local Examinations.

The Editor of this work compiled and published, in 1868, a book entitled the "Oxford and Cambridge Local Examination Record," being a tabulated account of these Examinations from 1858 to 1868, giving the names of the Schools and Head Masters, classified in a synoptical and alphabetical form, with a critical analysis of the yearly and total results, arranged in interesting and deductive tables; and in 1873 the editor will publish vol. ii. of the same work, giving the returns in detail of every school for the 5 succeeding years' examinations, to which will be added the total results obtained by each school in the preceding 10 years, the whole forming a comprehensive statement up to the latest date. This work will be published every succeeding 5 years. The cost of this book is 1*s.*

The fee for Students desirous of becoming Associates of this School is 30*l.* in one sum on entrance, or 40*l.* in two annual payments. The mode of instruction is by systematic courses of Lectures, by written and oral Examinations, by practical teaching in the Laboratories and Drawing Office, and also, under certain conditions, by Field Excursions. The Chemical and Metallurgical laboratories are open to all Students. Every Candidate for Associateship must acquire a sufficient knowledge of certain subjects set down for study in the first and second years; but in the third year he may confine himself to the Mining, Metallurgical, or Geological Divisions, and pass his final Examination in the first class in the subjects of one of those divisions only. The courses of instruction are distributed over three years, but those Students who possess sufficient knowledge may, if they think fit, pass through the whole in two years, by presenting themselves during the current year for Examination in the subjects allotted to the first and second years. Persons desirous of obtaining the distinction of Associate of the Royal School of Mines, who have already acquired a knowledge of the subjects of the first two years, may proceed at once to the courses of the third year, by passing the final class Examination in those subjects before the Professors of the Royal School of Mines, and paying a fee of 1*l.* for each Examination. Since the Royal College of Chemistry became the property of the Government, its spacious and well-furnished laboratories have been used for the instruction of the pupils of the Royal School of Mines. There are three terms in the Collegiate year, of three months each, commencing in the first weeks of October, January, and April respectively. The charge for instruction in the Chemical Laboratory is 12*l.* for 3 months, 6*l.* for 3 months, and 5*l.* for 1 month. This charge does not include the fees for attending the Lectures. There are 8 Royal Exhibitions to the Royal School of Mines, Jermyn Street, of the value of 50*l.* per ann., entitling the holders to free admission to all the Lectures and

the Chemical and Metallurgical Laboratories at the Royal School of Mines, to be held from year to year for 3 years, on the condition that the holder attends the Lectures regularly during those years, and passes the Examinations required for the Associateship of the School. H.R.H. the Prince of Wales, as Duke of Cornwall, has granted 2 Scholarships of 30*l.* each. One becomes vacant every year, and will be competed for by those Students only who have passed the Examinations of the first two years of the curriculum required for Associates. It is held for two years by the successful competitor. Two Scholarships of 15*l.* each are given to the Students who stand highest on the list of those who have passed their Examinations for the first year, and a Scholarship of 25*l.* to that pupil, not being the Duke of Cornwall's Scholar, who has gained the greatest number of marks in the Examinations of the first two years. Royal Academy of Arts, Burlington House, *Piccadilly.* About 300 Students educated, of whom about 40 are admitted annually under the following regulations. It is required that applicants for admission should have already attained such proficiency as will enable them to Draw or Model well. An acquaintance with Anatomy (comprehending a knowledge of the skeleton, and the names, origins, insertions, and uses of, at least, the external layer of muscles) is indispensable for those who are to pursue the branches of Painting, Sculpture, and Engraving. A Painter is required to produce, as a specimen of ability, a finished Drawing in Chalk, about 2 ft. high, of an undraped Antique Statue; or, if of the Theseus or of the Illyssus (the only mutilated figures admissible), it must be accompanied by Drawings of a Head, Hand, and Foot. Similar specimens are required from Engravers. A Sculptor must send a Model either in the Round or in Relief, about 2 ft. high, of an Undraped Antique Statue, accompanied by a Drawing in outline of a similar figure. Prior to the delivery of the specimens referred to, the applicant must obtain from the Registrar, through the written request of any Member of the Academy, or other Artist or person of known respectability, a Printed Form, the blanks of which must be filled up and delivered, with the Drawings or Model, at the Royal Academy, on or before the 28th of June or the 28th of December, to be submitted to the First Council held in July or January. If approved of, the applicant will be entitled to admission as a Probationer, and 3 months are allowed in which to prepare within the Academy a set of Drawings or a Model and Drawings. The time of attendance is from 10 o'clock in the morning until 3 o'clock in the afternoon. A Painter or Engraver is required, during his probation, to make a Finished Drawing in Chalk, not less than 2 ft. high, from an Undraped Antique Statue, together with an Outline Drawing or Drawings, of the same figure anatomized, showing the bones and muscles, in one or two Drawings, with references to the several muscles, tendons, and bones contained therein. A Sculptor is required, during his probation, to produce a Model, in the Round or in High Relief, not less than 2 ft. high, from a similar figure, together with an Outline Drawing or Drawings of the same figure anatomized, showing the bones and muscles, in one or two Drawings, with references to the several muscles, tendons, and bones contained therein. These Drawings and Models are submitted to the Council, together with the Drawings or Models originally presented by the applicant for admission as a probationer. When these are considered satisfactory by the Council, the probationer is admitted as a Student of the Royal Academy for 7 years, and receives a ticket of admission from the keeper. Each candidate to be a Student in Architecture must present to the Council a certificate either from an Architect Member of the Royal Academy, of the Royal Institute of British Architects, or of any other public Institution for teaching Art and Science, certifying that the applicant has followed up the study of Architecture and Architectural Drawing, and has acquired a

reasonable degree of proficiency in the same. The applicant must further submit to the Council such Drawings, the number not to exceed 3 (not necessarily made for the occasion), as he may think suitable to show the extent of his proficiency; such Drawings being declared by him in writing to have been executed wholly by him, and the same being attested by the persons recommending him, to the best of their knowledge and belief. If such Certificates and Drawings are approved by the Council, the candidate is required to make, in the Royal Academy, under the inspection of the keeper, such Drawings or Designs as may be required —the subjects to be determined by the Council—which Drawings, together with the Certificate before referred to, are laid before the Council, and if approved, the candidate will be admitted as a Student for 7 years. All instruction in the Academy is gratuitous, the Student providing his own materials. Persons resident in London, or its vicinity, must apply personally. J. P. Knight, R.A., Secretary; Henry Eyre, Registrar.

College of Preceptors, Bloomsbury, 42, *Queen Square.* Incorporated in 1849, by Royal Charter, "for the purpose of promoting sound learning and of advancing the interests of Education, more especially among the middle classes." The principal means employed to secure these objects are—the periodical examination of teachers and of pupils. The union of teachers of every class in a corporate body, so that they may have a recognized position on a par with that enjoyed by the other learned professions. The establishment of a fund for the relief of the families of deceased, aged, and poor members. The providing of a medium of communication between Principals of Schools and Assistants of good character and attainments, and the periodical bringing together of teachers for the discussion of subjects in which the scholastic profession is interested. All persons engaged in education, and who have passed an Examination satisfactory to the Council, are admissible as Members of the Corporation. The Charter empowers the College to hold Examinations of Teachers and Schools, and to grant Diplomas and Certificates of Proficiency to such persons of both sexes as pass Examinations satisfactorily. The Examinations of Teachers for the College Diplomas take place twice a year, in the Midsummer and Christmas vacations. The Examinations of Pupils for Certificates are also held twice in each year; namely, in May and November. Between 1,700 and 1,800 pupils of Schools were examined during 1870. The Rev. W. Haig-Brown, LL.D., Head Master of the Charterhouse School, President of the Council; the Rev. W. T. Jones, M.A., of Sydenham College; the Rev. W. D. West, D.D., Epsom College; the Rev. J. Royal College of Surgeons of England (*Lincoln's Inn Fields*). Was built in 1835. Candidates who commenced their Professional Education on or after the 1st of January, 1861, are required to produce one or other of the following Certificates: Of Graduation in Arts at a University recognized for this purpose; of having passed an Examination for Matriculation, or such other Examination as shall, in either case, from time to time be sanctioned by the Council of this College, at a University in the United Kingdom, or at a Colonial or Foreign University recognized by the Council of this College; of having passed the Preliminary Examination for the Fellowship of this College, or of the Royal College of Surgeons in Ireland, or of Edinburgh, or of Glasgow; of having passed the Examination in Arts of the Society of Apothecaries of London, or the Apothecaries' Hall of Ireland; or of having passed the First-Class Examination of the Royal College of Preceptors, or received the Testamur of the Codrington College, Barbadoes, or taken the degree of Associate of Arts granted by the Tasmanian Council of Education, with a Certificate that the Student has been examined in Latin and Mathematics. Candidates who shall not be able to produce one or other of the foregoing Certificates will be required to pass an Examination in English, Classics, and Mathematics, conducted by the Board of Examiners of the Royal College of Preceptors, under the direction and supervision of this College. The following is considered by the Examiners as the commencement of Professional Education: 1. Attendance on the Practice of a Hospital, or other Public Institution recognized by this College for that purpose. 2. Instruction as the Pupil of a legally qualified Surgeon, holding the appointment of Surgeon to a Hospital, General Dispensary, or Union Workhouse, or where such opportunities of practical instruction are afforded as shall be satisfactory to the Council. 3. Attendance on Lectures on Anatomy, Physiology, or Chemistry, by Lecturers recognized by this College. The commencement of professional study, otherwise than by attendance on Lectures in recognized Medical Schools, or by attendance on the practice of recognized Hospitals, will not be admitted until a Certificate thereof shall be furnished to the Secretary for registration at the College, by the Practitioner whose Pupil the Candidate shall have become, or by the Medical Superintendent of the Hospital or other Institution to the practice of which he shall have entered, and will, consequently, date only from the reception of such Certificate by the Secretary; the Certificate to be accompanied by

proof of having passed the necessary Preliminary Examination in General Knowledge. Candidates are required to produce the following other Certificates, viz: Of being 21 years of age; of having been engaged during 4 years in the acquirement of Professional knowledge; of having studied Practical Pharmacy during 3 months; of having attended Lectures on Anatomy, delivered not less frequently than 4 times in each week, during 2 Winter Sessions; of having performed Dissections during not less than 2 Winter Sessions; of having attended Lectures on Physiology, delivered not less frequently than twice in each week, during 2 Winter Sessions; of having attended Lectures on Surgery during 2 Winter Sessions, of which one course must not be earlier than the third Winter Session, at a recognized Medical School; of having attended 1 Course of Lectures on each of the following subjects, viz., Chemistry, Materia Medica, Medicine, and Midwifery; of instruction and proficiency in the practice of Vaccination; of having attended, at a recognized Hospital or Hospitals in the United Kingdom or Colonies, the Practice of Surgery, during 3 Winter and 2 Summer Sessions; and of having, subsequently to the first Winter Session of the foregoing attendance, attended, at a recognized Hospital or Hospitals, Clinical Lectures on Surgery, during 2 Winter and 2 Summer Sessions; of having attended, at a recognized Hospital or Hospitals in the United Kingdom or Colonies, the Practice of Medicine, and Clinical Lectures on Medicine, during 1 Winter and 1 Summer Session; of having, subsequently to the completion of 2 years' professional education, taken charge of patients under the superintendence of a Surgeon during not less than 6 months, at a Hospital, General Dispensary, or Parochial or Union Infirmary, recognized for this purpose, or in such other similar manner as, in the opinion of the Council, shall afford sufficient opportunity for the acquirement of Practical Surgery. The Winter Session comprises a period of 6 months, and, in England, commences on the 1st of October, and terminates on the 31st of March. The summer Session comprises a period of 3 months, and, in England, commences on the 1st of May, and terminates on the 31st of July. The Examination for Membership is divided into 2 parts. The First or Primary Examination, on Anatomy and Physiology, is partly written and partly demonstrative on the recently dissected subject, and on prepared parts of the human body. The Second or Pass Examination, on Surgical Anatomy, and the Principles and Practice of Surgery, is partly written, partly oral, and partly on the practical use of Surgical Apparatus. The Primary Examinations are held in the months of January, April, May, July, and November, and the Pass Examinations generally in the ensuing week respectively. Candidates will not be admitted to the Primary or Anatomical and Physiological Examination, until after the termination of the second Winter Session of their attendance at a recognized School or Schools; nor to the Pass, or Surgical Examination, until after the termination of the fourth year of their professional education. The fee of 5 guineas, paid prior to the Primary Examination, and allowed on the whole fee of 22*l.* (this sum of 22*l.* is exclusive of the fee of 2*l.* paid for the Preliminary Examination), payable for the Diploma, is retained; and after any two consecutive failures at the Primary Examination, the Candidate is required to pay an additional fee of 5 guineas, prior to being again admitted to that Examination, which additional fee is also retained. Since the 1st of October, 1868, all Candidates presenting themselves for the final Examination for the Diploma of Member of the College, are required to pass an Examination in Medicine at the College, or to produce a recognized

Degree, Diploma, or License in Medicine, before receiving the Diploma. Edward Trimmer, Secretary.

Working Men's College, 45, *Great Ormond Street.* Founded 1854. Education in Classics, Modern Languages, Mathematics, Physical Science, History, Art, etc. The students are, for the most part, working men; and the teachers are, in general, members of the Universities and of different Professions, or those who have themselves been students in the College. Its purpose is to unite these classes together, by associating them in the common work of teaching and learning. It provides instruction at the smallest possible cost (the teaching being almost wholly unpaid) in the subjects with which it most concerns English citizens to be acquainted, and thus tries to place a liberal education within the reach of working men. Students must be above 16 years of age. They must be able to read and write, or must go to the Adult School in the College, paying 2*s.* per month, to qualify themselves for the College classes. Students can join the College at any time, but the regular time of entering the classes is the beginning of the College year—about the middle of October. In some subjects elemen-

tary classes are also formed at the beginning of the third term—early in March. The College year consists of 4 regular terms of 8 weeks each, and a Vacation term of from 8 to 10 weeks. At entrance, each student pays a fee of 1*s.* 6*d.*; also a term fee of 1*s.* for every term he attends the College. Each class is entered and paid for separately, at the rate of 2*s.* to 4*s.* each per term, with the exception of the Art Department. New rooms have been erected, and special fees are charged according to the class taken by the Student in this section. The Rev. Professor F. D. Maurice, M.A., Principal; the Rev. Professor J. S. Brewer, M.A., Vice-Principal, assisted by about 20 Teachers and Lecturers. The **South London Working Men's College,** opened by Professor Huxley, is established upon the same plan.

The Education is not limited to any Special or Professional purpose, but is Classical and general, upon the Public School system, with the introduction of Modern Elements as regular (and not as extra) portions of the school work, *i.e.* 1. The school is so organised as to admit them within the proper limits of school hours; 2. They are encouraged in the same way as other studies are, and proficiency in them advances a boy's place in the school; 3. Boys are classified and taught in Mathematics, Modern Languages, etc., according to their proficiency in those subjects; 4. They are not extras in the school accounts. The subjects taught are arranged as follows:—1. For all—Classics, (including History, etc.,) Mathematics, and French. 2. In Upper part of Middle School and in Upper School, German in addition to, or, if desired, in lieu of French. 3. Drawing (optional, except for Modern School) and Singing. 4. In Middle and Upper Schools, Chemistry may be learnt. 5. In Upper School (at least for boys intended for the University) it is generally desirable, that if they continue both German and French, it should be in alternate terms; they ought by that time to be fairly advanced in French. 6. In the Modern Department, Latin Verse composition and Greek are discontinued, or the amount of them diminished, in order that more time may be devoted to Mathematics, Modern Languages, Modern History, or Science. Future Candidates for Woolwich, etc., may enter this department on reaching the middle of the Middle School, or, if doing well in Classics, should enter it at a higher place in the School. Instruction in Classics, Mathematics, French, German, etc., to 330 scholars, all boarders, between 11 and 19 years old, 80 of whom are foundationers, orphans of officers in the army (admitted by election of Governors, and by Competitive Examination), paying 5*l.* to 15*l.* per ann., and the rest paying 80*l.* per ann., if sons of officers, 110*l.* or 130*l.* It has numerous Scholarships. 3 Wellesley Scholarships, of 50*l.* per ann. at Universities, tenable for 3 years; 2 at Woolwich, of 30*l.* per ann., tenable for 2 years; 4 at Wellington College, of 20*l.* per ann., tenable for 2 years; 8 open Scholarships of 55*l.* per ann. each, tenable here for 4 years; about 20 Competitive Foundationerships for sons of deceased officers, worth 60*l.* or 70*l.* per ann. each; and Earl Derby's gift of 56*l.* for 1 year. THE

Conference of Head Masters of Schools.

SCHOOL REFORM.

The Head Masters of the first grade schools had not been slow to recognize the great importance of the educational movement now at work in England, and from the advanced position already taken up by them in educational reforms, both as regards the teachers and the taught, we may, if they continue to act in unison, and are guided by the spirit of the times, anticipate the most valuable results; for whatever tendency there may seem to be to suggest theoretical rather than more simple and feasible reforms, there can be little question that these consultations must have some beneficial effect upon the future system of Education, if we take into consideration the fact that the leading promoters of the Conference are men of the highest culture, devoted to the cause of Education, and holding the first positions as educators in the land. The first meeting of the Conference was held at Sherborne, in December, 1870; the second meeting took place at Highgate, in December, 1871; and they will next assemble at Birmingham, at the end of this present year.

The following resolutions in reference to the organization of a School Conference were proposed and carried:—

"1. That an annual meeting of the Head Masters of the highest schools be held to discuss all questions affecting schools and education.

"2. That this Conference be held at some school, and do not meet twice in the same Registrar-General's district within three years.

"3. That the names of schools be proposed each year through the chairman for the year, and one be selected by ballot for the next place of meeting.

"4. That the Head Masters of all schools of the first grade, whether they be called public schools, endowed schools, proprietary schools, or colleges, be *ex officio* members of the School Conference.

"5. That the Head Master of any other important school may be proposed as a member, on recommendation of the committee, to be elected by a vote of the meeting.

"6. That a committee be appointed to represent the Conference, and consist of nine members, of whom three shall retire each year, and shall be ineligible for re-election.

"7. That for the next two years the committee determine among themselves what members shall retire at the end of each year, and after that time the three senior members of the committee retire by rotation.

"8. That the committee draw up a list of schools included within the meaning of the 4th resolution, and that their decision be final for the ensuing meeting.

"9. That it be an instruction to the committee of 1872 to consider and report some method of representing assistant masters at the Conference.

"10. This meeting desires to express its approval of the efforts of the committee of 1871 to carry out the wishes of the Sherborne meeting (page 7 of the report of that meeting) as to matriculation examinations and as to the avoidance of a multiplicity of different and conflicting examinations (page 8), and hopes that the committee of 1872 will continue their efforts in the same direction.

"11. That the Universities be urged to accept the senior leaving certificate either as a University Matriculation certificate, or as a whole or as a part of the Responsions Examination at Oxford and the Previous Examination at Cambridge.

"12. That this meeting is of opinion that the privileges of public foundation should not under any circumstances be bestowed by patronage, and that to award them by a judiciously regulated system of competition, so far from thwarting the desire of the founders to benefit the poor, is now the only method of really fulfilling that desire.

"13. That a memorial be presented to the Endowed Schools Commissioners praying them to deal with the questions of Scholarships and Exhibitions tenable at the Universities limited to localities or districts, or attached to schools no longer preparing candidates for the Universities, in accordance with the recommendations of the Schools' Inquiry Commission, chap. vii. (D).

"14. That the committee be instructed to communicate further with college authorities on the question of combined examinations for College Scholarships in the Universities.

"15. That, in the opinion of this meeting, if Scholarships at school be offered for competition to boys of 13 or 14, great care will be required so to conduct the examinations as to avoid unhealthy forcing.

"16. That the thanks of this meeting be given to the Latin Professors of Oxford and Cambridge for their attention to the request made to them by the Sherborne meeting, and that they be requested to issue the joint scheme of Latin Pronunciation, which they have stated their readiness to do.

"17. That the committee of the year 1872 be instructed to give prominence at next year's Conference to the question whether it is not advisable to press upon the Universities the importance of taking some steps for the purpose of promoting the directly professional training of upper and middle class schoolmasters."

The following motion, on the teaching of Physical Science, which was down for discussion, was unavoidably postponed owing to want of time:—

"That it be an instruction to the committee for 1872 to confer with the Council of the British Association, or any competent scientific body, on the best mode of advancing and improving the teaching of science in schools."

Committee:

The Rev. G. RIDDING, D.D., Head Master of Winchester.
The Rev. J. J. HORNBY, D.D., Head Master of Eton.
The Rev. H. MONTAGU BUTLER, D.D., Head Master of Harrow.
The Rev. Prebendary H. D. HARPER, M.A., Head Master of Sherborne.
The Rev. E. A. ABBOTT, M.A., Head Master of City of London School.
The Rev. Prebendary J. PERCIVAL, M.A., Head Master of Clifton College.
The Rev. E. THRING, M.A., Head Master of Uppingham.
The Rev. S. A. PEARS, D.D., Head Master of Repton.

A Conference of Head Masters

OF

Middle Class Schools

Was also held in January last, at Cranleigh School, and this will no doubt be followed up by regular annual meetings in different parts of England. The Chairman on this occasion was the Rev. Dr. LOWE, the Head Master of S. John's School, Hurstpierpoint, when the following resolutions were proposed and carried :—

"1. That no guarantee being at present obtainable as to school experience and training efficiency of assistant masters, the present meeting expresses its strong experience that such a want is a serious hindrance to the satisfactory working of middle class schools.

"2. That some united action be taken in the matter of obtaining books cheaper and more suitable for use in middle class schools. That a sub-committee of three be appointed to take practical action in the matter. That the sub-committee consist of Mr. Merriman, Mr. Morriss, and Mr. Jowitt."

"3. That this meeting considers it of essential importance in every educational scheme that boys should be enabled, by means of exhibitions or otherwise, to avail themselves of the highest educational advantages.

"4. That with a view to multiply the means of mental training, and incentives to thoughtfulness among boys, it is desirable that the study of natural science should form an integral part of the instruction given in middle class schools, together with the study of languages and mathematics."

No information has been given as to when or where the next meeting will be held.

NOTE.

The ADDENDA at page 511 contains an Alphabetical List of Principals' names and addresses, the particulars respecting whose schools had not been received in time for classification and insertion in this Edition. It will be necessary for Principals to return the form of questions, together with a prospectus of their establishments, to insure full and accurate representation in the Second and future Editions of the work.—EDITOR.

This College has been established to place within the reach of Gentlemen who are unable to avail themselves of the great schools of England, an education for their sons on a sound Church basis, and combining much individual care and attention with the leading principles of our best Public Schools, both as to tone and system.

The object of the College being thus to forward the Church's work and to benefit our country, the terms are arranged so as just to meet expenses and to supply good Masters.

Terms: 50 Guineas per Annum.

ENTRANCE FEE: TWO GUINEAS.

Before the entrance of a boy's name on the College books, a deposit of £15, as caution money, will be required. It will be returned on his removal. (This is equivalent to payment in advance.)

Payments of College dues for each Quarter must be made before the commencement of the ensuing Quarter.

A Quarter's Notice or Payment is expected previous to the removal of a Pupil.

The Year is divided into three Terms or "School-times," as at Eton.

Pupils are required to return punctually at the end of the Holidays.

N.B.—The Gymnasium was fitted up by Maclaren, of Oxford.

PROSPECTUS.

COURSE OF INSTRUCTION.—The Pupils receive a thoroughly sound and liberal education, and are carefully taught every subject required for the Professions, and for first-class Mercantile pursuits. They are prepared for the Oxford and Cambridge Local Examinations, Civil Service Examinations, the Preliminary Examination of the Royal College of Surgeons and the Law Society. As there are *Four Resident* and *Visiting Masters*, and only Forty Pupils, every boy receives a large amount of individual instruction, and is carefully grounded in the subjects he studies.

RELIGIOUS PRINCIPLES.—The Principal is a member of the Church of England, and the Pupils attend with him and his family the services of the parish Church.

DISCIPLINE.—Registers are kept to mark the daily progress of each Pupil. Boys are placed in classes according to their ability, and not according to age, and those who take a high average position in one class during a Term are promoted into another at the beginning of the next Term. Prizes are given at the end of the Summer and Winter Terms. The Examinations are conducted by means of printed papers, and are managed the same as the Civil Service and other competitive examinations: Pupils who may have to go up for these are thus introduced to the work. The Pupils are always accompanied by one of the Masters during recreation, and no one can leave the grounds without permission.

DOMESTIC ARRANGEMENTS.—These are under the personal superintendence of Mrs. Wright. The Pupils are treated as members of the family, and each receives that personal attention which can be given only where the number is small. *Domestic comfort and moral training are made matters of high consideration.* The Pupils assemble for morning and evening prayers and Scripture reading immediately after breakfast and supper. The Clothes and Linen of the Pupils are kept in a large dry room, and everything is thoroughly aired before being used. All the Apartments in the Establishment are in good condition, they are large and well ventilated, the Bedrooms are very superior, and only a few boys sleep in each room.

LOCALITY.—The Locality is on the borders of Hertfordshire: the surrounding country is hilly and extremely healthy. The Town of Luton, which is about ten minutes' walk from the premises, recently stood second for health in the returns of the Registrar-General. The healthy situation of the College premises may be gathered from the fact, that no case of serious illness has occurred during the time the present Principal has had charge of the Establishment (since the year 1856). The geological formation of the surrounding district is gravel on chalk, the air is therefore very clear and dry, and entirely free from the fogs of clay and damp districts. Trains run from London to Luton by the Midland Railway in 45 minutes, and as this line and the Gt. Northern are in connection with the Metropolitan, access to Luton is easy and cheap, the fares being 3s., and for boys under 12, 1s. 6d.

SITUATION AND DESCRIPTION OF PREMISES.—The Premises are the freehold property of the Principal, and were purchased by him after a residence of ten years, and the highest proof of their healthiness. They are admirably situated in finely timbered Grounds, on the road leading from Luton to Bedford, on high gravelly soil, and command extensive views of the surrounding country. They are five minutes' walk from the Midland Station, eight from the Great Northern, ten from Luton, and forty-five minutes by Rail from London. The Buildings are extensive and commodious; they have been erected and specially adapted for scholastic purposes at a great expenditure, and contain every accommodation for a first-class establishment. They consist of a large, well-ventilated, and thoroughly furnished School-room, large Dining-hall, Class-room, Music-room, Box-rooms, covered Playground, numerous Bed-rooms, Lavatory and Bath-room, with hot and cold water supplies. There are three Baths on the premises, so arranged that a hot or cold bath can be had at a minute's notice. The Grounds are spacious and beautiful, comprising a Meadow, Playground, Kitchen Gardens, and Lawns, surrounded with Plantations and lofty trees. Immediately in front of the Grounds is a Common of five acres, and almost adjoining the meadow at the back is a public Park of forty-three acres, containing extensive Cricket and Pleasure Grounds.

RECREATION GROUNDS.—These are extensive, and consist of a Meadow and Playground, a part of the premises, and the Common and Park above mentioned. For wet and hot weather there is a covered play-ground, 85 ft. long by 19 ft. broad, approached by a covered way from the school-room door; the Pupils *therefore have the great advantage of being able to take exercise during unfavourable weather without going in the wet.*

ANNUAL CHARGES.—These are 44, 50, and 60 guineas per annum, according to age and the course of instruction required, and include instruction in the usual branches of a thorough English education, Latin and French. The Terms also include Books and Stationery, except for boys in the higher classes, who are charged for printed Books. Each Pupil is charged £1 1s. per term for expense of Laundress, repairs of Linen, etc. As only 40 Pupils are received, three months' notice, or payment, is required previous to the removal of a Pupil, in order that vacancies may be supplied.

DIVISION OF THE YEAR.—The year is divided into three Terms.

VACATIONS.—Ten days at Easter (but Pupils living at a distance can remain in residence by arrangement), one month and a few days at Christmas, five weeks and a few days in the Summer.

OBJECT AND PLAN.

1. The purpose of the College is to provide for the sons of gentlemen, at a moderate cost, a sound Classical, Mathematical, and General Education of the highest class, combined with Religious Instruction, in strict accordance with the principles of the Church of England; the system of education and discipline being based on that of the best Public Schools.

2. The course of instruction embraces all the requirements of a Classical and a Modern School. There are special classes also for Natural Science, Drawing, Civil Engineering, Drilling, and Gymnastics, Singing, &c.; and Lectures on various subjects.

Pupils are prepared for Competitive Examinations

3. There are three Boarding Houses: Rev. J. R. WOOD, Grand Parade; Mr. J. B. Allen; Rev. A. K. CHERRILL, The Leas. The accommodation and arrangements are on the most commodious and liberal scale.

4. There is at present Class-Room accommodation for about 100 boys, the largest room being about 50 ft. by 19½ ft.

5. The private Playing Field of several acres is being fitted with all appliances for games.

JUNIOR SCHOOL.

A separate establishment is maintained, as regards both Board and Tuition, for boys from seven to ten years of age. The pupils enjoy all the educational advantages of the Senior School, special regard being had to the needs of younger boys.

TERMS.

For Tuition, 16 and 25 Guineas; for Board, 45 to 70 Guineas a year.

EXHIBITIONS AND SCHOLARSHIPS.

Two Exhibitions have been given, worth £20 a year for three years at Oxford or Cambridge.

Four Scholarships, with £20 a year to a Boarder, are generally offered for competition each year.

CALEDON GEORGE DU PRÉ, Esq., M.P., Wilton Park.

Warden.

The Rev. WALTER MOONEY HATCH, M.A., Fellow of New College Oxford.

The College of S. Paul has been established in order to provide for sons of gentlemen a thoroughly good and Christian education, similar in tone and character to that of the old Public Schools, but more economical, and better adapted to the requirements of modern times.

The Religious Instruction is strictly in accordance with the principles of the Church of England.

The College Buildings consist of Masters' Houses, Chapel, Dining Hall, School Rooms, Class Rooms, Dormitories, Private Studies, Bath Rooms, Lavatories, Sick Wards, and all necessary appliances for the accommodation and comfort of Two Hundred Boys. There are also ten acres of playing fields attached to the College.

The Payments for Board and Tuition, Washing, Medical Attendance, Drill, Stationery, use of Scientific Apparatus, and other educational appliances, amount to Sixty Pounds a year.

About thirty Senior Boys have the privilege of Private Studies.

The course of instruction includes English Grammar and Composition, Drawing, History, Logic, Mathematics and Physical Science, Greek and Latin, French and German Languages and Literature, and such other subjects as are generally recognized in the Competitive Examinations, and at the Universities.

In the arrangement of work, regard is paid to the probable vocation and future of individual boys. Practically young boys are first grounded in English Grammar, Arithmetic, the Elements of French and Latin, and gain a general knowledge of Geography, History, and the simple facts of Science. But after attaining a certain age and position in the College a boy is allowed a choice of subjects; and with this view, the College is arranged into a Classical and Scientific Department.

In the Classical Department the instruction comprises all the essentials of a sound and liberal education, and is mainly regulated by the requirements of the Universities. Translations from Greek and Latin Authors, Composition, Logic, and the practice of English Writing, are the main elements; but scope is also given for the attainment of a knowledge of Modern Languages and the higher Mathematics, a certain latitude of choice being allowed within these limits.

In the Scientific Department chief importance is attached to Modern Languages, Mathematics, and the Sciences, the instruction being specially adapted to boys intended for the Medical profession or for scientific pursuits. In addition to the ordinary routine, Lectures are delivered and practical instruction is given daily in Chemistry, Physics, Animal and Vegetable Physiology, Mineralogy, Metallurgy, etc., the subjects being graduated to meet particular requirements.

JOHN R. O'NEIL, M.A.

The College of Preceptors was established in the year 1846, and incorporated by Royal Charter in the year 1849, "for the purpose of promoting sound learning and of advancing the interests of education, especially among the Middle Classes, by affording facilities to the Teacher for acquiring a knowledge of his profession, and by providing for the periodical session of a competent Board of Examiners, to ascertain and give certificates of the acquirements and fitness for their office of persons engaged or desiring to be engaged in the education of youth." With this view, the Charter empowers the College to hold Examinations of Teachers and Schools, and to grant Diplomas and Certificates to such persons as pass these Examinations satisfactorily.

To effect these objects, two plans of examination have been established, and have been working simultaneously:

1st. That of Teachers, to ascertain their qualifications and fitness to take part in the work of instruction: and

2nd. That of Pupils, to test their progress, and to afford at once to the Teacher, and to the public, a satisfactory criterion of the value of the instruction they receive.

The Diplomas granted by the College to Teachers are of three grades; viz., *Associate*, *Licentiate*, and *Fellow*; and the distinctive feature of these Examinations is, that, in all cases, the "Theory and Practice of Education" is an obligatory subject for each grade.

The Pupils' Examinations were established in the year 1854, and have been carried on periodically since that time with steadily increasing success. The number of pupils examined during the year 1871 was about 1,600; and at the present time more than 150 schools in various parts of the country are in union with the College, and from time to time send up candidates for examination.

The First Class Certificates awarded by the College are recognized by Her Majesty's Judges, and by the General Medical Council, as guarantees of good general education; and, consequently, the holders of them, who may intend to enter the Legal and Medical professions, are exempted from the necessity of submitting to the Preliminary Literary Examinations held by the Incorporated Law Society, and by the various Medical Corporations of the United Kingdom. The Pharmaceutical Society, and various other examining bodies, also recognise the College certificates in a similar manner.

The Examinations, both of Teachers and of Pupils, are open to both sexes. There is a large proportion of female candidates at each Examination for Diplomas, and the number of Girls' Schools from which pupils are sent up as candidates for certificates is at present considerable, and is rapidly increasing.

Courses of educational lectures are delivered under the direction of the Council from time to time, and Evening Meetings of the members of the College are held monthly (except during the Christmas and Midsummer vacations), for the purpose of reading and discussing papers upon subjects connected with education.

The Annual Subscription to the College is one guinea; a single payment of ten guineas confers the privilege of Life Membership. All persons engaged in education are admissible as members, subject to election by the Council; but all candidates are required to give evidence of having passed an examination satisfactory to the Council before some recognised examining body, or, failing that, to pass an examination at the College.

The Regulations of the Examinations of candidates for Diplomas and membership, and of pupils in schools, may be obtained on application to the Secretary at the College.

The College was Incorporated by Charter, granted by Her Majesty in Council, March 27, 1845, for the purpose of affording a Practical and Scientific Agricultural Education to Students from all parts of the Kingdom.

DIPLOMA.

The College Diploma—which admits those holding it to the position of Graduate, under the title of Member—is obtained at the end of a two years' course by those who pass a satisfactory examination in Agriculture, Chemistry, and any other one subject selected by the Candidate.

Instruction in Agriculture is given by Lectures and daily Practical Classes on the Farm. The Agriculture Course of Instruction thus embraces not only a scientific discussion of established methods of cultivating different kinds of Soils in different climates—of the breeding, rearing, and general management of Stock, and of the use of Machinery—but also affords a good illustration of the cultivation of a Cotteswold Farm; to which, by an arrangement made with the Tenant, the Students have free access. Each Student is expected to keep a Daily Journal of all the operations on the Farm, and to make himself thoroughly acquainted with the Accounts.

Scholarships, tenable during three Sessions, are given to the first man in each Session. Students who enter at the Quarter are allowed to compete for this, but are required to obtain for success 5 per cent. more marks. Six Scholarships, of the value of £40 per annum, are open to competition to persons having secured a First-class Certificate in the Oxford or Cambridge Middle Class Examination.

CHARGES.

Per Annum, to be paid Half-yearly in advance—In-Students, £125; Out-Students, £50.

THE REV. HAY S. ESCOTT, M.A.,

BALLIOL COLLEGE, OXFORD.

This College was founded, in 1858, with the view of providing a course of education similar to that of our best Public Schools, with more attention to individual boys than the large forms of those schools render possible. Whilst both Classics and Mathematics are thoroughly taught in preparation for the Universities, and the Woolwich and other Examinations, very considerable attention is paid to History and Geography, and to French; a class for Natural Science has been established, and a laboratory provided; and every effort is made to instruct the Pupils in the Holy Scriptures, and to render that instruction practical. The effective character of the education is sufficiently attested both by the Reports of the Examiners, and also by the marked success of the Pupils who have proceeded directly from the College to the University, or to the Royal Academy, Woolwich.

Since October, 1861, twenty-eight Pupils have left the College for Oxford, Cambridge, or Woolwich, and not to mention College Prizes or Third Classes, have attained the following honours:—

Fourteen Open Scholarships.
One Fellowship.
Three University Prizes.
First Commission, Royal Engineers.
Seven First Classes.
Twelve Second Classes.
Fourth and Seventh Places, Woolwich Pollock Medal and Regulation Sword.

And, as only 13 of these 28 have completed their career, the number of distinctions won by them may be considerably increased.

The Pupils of the College have the use of a Gravelled Playing-ground, a covered Fives Court and Gymnasium, and a Cricket and Football Field of several acres.

Prospectuses and Reports may be obtained by application to the Rev. Hay S. ESCOTT, Bath; or to P. C. SHEPPARD, Esq., Secretary, Waterhouse, Bath; or to Mr. R. E. PEACH, Bookseller, Bath.

ALL SAINTS' SCHOOL, BLOXHAM,

Near BANBURY.

Principal and Head Master,

THE REV. P. R. EGERTON, B.C.L.

(Late Fellow of New College, Oxford.)

Chaplain.—The REV. A. D. CRAKE, M.A.
Second Master.—
Classical Tutor.—The REV. W. A. COXETER, B.A.
With Six Resident Assistant Masters.

This School, opened in January, 1860, is especially intended to give a sound general education in the distinctive Catholic principles of the English Church, and in a manly, liberal spirit, to boys who, as a rule, go direct from school into the business of life.

The course of instruction includes English generally, French, Latin, Mathematics, Land Surveying, Book-keeping, History, Geography, Writing, Drawing, Vocal Music, etc., etc., especial attention being paid to all the branches of English and Mathematics.

The time given to Latin will necessarily be short, as it cannot enter largely into a course of education which is not intended to make classical scholars. It will be taught merely as the basis of all grammar, and the standard aimed at will be the certificate of "passing" in the subject in the local examinations.

If Greek is wanted, a boy must be entered on different terms, paying 10 guineas per annum extra. In this course a boy with average powers and application would learn enough of Latin and Greek to enable him to take an ordinary University Degree with credit.

Bloxham is proverbially healthy. It is three miles distant, on the high road, from Banbury, where there are Stations of both the Great Western and North Western Railways.

The school buildings are from designs by G. E. STREET, Esq., A.R.A., Architect, and comprise schoolroom, chapel, classrooms, dining-hall, masters' rooms, matron's department, sick room and detached infirmary, bath room, and dormitories for 175 boys.

Especial attention has been paid to ventilation, and sanitary arrangements of every kind.

There is a cricket field of five acres and a half in extent immediately adjoining the school. There is also a covered place for play in wet weather, a covered fives court, a workshop with lathes, etc., and in everything the health and comfort of the boys is provided for.

The Terms are:—Boarders, 30 Guineas per annum; Washing, 2 Guineas per annum; Entrance Fee, £1 1s. Day Boys, 8 Guineas per annum; Entrance Fee, 10s. 6d.

The school year is divided into three Terms, of 13 weeks each.

Extra charges are—

Medical Attendance	£0 7 0	per Term.
Stationery and Use of Books ..	0 7 0	,,
Drilling	0 3 6	,,
German	1 8 0	,,
Pianoforte	1 12 0	,,
Use of Workshop	0 5 0	,,

Examinations are held at Midsummer and Christmas, the first being conducted by Graduates of Oxford, sent by the Diocesan Board of Education; the second being the Local Examinations, Senior and Junior, of the University of Cambridge, for which Bloxham is a centre.

As a rule, all the boys are prepared for the Junior Local Examination, and it is earnestly hoped that, whenever possible, boys may be kept at school to pass the Senior Examination.

In the Cambridge Local Examination of 1870 the School obtained the following honours:—Four *first* class, three *second*, six *third*, with thirteen marks of *distinction* in different subjects.

The present number of Boarders is 175, the full number for which there is accommodation.

For Prospectus, with full particulars and references, apply to the Rev. P. R. EGERTON.

THE DONCASTER GRAMMAR SCHOOL.

Head Master.—The REV. W. GURNEY, M.A., 1st Class Math. Hon., Camb.
Vice-Master.—W. WARREN, ESQ., M.A., 1st Class Class. Hon., Camb.
Second Master.—W. SIMMS, ESQ., M.A., 2nd Class Math. Hon., Camb.
English Master.—J. HUTCHINSON, ESQ., A.C.P., late Master of the English Form of Harrow School.

THE ABOVE MASTERS RECEIVE BOARDERS.

Six Boys from this School hold as much as £400 per annum (1871) in Open Scholarships, Exhibitions, etc., at the Universities and Public Schools.

A SCHOOL CALENDAR IS SENT "FREE OF CHARGE."

The School is divided into three distinct Departments, viz.: A Classical and Mathematical; an English School; and a Special Department, which last prepares Boys for any Special Examination or Competition.

INQUIRY COMMISSIONERS' REPORT.

"I select from the twenty-nine schools three, which take the highest place in the education of the West Riding,—Leeds, York, and Doncaster,—schools in which ample provision is made for teaching the higher subjects, and in which the entire instruction, even in the lower forms, is designed to prepare a boy for University distinctions. These constitute a small, but distinct class."—Page 108, vol. ix.

"At Doncaster, the scheme recently adopted with signal success for the revival of the Grammar School in that town leaves the absolute nomination of all the five Under-Masters to the Head."—Page 133, vol. ix.

"The parishioners of Doncaster owe the resuscitation of the Grammar School to the wisdom and experience of their Vicar, the Rev. Dr. Vaughan, who suggested the details of the scheme, and who has watched over its execution with unfailing zeal and interest.

"In the whole of this district I know no institution which seems to me so well to provide at once for the claims of the higher education, and for the claims of the poor. Considering the great difficulty so often felt in bringing these two into harmony, it may be well to recapitulate briefly those features of this particular plan, which give it value as an example to be imitated by other schools, etc."—Page 159, vol. ix.

"There are three schools in this district, which are conspicuously in advance of all the rest in numbers and reputation. They are York, Leeds, and Doncaster. These schools lay themselves out for higher education, and their curriculum is designed to prepare boys for the Universities. All are under the care of accomplished and energetic men, are increasing in numbers, and are obtaining distinction at the Universities. And I do not believe that better preparation is to be had anywhere than is obtainable at these schools, under their present management."—Page 165, vol. ix., *Inquiry Commissioners' Report.*

STUBBINGTON COLLEGE,

STUBBINGTON, near FAREHAM, HANTS.

ESTABLISHED, 1841.

Principals:

MR. MONTAGU FOSTER; CAPTAIN W. FOSTER,

(*Half-Pay H.M.'s 19th Regiment,*) *who especially superintends the military instruction and discipline.*

Assisted by an Efficient Staff of Resident Foreign and English Masters,

Receive for Education a limited number of the Sons of Noblemen and Gentlemen to prepare for the Universities, the Public Schools, the Army, Navy, Civil Services, etc.

The Course of Study embraces Instruction in English, Classics, Geometry, Algebra, Arithmetic, and Trigonometry, and the higher branches of Mathematics, the French and German Languages, Geography and History, Writing, Landscape Drawing, Painting, and Model and Geometrical Drawing, and Sketching from Nature. Military Instruction.

TERMS ON APPLICATION, AND BY ARRANGEMENT FOR BROKEN PERIODS.

Great care is devoted to instruction in French and German, under Resident Foreign Masters.

Especial attention is paid to Moral Instruction.

There are always special Classes to enable Pupils to follow those studies most suited to the profession they are intended for, and Resident Masters for each particular branch.

Mr. and Captain Foster devote the whole of their time to the instruction of the Pupils.

The distinguished success of the Pupils is the best proof that every advantage of Education is enjoyed in this Establishment. A number of Pupils annually enter the Royal Naval, Military, and Civil Services, and the Woolwich and Sandhurst Colleges. Upwards of five hundred have passed into their various professions during the last few years, all taking good places.

Stubbington College, the grounds of which occupy upwards of forty acres, is very delightfully and advantageously situated, being two hours from London on S. W. R., quite in the country, and a few minutes' walk of the sea.

Pupils over sixteen years of age have a separate Study and Sitting Room.

Young Men having passed their examination, but awaiting appointments, are received for Military Instruction and other studies.

There are Hot and Cold Baths attached to the Establishment, and Pupils have the benefit of Sea Bathing and Boating.

Mrs. Foster conducts the domestic arrangements, and sees that the health and comfort of the Pupils are attended to. The Pupils take all their meals with the family.

There are three vacations in the year.

N.B.—No corporal punishment is permitted.

A Prospectus, with full particulars and List of References to Parents whose Sons have passed the different Examinations, sent on application.

THE
Upper and Middle Schools,
PECKHAM, LONDON, S.E.

PRIVATE (20th YEAR).

Near the Peckham Rye Station, South London Line—Terminus, London Bridge or Victoria.

Conducted by JOHN YEATS, LL.D., &c.,

UNIVERSITY OF GLASGOW;

SEVERAL YEARS A TEACHER NEAR UTRECHT, AND SUBSEQUENTLY IN THE INSTITUTIONS OF HOFWYL, NEAR BERNE, SWITZERLAND.

*** The words 'Upper' and 'Middle' are thus used only to signify grades of instruction, *not* social distinctions among the Pupils.

The first term in each year commences about the middle of January; the second, on the 1st of May; the last, early in September.

Pupils are received from the commencement of their Ninth Year; they enter the Upper School on attaining their Fourteenth, or on proving themselves able to do the work of the Higher Classes. The fees (from £45) include the use of Books and Stationery, and free parents or guardians from all unforeseen charges.

Every boy is, as far as possible, well grounded in English, made to write a hand fit for business, and trained to be quick at accounts. Mathematics are next in prominence. French and German are taught by native Masters; no pains are spared to insure these being *living* languages in the Schools. Special teachers attend for the elements of Science; for Mechanical, Geometrical, and Architectural Drawing. The divisions of the school-year are equal, and the holidays short. The premises are spacious and airy; PECKHAM RYE COMMON is near, and available for cricket, football, &c. THE CRYSTAL PALACE is easy of access.

Excellent accommodation is provided for Foreigners; also for young men desirous of private study.

Dr. YEATS maintains supervision of every class, and sends home weekly a report of the conduct of each Pupil. His fellow-teachers are experienced, and, by frequent meetings, preserve unity and efficiency in their course of instruction.

A Prospectus, and Report of Examiners, including the names of the late Professor G. BOOLE, F.R.S.; the late Right Hon. LORD BROUGHAM, F.R.S., &c.; W. CROOKES, F.R.S.; Professors WM. HUGHES, Dr. G. KINKEL, L. LEVI, LL.D.; Dr. L. Schmitz, F.R.S.E., etc., may be had on application. See also the Reports of the Examiners in the Science and Art Departments, Kensington, 1867-8-9-70-71, on 450 pupils.

As special characteristics of the Instruction, see *The Natural History of the Raw Materials of Commerce*; **also,** *Technical History; or, Skilled Labour applied to Production,* **by Dr. YEATS. (Virtue & Co.)**

Clevedon College, Northampton.

PRINCIPAL,

EDWARD RUSH, B.A. (LONDON).

Since June, 1866, One Hundred and Fifty-five University Certificates have been obtained by Candidates from this College, Eighty-three of which have placed the possessors in the Honours Lists. Since the same date Nine Scholarships, Exhibitions, and Prizes have been awarded to some of the Students by the Universities of Oxford, Cambridge, and London.

As at least one-fourth of the entire number of Pupils enter for the University Examinations every Christmas, it is evident that there is no mere preparation and presentation of *picked boys;* and Mr. RUSH would point to the fact that he has hitherto been successful in passing from *five-sixths* to *seven-eighths* of his Candidates, as showing the thoroughly satisfactory way in which boys of *merely ordinary*, or even of *poor*, ability are trained at Clevedon College.

Besides the various visiting Professors, there is one Master employed for every twelve Pupils, that each boy may receive a proper amount of individual attention.

The School-room, Class-rooms, and Dormitories are spacious, lofty, and well ventilated; the Pupils have the use of a fine Swimming Bath and of a large and convenient Bathroom, well supplied with hot and cold water; the Playground is provided with Fives Courts, and with Gymnastic and other Apparatus; and the Drilling Master attends regularly during the Summer months.

INCLUSIVE TERMS:

For BOARDERS under TWELVE Years of Age . . .	Ten Guineas	per Quarter
„ „ FOURTEEN „ . . .	Eleven „	„
„ above FOURTEEN „ . . .	Twelve „	„
Drilling, Pew-rent, Domestic Medicine, Use of Bed-Linen, Silver, Hot and Cold Bath, and Swimming Bath	One „	„
Use of Books and School Stationery, Washing and Mending (linen only)	One „	„

BROTHERS ARE RECEIVED AT THE LOWEST TERMS.

No advance in terms is made during the continuance of a Pupil at the College.

EACH BOARDER IS PROVIDED WITH A SEPARATE BED.

LORETTO SCHOOL,

MUSSELBURGH, N.B.

Head Master: HELY HUTCHINSON ALMOND, M.A., Balliol College, Oxford.

Assistant Masters: W. J. BURROW, B.A., Scholar of St. John's Coll., Camb.

VILANT GRAHAM. J. M. JONES, B.A., Jesus College, Oxford.

Master of the Modern School: EMILE OTTO.

Lecturer in Mechanics and Experimental Physics: WM. LEES, M.A.

With EXTRA MASTERS *for Drawing, Vocal and Instrumental Music, Fencing, Gymnastics, Sparring, Drill, and Rifle Shooting.*

The School-house stands within about seven acres of its own grounds. There is good and safe sea-bathing.

The Cricket Field is about eight acres in extent; and a Professional Bowler is resident.

The system of the School is mainly regulated by the requirements of the English Universities, and the Examinations for Woolwich, Sandhurst, and the Civil Services, but is also suited to all for whom a liberal training is desired.

Religious Instruction forms a part of the daily business of the School.

English Reading, Dictation, Writing, and Arithmetic, occupy a considerable part of the School hours in the Lower Forms; but it is not desired to admit any boy who is not able to begin Latin with profit.

The Classical Languages have a distinct precedence over all other subjects taught in the School. Even for those who are not destined for the learned professions, they are unrivalled as a mental drill, as a key to a sound knowledge of English, and as affording, through the medium of translation, the best practical introduction to English Composition. Every boy has the opportunity of gaining an intelligent knowledge of the most important periods of English, Greek, and Roman History, and also of Geography, during some part of his School course.

Mathematics form an important part of the work done in the Upper and Middle Schools.

Elementary Astronomy, Physical Geography, and the Rudiments of Mechanics and of experimental Physics are introduced into the School course. Physiology is also taught with reference to the laws of health and vigour.

The Modern School can only be entered by a boy under special conditions—(*vide prospectus*).

Fencing, Gymnastics, and Drill, are regular School Classes.

Inclusive terms for boys who are under fourteen at entry, at the rate of ninety guineas per annum during their whole course. For every additional year of age at entry, the terms are ten guineas higher. Entrance fee, £5. When a boy joins the Modern School, the terms are raised to a hundred guineas, if not already amounting to that sum.

These terms include board and education, washing, medical attendance, seat in church, the use of school books, etc., fencing, gymnastics, and drill.

Every boy is furnished with a sponge, bath, sheets, towels, etc., at the School.

LOWESTOFT COLLEGE.

J. B. BLACKMORE,

PRINCIPAL.

Pupils prepared for the University Middle-Class Examinations, the Professions, the Government Civil Service, the Public Schools, and the Universities.

Good success attends the presentation of Candidates at the recognized Examinations.

The Course of Education embraces

THE ENGLISH LANGUAGE, GEOGRAPHY AND HISTORY;

LATIN, GREEK, HEBREW, FRENCH, AND GERMAN;

MATHEMATICS, WRITING, ARITHMETIC, AND BOOK-KEEPING;

DRAWING AND MUSIC.

The Pupils will be examined at the close of each Term, and a report of the results sent to the parents; and an Annual Examination will take place conducted by efficient Examiners.

Charges: Twenty-five to Thirty-five Guineas per annum according to age.

Three School Terms—beginning on January 13th, April 27th, and September 9th, respectively.

THE OLD HALL,

WELLINGTON, SHROPSHIRE.

Principal: J. EDWARD CRANAGE, M.A., Ph.D. of the University of Jena.

Author of "Mental Education," Lecturer to the Society of Arts, &c., &c. Assisted by eight resident and non-resident Masters, Graduates of Universities.

Dr. Cranage's undeviating aim is to TRAIN the boys committed to his care, not only in mental acquisitions, but in their whole moral and physical being.

His main object in the intellectual culture is to TEACH THE BOY TO THINK; but without omission of the positive work and hard study necessary to brace the nerves of the mind, for the making of a Scholar.

The system of rewards and punishments is peculiar, with the general absence of corporal punishment; but the experience of more than twenty years has fully proved its efficiency.

Dr. Cranage finds the most wonderful difference in the progress and conduct of the boys committed to his care, according to the measure of moral support he receives from the parents and guardians of the boys. He earnestly solicits their hearty and constant co-operation in his anxious labours.

An Examination, by Professors not connected with the School, is held at the end of the half-year, and a Report of each Pupil's advancement is sent to his parents, with printed specimens of the papers. These Examinations are conducted on a precisely similar plan to those in the Universities.

The Boys' Reading Room is furnished with good Periodicals and a well-selected Library.

There is a well-furnished Laboratory, for the study of Chemistry, Photography, etc., Dr. Cranage himself instructing in Science in the School.

A Museum is established for collecting specimens to illustrate Natural History, Arts and Sciences, together with articles of vertu and antiquity,—the boys themselves being the principal collectors and contributors.

There are two orders of distinction in the School, conferred for proficiency combined with good conduct: 1st, Palmer or Holder of the Palm; 2nd, or highest, Grecian.

The School-house is delightfully situated within a mile of the Railway Station of Wellington; it is well adapted for its purpose, and fitted up with all the necessary appliances; its school-room, reading-room, dining-room, lavatory, bath-room, and dormitories are spacious, airy, and convenient; its play-grounds very extensive, and well fitted for healthy recreation.

There is a swimming-bath in the grounds.

Each boy has, of course, a separate bed.

The holidays given are five weeks at Christmas and six at Midsummer, with a day or two at Easter and Michaelmas; and no boy is allowed to leave the School for a night, except at those times, save under special circumstances, at the consent of the Principal.

TERMS PER ANNUM.

Private Pupils, *above* 18 *years of age*, with separate Bedrooms, Horse Exercise, etc., etc., including all extras, except Books, Stationery, and personal wants	200	GUINEAS.
Ditto ditto under 18 years of age, without Horse Exercise, etc.	100	,,
Boarders, ditto ditto (except separate Bedrooms)	80	,,
Boarders, with Instruction in the usual routine of an English Education, and Latin, Greek, and French	60	
Ditto ditto for Boys under 10 years of age	50	,,

EXTRAS.

German, Italian, Spanish, Piano, Violin, Drawing, and Singing, each	4	GUINEAS.
Hebrew, Chaldee, Sanscrit, Hindostanee, Arabic, Russian, Swedish	8	,,
Organ	12	,,
Drilling, during summer months	1	,,

Use of Books (for English Education), Maps, Globes, etc., for Boys on the Sixth Form, £2; the Fifth, £1 10s.; the Fourth, £1; the Third, 14s.

Boys may have their own Books, Maps, etc., at the published prices.

The charge for boys remaining the vacations is £1 1s. per week.

It is required that all boys wear college caps at all times during the School Sessions.

A Quarter's Notice is required, in writing, previous to removal of any Pupil, or a Quarter's Terms will be charged.

CHRIST'S COLLEGE,

FINCHLEY, N.

(Five Miles from Regent's Park, and close to the Finchley and Hendon Stations of the London, Highgate, and Edgware Railway.)

INSTITUTED, SEPTEMBER 16th, 1857.

Warden:

THE REV. T. R. WHITE, M.A.

(St. John's College, Cambridge), Rector of Finchley.

Head Master:

THE REV. T. C. WHITEHEAD, M.A.

(Wadham College, Oxford.)

WITH A LARGE STAFF OF RESIDENT MASTERS.
FRENCH AND GERMAN MASTERS RESIDENT.

The object of this School is to give, on terms as moderate as are consistent with the advantages afforded, a First-class Education, preparing pupils for the Universities, Professions, Military and Naval Colleges, and all Competitive Examinations.

There is also a Modern Department, in which boys are fitted for Mercantile Pursuits, attention being chiefly bestowed on the Study of Modern Languages, and the usual subjects of an English Education.

Great care is taken with the Religious Teaching and Training of the pupils, and their comfort and happiness are studied.

The buildings are large and convenient, situated in a rural and very healthy district, and have excellent playgrounds attached to them.

There are Scholarships established in this School, varying in value from £5 to £50, by which the expenses of clever and industrious boys are considerably lessened.

The year is divided into THREE TERMS, commencing on or about January 30th, April 25th, September 12th, and payments are to be made in advance, at the commencement of each Term.

Education, Board, Lodging, Washing, Medical Attendance, Subscription to Boys' Playing and Library Fund.

£20 PER TERM.

EXTRAS: BOOKS, STATIONERY, INSTRUMENTAL MUSIC, AND ACTUAL DISBURSEMENTS.

A Term's notice is required previous to the removal of a Pupil.

Application to be made to the Rev. THE HEAD-MASTER, Christ's College, Finchley, N.

NEWTON HOUSE,

SURBITON, LONDON, S.W.

The REV. JOHN S. DAWES, M.A., offers a gentlemanly home to a limited nmuber of Pupils; assisted by first-class Masters, he prepares them for the Public Schools, the Competitive Examinations the Universities, the London University Matriculation, or commercial pursuits.

THE CLASSICAL DIVISION, in which the system of education is based upon the study of the classical languages, and modern languages hold a secondary position, embraces all the subjects of a liberal education necessary for the various examinations, or for the Universities.

THE MODERN DIVISION, in which the system of mental training is based upon the study of modern languages, and French and German are taught with the care and regularity usually devoted to Latin and Greek, embraces all the subjects necessary for those who are intended for commercial pursuits, or who do not wish to study the classical languages. Mr. DAWES has peculiar facilities for teaching French and German, having studied for several years in the best Universities of the Continent; assisted by Professors, he teaches these Languages practically as well as theoretically—they are also spoken in the family.

The course of study, in both divisions, also embraces Arithmetic, Algebra, and Mathematics generally, with all the other branches of a liberal classical and modern education. In all cases, pains will be taken to promote those studies which are likely to be of the greatest practical utility to the Pupils in after-life.

The situation of Surbiton is most healthy and attractive, being on the banks of the Thames, opposite Hampton Court Park, and only twenty-five minutes by rail from London.

There is every opportunity for healthy exercises; as Rowing, Swimming, Riding, Gymnastics, etc.

Further information may be had from Mr. DAWES, who is prepared to give the most satisfactory references.

GROVE PARK SCHOOL,

WREXHAM.

PRINCIPAL.

J. PRYCE JONES, L.C.P., &c.

Attention is respectfully invited to the following facts:—

1. The premises are extensive, and fitted up with due regard to the comfort of the Pupils.

2. Every facility for recreation is afforded by the large play-ground and cricket field which adjoin the house.

3. For several years in succession, Certificates (either from the Universities or the College of Preceptors) have been awarded to one-third of all the Pupils in the School, a statement which proves that the instruction of the whole, and not merely of a few clever pupils, is aimed at and accomplished.

4. The efficiency of the School is not confined to one branch of education, as may be seen from the circumstance that Honours have been taken by the Pupils in several distinct subjects:—*e.g.*, Latin, Mathematics, French, English Language, and Book-keeping. With one exception, every Pupil sent to the Preliminary Professional Examinations from Grove Park School has passed.

5. Mr. JONES himself looks carefully after everything affecting the health, progress, and morals of his Pupils.

Inclusive Terms for Boarders, from 38 *to* 60 *Guineas per Annum.*

The Buildings and Play-ground occupy about four acres, in a situation high and eminently healthy.

The Course of Study is carefully regulated to meet the requirements of the present day. Boys are prepared for the Public Schools, the Universities, and the Public Service; or for Woolwich, Sandhurst, and Direct Commissions; and in all cases the chief aim is to combine a good Classical and Mathematical Education with Modern Languages and Scientific and General Knowledge.

There are Special Private Classes for Boys preparing for Competitive Examinations, and every facility is afforded to those whose tastes and abilities incline them to particular branches of Study.

The Sanitary and Domestic Arrangements are thoroughly efficient, and calculated to secure the health and comfort of the boys.

On application, DR. BEHR will refer to parents of pupils, and others, including several noblemen, dignitaries of the Church, and individuals of high standing in society.

THE CASTLE COLLEGE, TORQUAY.

Principal:

MR. C. J. HARLAND,

ASSISTED BY QUALIFIED RESIDENT AND VISITING MASTERS.

Pupils are received from seven years of age and upwards; and are prepared for the Universities, the Civil Service, the Oxford and Cambridge Local Examinations, the Professions, and Mercantile Life.

In the CLASSICAL SCHOOL, the Course of Instruction embraces all the subjects of a liberal education necessary for the Universities, the Public Schools, or the various Examinations.

In the MODERN School, prominence is given to the study of the French and German Languages, which are taught with the care and regularity usually devoted to Latin and Greek. In this division a sound Mercantile Education is imparted, English Composition, Commercial Correspondence, Arithmetic and Handwriting being considered subjects of special importance.

The CASTLE, a spacious building, is situated on a rising ground, in a most healthy part of the town, and is fitted with all the modern appliances requisite for a large School. The domestic arrangements are conducted with every regard to the health, comfort, and happiness of the Pupils. Delicate boys receive especial care.

NEWTON ABBOT SCHOOL,
SOUTH DEVON.

CONDUCTED BY

MR. T. HACKWORTH.

Newton Abbot is situated in the most picturesque part of the beautiful county of Devon—"the Garden of England;" is midway between the elevated ranges of Dartmoor and the sea coast, and only about ten minutes' ride from Torquay and Teignmouth. Is easily accessible by rail from all parts; is distinguished for the mildness and salubrity of its air—the latest official return proves it to be one of the most healthy towns in England,—the average rate of mortality being only 12·15 per 1,000 inhabitants.

The House is close to the Courtenay Park, the use of which the boys have for Cricket and other Athletic Sports. There is also an ample Play-ground adjoining the School.

The course of study embraces all the usual branches of an English education, with the Ancient and Modern Languages.

Pupils prepared for the Oxford and Cambridge Local Examinations.

Mr Hackworth's great aim is to prepare his Pupils for what will probably be their future destination, and to combine the qualities of the Christian, the Scholar, and the Gentleman.

General Terms:—Thirty to Forty Guineas per Annum.

A Prospectus and References on application.
VACATIONS.—Midsummer, 21 Days; Christmas, 14 Days.

SURREY HOUSE SCHOOL,
LITTLEHAMPTON.

Situated in ten acres of ground adjoining the Sea, was formerly the marine residence of the Dukes of Norfolk, but established in 1839 as a Boarding School.

Prevention of crime is the main object which the promoters of The Boys' Home have in view. They desire to bring into their Home such boys as, from their circumstances, character, and associations, are in danger of becoming criminals.

The boys taken in here are the very poorest and most destitute—the very boys who would, almost to a certainty, when grown men, fall into the criminal class. Here it has pleased Providence to reseue them, and to prevent this wretched end. Cleanliness of body as well as of heart and soul is inculcated; an honest diligent service in a comfortable home, and then a good outlet into real life when each boy is old enough, with a sufficient outfit; and for many a passage to Australia and Canada. A new life, spiritually and bodily, is the object sought from the moment each boy enters the Home, dirty, idle, diseased, or miserable.

The boys are taught habits of order, cleanliness, and industry. They are employed in chopping firewood, in domestic work, and in mending their clothes; and such as are old enough are put to work at tailoring, shoemaking, brushmaking, carpentry, general farmwork, and gardening; some are also employed out of the Home.

For about three hours daily the boys are in school.

Full particulars of this Charity, including Her Majesty's Inspector's report, will be sent by post to any address.

Subscriptions and Donations are most earnestly requested; and may be paid to any Member of the Committee; to Messrs. COUTTS & Co., Bankers, Strand; or to the Master, Mr. GEORGE RAYMENT, at the Home, Regent's Park Road, N.W. Post-Office Orders and Cheques should be made payable, and all correspondence should be addressed to

GEORGE WILLIAM BELL, *Treasurer.*

THE COMMITTEE OF MANAGEMENT

OF

THE BOYS' HOME,

President:

THE LORD BISHOP OF LONDON,

Are desirous to commend this Industrial Home for Destitute Boys Not Convicted of Crime, to the kindly notice of the Heads of Colleges and Public and Private Schools, in the hope that they will endeavour to interest their Pupils in its welfare. No object can be more appropriate for the alms of the boys and young men of England than this. The Treasurer will be happy to send the Report of the Boys' Home post free; it fully describes the work done, and the results of the training given in this Industrial School. The generous assistance already given by the Masters and Boys in several Schools is there gratefully acknowledged.

GEORGE WILLIAM BELL,

Treasurer.

DR. OGILVIE'S ENGLISH DICTIONARIES.

THE IMPERIAL DICTIONARY, English, Technological, and Scientific, containing all Words purely English, numerous Foreign Words used by English Writers, and the most generally used Technical and Scientific Terms, together with their Etymology and their Pronunciation. With a Supplement, containing an extensive collection of Words Terms, and Phrases not included in previous English Dictionaries. By JOHN OGILVIE LL.D. Illustrated by upwards of 2,500 Engravings on Wood. Two large volumes imperial 8vo, cloth, £4.

"Dr. Ogilvie has not only produced the best English Dictionary that exists, but, so far as the actual state of knowledge permitted, has made some approach towards perfection."—*British Quarterly Review.*

THE COMPREHENSIVE ENGLISH DICTIONARY, Explanatory, Pronouncing, and Etymological. By JOHN OGILVIE, LL.D. The Pronunciation adapted to the best modern usage, by RICHARD CULL, F.S.A. Illustrated by above 800 Engravings on Wood. Super-royal 8vo, cloth, 25*s.*

"We do not hesitate to recommend this Dictionary as, next to the more costly and cumbrous 'Imperial,' the very best that has yet been compiled."—*London Review.*

THE STUDENT'S ENGLISH DICTIONARY, Etymological, Pronouncing, and Explanatory. By JOHN OGILVIE, LL.D. The Pronunciation adapted to the best modern usage, by RICHARD CULL, F.S.A. Illustrated by about 300 Engravings on Wood. Imperial 16mo, cloth, red edges, 10*s.* 6*d.*; half morocco, 14*s.*

"This is the best Etymological Dictionary we have yet seen at all within moderate compass. We have examined a good many etymologies taken at hazard, and believe them all to be such as the best philologists, both of Germany and England, have deliberately accepted."—*Spectator.*

DR. OGILVIE'S SMALLER DICTIONARY; An English Dictionary, Etymological, Pronouncing, and Explanatory. With a List of Affixes and Prefixes, Abbreviations and Latin and French Phrases. By JOHN OGILVIE, LL.D. The Pronunciation by RICHARD CULL, F.S.A. Imperial 16mo, cloth, red edges, 5*s.* 6*d.*

"The etymological part of the work is well done, indicating a familiarity with the languages from which our vocabulary is derived, and at the same time a sound discretion in tracing the origin of words. The pronunciation is clearly and correctly indicated, and the explanations, though necessarily brief, are clear and precise."—*Athenæum.*

NATURAL PHILOSOPHY: AN ELEMENTARY TREATISE ON NATURAL PHILOSOPHY. By PROFESSOR DESCHANEL, of Paris. Translated and edited, with extensive additions, by PROFESSOR EVERETT, D.C.L., of Belfast. GROOMBRIDGE'S SCIENCE MANUALS.

CHEMISTRY.

By Professor BARFF, M.A., Professor of Chemistry to the Royal Academy of Arts. Illustrated with numerous Wood Engravings. Fcp. 8vo, cloth, 4s. An Introduction to Scientific Chemistry, designed for the use of Schools and Candidates for University Matriculation Examination. Third Edition.

This book is now acknowledged to be one of the very best suitable for preparation for examinations. The Matriculation Questions at the London University, from January, 1865, to June, 1871, inclusive, are given, together with the answers.

"This is the first volume of an educational series of elementary treatises about to be issued for students. The student who knows Mr. Barff's book in the way it is intended to be known, will have a solid ground-work of chemical knowledge on which he may safely rear the more speculative branches of the science. For the purposes of clear instruction for preparing for the earlier examinations, and last, though not least, for cheapness and excellence, we heartily recommend Mr. Barff's work to the notice of students."—*The Lancet.*

"It is impossible to read this book without a conviction of its marked superiority. The conciseness and lucidity with which each point is handled give to it the freshness of original study; and the reader is disposed to regret that in his younger days he was possessed of no such handbook on this difficult science with which to quicken his awakening aspirations. Mr. Barff's book is a complete success in the art of driving away the weariness of first attempts."—*Examiner and London Review.*

HEAT.

By TEMPLE AUGUSTUS ORME. Illustrated with numerous Wood Engravings. Fcp. 8vo, cloth, 3s. 6d. An Introduction to the Science of Heat, designed for the use of Schools, and Candidates for University Matriculation Examinations.

"This book is full of excellent examples of the various laws of heat, and the student who has worked through these questions cannot fail to have acquired a good practical knowledge of the subject."—*Nature.*

"Mr. Orme has produced an educational work which is well fitted for giving all who study it with understanding a very thorough insight into the laws and phenomena of heat."—*British Medical Journal.*

MECHANICS.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcp. 8vo, cloth, 4s. An elementary course of Theoretical and Applied Mechanics, designed for the use of Schools, Colleges, and Candidates for University and other Examinations. Second Edition, revised and corrected.

"Mr. Wormell states in clear and concise language the principles of elementary statics and dynamics. We have no doubt that this excellent little work will be a great success."—*Nature.*

"Mr. Wormell's book cannot be too warmly praised as an introduction to the study of Theoretical and applied Mechanics."—*Chemist and Druggist.*

HYDROSTATICS AND SOUND.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcp. 8vo, cloth, 3s. An elementary course of Hydrostatics and Sound, designed for the Use of Schools, Colleges, and Candidates for University and other Examinations.

"Forming one of the admirable series of 'Groombridge's Science Manuals,' 'Hydrostatics and Sound' is in every respect worthy of the position assigned to it. The various principles enunciated are illustrated most clearly by experiments, which, being fully and carefully described in a popular style, may readily be performed by the uninitiated."—*City Press.*

"The whole subject is dealt with in a very simple and intelligible way, which will doubtless recommend it to students."—*Educational Times.*

This book is now acknowledged to be one of the very best suitable for preparation for examinations. The Matriculation Questions at the London University, from January, 1865, to June, 1871, inclusive, are given, together with the answers.

NATURAL PHILOSOPHY.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcp. 8vo, cloth, 4s. A course of Natural Philosophy, containing the Elements of Mechanics, Hydrostatics, and Optics. Designed for the use of Schools, Colleges, and Candidates for Examination.

FOR SCHOOLS AND COLLEGES.

A Handbook to the Grammar of the Greek Testament. Together with Complete Vocabulary and an Explanation of the Chief New Testament Synonyms. Illustrated by numerous Examples and Comments. Post 8vo, 7s. 6d. boards.

"We are very glad to have so thoroughly handy a manual of Greek Testament Grammar. In arrangement it leaves nothing to be desired, and it is thoroughly well up to the scholarship of the day."—*Literary Churchman.*

The Midnight Sky: Familiar Notes on the Stars and Planets. By EDWIN DUNKIN, of the Royal Observatory, Greenwich, Fellow of the Royal Astronomical Society. With Thirty-two Star-Maps, and other Illustrations. Imp. 8vo, 7s. 6d. cloth boards; 9s. extra, with gilt edges.

"I find in it all the qualities of excellence as a book: lucid, perspicuous at a glance, concise, correct; completely fulfilling its purpose. Those little Maps of the starry spaces far surpass, in clearness and useful worth, all I have seen before in the planisphere way; no reader but by help of them may find, with a minimum of trouble, the star he seeks. It is long since I have seen in any department a piece of work so well done."—*Letter to the Editor from Thomas Carlyle.*

THE PRIVATE SCHOOL
LATIN PRIMER.

CONTAINING

THE GIST OF THE PRINCIPLES OF THE LATIN LANGUAGE, UPON AN ENTIRELY NEW PLAN,

COMPRISING

GRAMMAR, EXERCISE BOOK, AND VOCABULARIES,

For the use of Schools and Private Students.

BY CHARLES WAITE, LL.D., F.R.G.S., F.S.A.,

Author of "A Philosophical and Critical History of American Literature."
Principal and Head Master of S. John's College,
Laurie Park South, Penge, Surrey.

PREFACE.

I have been a practical teacher for nearly twenty years, and have never in the course of that time met with a text-book of the Latin Language which satisfied my ideas of what a good, serviceable introduction to the study of a difficult language ought to be.

These books contained either *too much* or *too little.*

Teachers and pupils found, after painful experience and mutual disgust, that "the wearisome bitterness of learning" never seemed to come to an end; so that each wished he could abandon his task in despair.

Put the "Public School Latin Primer" into the hands of a man wishing to learn Latin, and ask him whether he thinks he can ever learn so as to apply the doggerel stuff written to teach gender, and so on with the rest.

I believe the English boy can be taught anything in reason, if taught reasonably; and so I have stolen a few hours daily from my own time for some months to try and make the work of the general teacher *easier* and *more successful,* and the work of the pupil more intelligent and happy.

This is not a philosophical work. It is a plain, bold outline of the Latin Grammar; and I venture to say that it contains all that is requisite to know to work a paper for the Oxford A.A., or Matriculation at the London University.

If this little book should meet with success, I hope to put in the press, on the same plan, "The Private School Greek Primer."

"THE SCHOOLMASTER" is, in the highest sense, a Professional Organ, in which the interests of the Profession are advocated, and their opinions freely expressed. It gives early and accurate intelligence of Educational proceedings, and is a medium of rapid communication between all interested or engaged in National Education. It contains Leading and Contributed Articles by the most eminent Journalists, the list of Contributors already comprising the names of some of the best known writers of the day. The very complete staff of Agents and Correspondents appointed throughout the country, in the Colonies, and on the Continent, enables "THE SCHOOLMASTER" to furnish special information as to the progress of Education at "Home and Abroad."

The price of the Paper, and the character of its contents, has secured for "THE SCHOOLMASTER" an extensive circulation among SCHOOL MANAGERS, TEACHERS, MEMBERS OF SCHOOL BOARDS, and others; and it is thus an eligible Advertising medium. As a Weekly Newspaper, it has special place among Scholastic Periodicals, and while it in no way interferes with existing papers, it secures to School Managers seeking Teachers, and to Teachers seeking Schools, extraordinary advantages.

LONDON: THE EDUCATIONAL NEWSPAPER COMPANY (LIMITED).

Literary Communications, Correspondence, Reports of Teachers' Associations, and other matter intended for insertion, should be addressed to "The Editor," and should reach the Office not later than Tuesday in each week. Communications respecting the Company, and all applications for Shares, to be addressed to "The Manager." Advertisements, and all inquiries relating to them, should be sent to Mr. T. H. MASON & HAMLIN'S AMERICAN ORGANS.

Messrs. METZLER & Co. have the pleasure to announce that they have made arrangements with the MASON & HAMLIN ORGAN COMPANY for the SOLE AGENCY for the Sale of their Instruments in the United Kingdom.

Messrs. METZLER & CO. *have shown these Instruments to a few of the most eminent professional men in London, and have received the following Testimonials in their favour:—*

2, MANCHESTER SQUARE, *Jan.* 26, 1872.

GENTLEMEN,—I entertain the highest opinion of Mason & Hamlin's Cabinet Organs. The tone is mellow and free from reediness, the touch excellent; and altogether I believe these instruments are destined to be very popular in this country.

Yours truly,

Messrs. METZLER & Co., Great Marlborough Street. JULIUS BENEDICT.

The specimens of the American Organs which I have examined at Messrs. Metzler & Co.'s are remarkably sweet and even-toned throughout the various registers, and are free from many of the objections I have hitherto entertained of the Manual Reed Instruments. Moreover, they have a good touch, and are capable of some charming effects and pleasing combinations. The appearance of these Organs in solid walnut wood, and bright gilt pipes in front, is greatly in their favour. Altogether, I can very strongly recommend these instruments.

WM. SPARK, MUS. D.,
Organist of the Town Hall, Leeds.

Messrs. METZLER & Co. SYDENHAM, S.E., *23rd Jan.*, 1872.

GENTLEMEN,—I have played upon several of your "Mason & Hamlin's Cabinet Organs," and consider them to be very satisfactory instruments. The tone is exceedingly sweet, the speech quick, and the manipulation easy. Faithfully yours,

W. J. WESTBROOK.

I have just tried and examined several of Mason & Hamlin's Organs at Messrs. Metzler & Co.'s, and I find the tone to be unusually mellow, sweet, and equal. The touch of the instrument is also light, elastic, and free from lumpiness.

EDWARD J. HOPKINS,
Jan. 22, 1872. *Organist to the Hon. Societies of the Inner and Middle Temple.*

I have a very high opinion of the "Mason & Hamlin Cabinet Organ." Although the sounds are produced from reeds, the quality of tone is extremely rich and sympathetic, almost equal to that obtained from pipes. It is very easy to blow, and great effects are produced by the Automatic Swell. The octave-coupler and sub-bass add greatly to the richness of the instrument, which is remarkable for *purity* of tone. For sacred music at home, the "Mason & Hamlin Cabinet Organ" is very desirable; and in many respects that could easily be pointed out, it possesses great advantages over the small-priced pipe organs. EDWARD F. RIMBAULT.

At the request of Messrs. Metzler & Co., we have tried and examined several of Messrs. Mason & Hamlin's Cabinet Organs, and we find the tone of these instruments to be full, powerful, and of agreeable quality, with an absence of reediness; the articulation is rapid, and the touch very good. They appear to us to be the best substitute for a pipe organ.

Vice-Principal:

THE REV. ALLAN D. FREEMAN.

WITH A STAFF OF RESIDENT AND VISITING MASTERS.

The Western College, for many years conducted by the late Dr. H. Stein Turrell, is adapted to receive a limited number of Young Gentlemen to be prepared for the Public Schools, the Universities, the Civil Service, the Naval and Military Colleges, and for Professional and Commercial Life.

Terms:

Pupils under 12 years of age each ..	Sixty Guineas per annum.
,, above 12 and under 15 years of age	Eighty Guineas per annum.
,, above 15 years of age	One Hundred Guineas per annum.

Washing, Five Guineas per annum.

The Extra Charges are for German, Dancing, Drawing, Music, and Drilling

A notice for one Term is required previous to the Removal of a Pupil.

The Fees for Board and Education to be paid at the beginning, and for Extras at the close of each Term.

The situation of Montpelier House is recognised as the most salubrious in the town of Brighton; it is in the immediate vicinity of the sea, and sheltered from the northerly and easterly winds. The schoolrooms, playground, and general accommodations are large and airy, and have been fitted up with a view to the health and enjoyment of the Pupils.

The Course of Education pursued in the School is one which has been attended with the most successful results, especially in preparing Pupils for the Universities, the Competitive Civil Service and the Military Examinations, and the Public Schools,—in all of which the Pupils of the Western College have been highly distinguished.

Young Gentlemen who are intended for Mercantile life, receive a sound instruction in Modern Languages, in Arithmetic, Book-keeping, and other essentials to their future success.

The Classes are so regulated, that every Pupil has the benefit of much personal attention, whilst the classification of the School secures all the advantages of emulation and honourable rivalry, advantages which cannot be attained in Private tuition; and without which few Boys can be induced habitually to use the higher faculties of their minds.

The comforts and the health of the Pupils are deemed considerations of primary importance, and every effort is made to promote them. The ample testimony of many parents will show to how great an extent these efforts have proved successful.

The Scholastic Year is divided into Three Terms.

The First extends from the close of the Christmas Holidays to Easter.
The Second extends from the Easter Recess to the last week in July.
The Third extends from the Middle of September to Christmas.

The Christmas Holidays (five weeks) begin about the 21st of December.
The Easter Recess (two weeks) begins on the Wednesday before Good Friday.
The Long Vacation (six weeks) begins the Last Week in July.

punctual re[illegible] of Pupils on the day of opening is of great importance.

THE REV. WILLIAM B. PHILPOT, M.A.,

OF LITTLEHAMPTON, SUSSEX,

PRIVATE TUTOR,

Prepares twelve gentlemen, varying from the age of about 15, to 18 or 19, for the Universities of **Oxford, Cambridge, Dublin, or Harvard**; and for the **India and Home Civil Service.** He is also assisted by the staff of the late Rev. J. BATY, of Worlaby, Roehampton, whose Executors requested him to carry on the work of that eminent and lamented Tutor in preparing gentlemen **for the Army and for Woolwich.**

MR. PHILPOT'S STAFF CONSISTS OF

A Cambridge Wrangler, of long and successful experience in preparing for the Public Examinations.

An Oxford Graduate in honours, skilled both in careful grounding, and in helping to carry on the highest classics.

An Eminent French Professor, from the University of Paris, who comes from London, and resides with the gentlemen from Friday to Monday.

A German Teacher who comes twice a week, or as often as special need may require; modern languages being specially attended to, and much used in common conversation.

An excellent Artist, who teaches in some of the principal Schools in Brighton.

A Master of Fencing, Boxing, and Athletics, from Angelo's, in St. James' Street.

No pupil is received, or retained, of whom there is not fair hope, or good proof, that he will attend to the rules of the establishment. A scheme of work, hours, and masters is drawn up, with reference to the special requirements of each pupil, and given to him for his guidance at the beginning of each of the three terms. Each gentleman has a separate room. Arrangements are made for remaining during vacations. *During the Long Vacation Oxford and Cambridge men are received.*

On application Mr. Philpot will send copies of letters from the Archbishop of Canterbury, the Bishop of London, the late Bishop of Calcutta, the Dean of Westminster, Dr. Vaughan, the Earls of Derby and of Kimberley, and several from the parents of late pupils, and from friends on the occasion of their ceasing to be pupils.

It may be added that Littlehampton stands on the coast of Sussex, on the Arun, 20 miles from Brighton, and 20 from Portsmouth; within two hours by railway from Victoria, Kensington, or London Bridge. There is good scope for fair recreation in the afternoons on the River, the Sea, and the Common, in boating, bathing, cricket, football, &c. The healthfulness of the place, which was a favourite resort of Abernethy, renders it, as Mr. Philpot has often proved, highly useful to those who are delicate.

ADDENDA.

Private Schools,

Respecting which the necessary particulars had not been received in time for classification and insertion in this Edition. The Second Edition will, however, embrace all these Schools. The Editor therefore hopes that those Principals who have not returned the form of questions, with a Prospectus of their Establishment, will do so as speedily as possible, to ensure full and accurate representation in the Second and future Editions of this work.

NOTE.—The fullest reliance may be placed as to the present existence of every School mentioned in this work, and also as to the accuracy of the names and addresses.

NOTE.—The Editor's original intention was to receive only Scholastic and Publishers' advertisements; he however decided upon accepting a *limited* number of general advertisements, and regrets having had to decline so many. Arrangements will, however, be made to insert a greater number of general advertisements in future editions of the work.
